APRIL.

Barur Project Division

Instructions for converting the — into a sub-division of the Coimbatore division.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers:—

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coonoor, 1st May 1885, No. 166 E.W. (through the Chief Engineer for Irrigation).

I have the honor to forward, herewith, a report from the Executive Engineer, Coimbatore, regarding arrangements for the conversion of the Barur project division into a sub-division of Coimbatore, and to request permission to retain the services of the present office establishment (with the exception of the accountant who may be transferred by the Examiner for duty elsewhere) for the present official year.

1 Letter No. 765, dated 30th April, from the Executive Engineer, Coimbatore division.

ENCLOSURE.

From Captain D. McN. CAMPBELL, R.E., Executive Engineer, Coimbatore Division, to the Superintending Engineer, IV Circle, dated 30th April 1885, No. 765.

With reference to your endorsement No. 172, dated 22nd April 1885, on G.O., No. 953 W./A, of 22nd April, I have the honor to inform you that I do not think any member of the Barur division office can be dispensed with except, perhaps, the accountant.

2. The Barur project being classed as a Productive Public Work, a somewhat elaborate system of accounts has to be maintained, and, as those parts of the project which give the most trouble and accounts, viz., the masonry works, are just about commencing, the office labor will be greater than it has hitherto been, and it must further be remembered that the grant for this year is Rs. 98,000 against Rs. 55,265 for last year and Rs. 5,725 for the year before; and that most of this will have to be expended on a large number of scattered works.

3. I do not think it has been found that the present office establishment is excessive, and consequently there can be no reason why it should be reduced when the work is to be increased as shown above. My only reason for dispensing with the accountant is that I do not think it would be advisable to have two accountants in the same office preparing the accounts for one division.

4. The Barur office establishment consists of an accountant, four clerks and two draftsmen. The head clerk assisted by two others will not be too much to keep the sub-division accounts, check all bills, measurements, &c., and keep all correspondence; the fourth clerk will be required to work in the division office and assist the present Coimbatore accountant in compiling the extra accounts required. Two draftsmen are, I consider, necessary, as many working drawings will have to be made and probably revised estimates now and again. It must be borne in mind that, in addition to the project works, there are the works in the Krishnagiri and Hosúr taluks to be attended to, and that in the latter there is the Remount Depôt at Hosúr, which gives a considerable amount of work in the way of petty repairs; there is also a good deal of correspondence connected with it.

5. There are at present two messengers and three lascars attached to the division, and I do not think it advisable to dispense with any of them, as Barur is such at out-of-the-way place that it is necessary that there should be more lascars than in an ordinary sub-division.

6. As regards the carrying out of the works, I think that Mr. Assistant Engineer Marjoribanks with two overseers for the project works and one for Hosúr and Krishnagiri may be sufficient.

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 4th May 1885, No. 170 E.W.

With reference to my letter No. 166 E.W., of 1st instant, and G.O., No. 953 W., of 22nd ultimo, I have the honor to inform you that Mr. Assistant Engineer Marjoribanks is now *en route* to Barur to take charge of the new sub-division; the formation of which I propose should date from 15th instant.

2. I have informed the Examiner with a view to the accountant being transferred elsewhere, and the other four clerks and two draftsmen will be retained pending your orders on my letter above mentioned.

No. 54 E.W.

Forwarded to the Chief Engineer, Public Works Department, for favorable consideration.

OOTACAMUND,
4th May 1885.

(Signed) J. O. HASTED, Colonel, R.E.,
Chief Engineer for Irrigation.

ORDER—dated 13th May 1885, No. 1135 W., Public Works.

The proposals of the Superintending Engineer, IV Circle, are approved.

2. A report should be submitted at the close of the current official year as to the necessity for continuing the office establishment at its present strength.

MAY.

Barur Project Division

Proposals of the Superintending Engineer in connection with the conversion of the — into a sub-division of the Coimbatore division, approved.

Public Works Department.

No. 91 C dated 12th January 1887.

MEMORANDUM.

The reduced grant for Public Works establishment sanctioned for 1887 - 88 having made it impracticable to make any provision in the preliminary issue of the Provincial budget for that year for temporary establishment, Superintending Engineers are requested to give notice to all temporary officers, subordinates and other temporary employes in their respective circles that their services will be dispensed with at the end of February 1887. Care should be taken that each individual receives a full month's warning.

2. Upper subordinates of the permanent establishment holding temporary engineerships will revert to their permanent positions on 1st March 1887.

3. Further specific orders dispensing with the services of temporary employes will issue hereafter, but Superintending Engineers will consider at once what arrangements can be made to redistribute the permanent establishment, under all heads, in their respective circles, so as to provide in the most efficient manner possible for the conduct of work. Superintending Engineers should be prepared to submit their reports on this subject with the least possible delay when

called

called upon to do so.

Enclosure
1. Statement.

Vide Cir 1775

Sir,

With reference to G.O. No. 569 W of 25th Ultimo, I have the honor to report that in consequence of the whole of the Establishment, except the Supervisor at Hosur, including Overseers, Clerks, and Lascars, hitherto entertained as tempo-
-rary Establishment in the Barur Subdi-
-vision having been thrown out of em-
-ploy by the instructions contained in your Memo: et. 91C of 12th January 1887, I have prepared a Statement showing the Establishment as it existed

and

and what is now proposed to be charged to the Estimate of works in progress.

2. Barur Division was converted into a subDivision in G.C. No: 935W/A of 22d April 1885, and G.C. No: 1135W of 13th May 1885, and the Subdivisional Officer would be entitled to 1 Clerk on Rs: 20 to 30 and 4 messengers or Lascars.

3. I am of opinion the whole of the Establishment I now propose is within my power of sanction; and I merely forward the Comparative Statement for your information.

4. The permanent personal establishment of 1 clerk and 4 messengers or Lascars to which the subdivisional Officer is entitled will have to be entertained from 1st Instant

5. The extra clerks proposed, are what is found absolutely necessary for keeping the complicated accounts of the Barur Project.

West Coast Division office,
Calicut, 23d June 1887

No. 378

From,

N. S. Taylor, Esquire,
Executive Engineer,
West Coast Division.

To,

The Superintending Engineer,
4th Circle.

Sir,

I have the honor to
bring to your notice for fa-
-vorable consideration the case
of Road Superintendent Hen-
-chappa employed on the
Calicut - Cavjitti Road.

2. Henchappa was, pre-
-vious to March last, graded
as a temporary overseer Rs.
grade on Rs 100 per mensem;
with this and allowances, he
drew on an average Rs 140 per

mensem.

3. On the reduction of all temporary establishments after the 28th February 1887, Kenchappa was kept on the road work on a consolidated salary, charged to works of Rs 130 per mensem, or less than he was receiving before.

4. He has been employed on this road since it was taken in hand by this Department in 1885. His work has been in my charge for upwards of twelve months, and I have no hesitation in saying that he is a first rate man for the work.

5. Besides being active, healthy, and zealous he can converse fluently in the language of each of the many different parts of the country from which the laborers on the road are drawn, which goes a great way towards ensuring good work.

6. Mr. Higgins, employed on the iron work of the bridges, is in receipt of Rs 150 per mensem, and I recommend that Kenchappa who has more travelling about and more laborious duties to perform, should be paid at the same rate, that is, that his salary should be raised from Rs 130 to Rs 150 per mensem, with effect from 1st June.

7. I deferred making this recommendation until after your own and my late inspection of the road work, in order that the merits of the Road Superintendent might be judged after

personal observation of the work
turned out by him.

I have the honor to be,
Sir,
Your most obedient Servant

H. Taylor
Executive Engineer

No 273 E.W.

Forwarded for the information and orders of the Chief Engineer with a recommendation that the proposal of the Executive Engineer to raise the pay of Superintendent (late overseer) Kenchappa to Rs 150 be sanctioned. His present pay of Rs 130 is charged to works.
