GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From G. D. WYBROW, Esq., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Bezvada, 29th April 1887, No. 66 N.L.

At the request of the President, District Board, Nellore, I have the honor to submit, for your approval and the sanction of Government, an estimate, amounting to Rs. 10,020, for the construction of a dispensary at Ongole in the Nellore district.

2. Copies of the President's letter, No. 2465, dated 22nd March 1887, and the District Board's resolution, No. 292, of 1886-87, together with plan and specification, are herewith forwarded.

3. I beg here to point out that the dispensary has not been designed according to the standard plan approved of in G.O., No. 194, dated 28th August 1876, but I am informed that it is not necessary for Local Fund Boards to adhere to the standard plans.

ENCLOSURE.

From the President, District Board, Nellore, to the Superintending Engineer, II Circle, dated 22nd March 1887, No. 2465.

In forwarding, herewith, an estimate for Rs. 9,940 * for the construction of Ongole dispensary, together with the plans and specifications thereof, I have the honor to request that you will be good enough to scrutinize the estimate and forward it to Government if it meets with your approval.

* Corrected in the Superintending Engineer's office to Rs. 10,020.

2. Copy of the District Board's resolution, No. 292, of 1886-87, passing the estimate, is herewith forwarded. The estimate was prepared by the Local Fund Engineer and passed by the Municipality (Ongole) and by the District Board. The latter have promised to contribute more than a third of its cost.

3. Rs. 2,700 was provided in the Local Fund budget of 1886-87 for the building grant of Ongole dispensary, and Rs. 1,400 was due to Local funds on account of supervision charges on the same work from Municipal funds. In paragraph No. 3 of Government order, No. 397, dated 30th April 1886, the Government have ordered that only Rs. 1,300 should be entered as the contribution due to the Ongole Municipality. Rs. 1,180 is allotted in the next year's budget.

4. The Board having resolved to forego the supervision charges, the necessary funds will have to be allotted for the purpose.

Note by the Chief Engineer, Public Works Department.

Submitted for the sanction of Government.

2. The arrangement of the rooms seems unobjectionable, but the general effect of the building is not pleasing. It would be better, in the opinion of the undersigned, to omit all the cast iron work provided for, and allow rectangular ventilators in ordinary

wooden frames, and plain water-pipes. It is unusual to provide rolled iron girders for spans of from 12 to 16 feet and iron brisummers, but the Board have approved of this arrangement.

26th May 1887.

(Signed) J. O. HASTED, Col., R.E.,
Chief Engineer, P.W.D.

ORDER—dated 1st June 1887, No. 1487 W., Public Works.

The estimate, amounting to Rs. 10,020, for constructing a dispensary at Ongole, is sanctioned.

2. The attention of the District Board will be drawn to Chief Engineer's note above recorded.

3. This sanction has been registered as Local, No. 10 W. of 1887-88.

(True Extract.)

From the S.E. II Circle

NOTE OF REMARKS.

1. At the request of the Presi-
-dent District Board, Kolleru,
the accompanying plans and
estimate of Rs 10020, are sub-
-mitted for constructing a Dis-
-pensary at Ongole in the Kolleru
District.

2. The S.E. says:— I beg here
to point out that the Dispen-
-sary has not been designed
according to the Standard
Plan approved of in G. O.

No. 194 dated 28th August 1876,
but I am informed that it
is not necessary for Local
Fund Board to adhere to
the Standard Plans.

3. The foundations are to be
4 ft. high, the basement 2 ft.
high, and the height of walls
of the rooms and porches
are

G. 70-5-87 R. 1-6-87

are 14 + 16 ft. respectively to the bottom of terrace, the thickness of ^{the} walls of the main building is $\frac{1}{2}$ ft., the foundation, basement, and the walls above including flat and circular arches are to be built ^{of brick} in mortar.

4. Leather in mortar is provided for quoins for corners (of the building) up to cornice.

Plastering in + outsides of the building is to be of 3 coats Chunan. Flooring to Dispensary, operating room, store room, Male and Female Ward is to be of asphalt $\frac{1}{4}$ " thick on 4" concrete, as for Portico and Verandahs all round will be floored with 4" concrete and plastered. Roofing to Portico, Dispensary, operating, store, Male + Female Wards is to be of terraced with brick on $\frac{1}{4}$ " 3" concrete, 3 courses of flat tiles, plastering the ceiling and top with 3 coats of mortar, as for Verandahs to be of sloped terrace 1 course

of flat tiles + 2 courses of terrace tiles, + plastered.

5. Four rolled iron girders to support joists are provided in the estimate viz one $10 \times 6 \times \frac{1}{2}$ for Portico, one $12 \times 5 \times 5 \times 17$ for Dispensary, two $8 \times 5 \times 5 \times 18$ for operating room. Channel iron $3 \frac{1}{2} \times 1 \frac{1}{2} \times \frac{3}{8}$ is provided for bressummer to support the verandah roof rafters &c, please see para XI in the accompanying specification.

6. All wood work such as joists, verandah rafters &c are to be of teak, and the scantlings of timbers are correct.

7. Cast iron rain water pipes, circular Ventilators (sormar windmills), cupola roof lights, terminals at corners and at centre of portico are provided in the estimate.

8. All wood work + iron girders + bressummers &c are to be painted with 2 coats of Anti Corrosion paint.

9. Report and specification have been submitted.

10. The rates are fair but those

those for iron work cannot be checked for want of a proper schedule.

11. Petty supervision and contingencies are separately charged at 5 percent.

12. The plans and estimate have been submitted by the President of the Local Fund Board, but not countersigned.

C No 3400

Ohole Dispensary

Est ~~At~~ 10,020

The general arrangement of the building has been approved by a medical officer of the Public Health; and by the District Board; but the architectural features seem to require a little attention -

The building has apparently been designed to utilize some ornamented rain water pipes, and several cast iron frames for dormer windows, along with some cast iron terminals at the corners & over the porches of the building -

The alterations I would suggest are

- (1) Rectangular dormer windows set in wooden frames
- (2) Rain water pipes of plain design, so as to be unobtrusive.
- (3) No cast iron ornamentation on the top of the building
- (4) Cast iron pillars to support the veranda, in place of the wooden posts -
- (5) As the building is to be plastered, which will

Letter from the Supty Engineer II Circle. H.E. No. 66 N.L. of 29 April 1887.
Note by the Chief Engineer of 26 May 1887.

The estimate amounting to Rs 10,020/- for constructing a dispensary at Ongole is sanctioned.

2. The attention of the District Board will be drawn to Chief Engineer's Note above recorded.

3 This sanction has been registered as.

Should only be shown in plaster, in imitation ashlar work. As at present designed the general effect of the building is not pleasing - the details are too obtuse - the dormer windows frames are put into clock cases - while in front of all this elaboration, there is a miserable support on wooden posts -

19.5.87

present plan

Note by the Ch. Engr. P.W.D. submitted on the sanction of Govt.
2. The arrangement of the rooms seems unobjectionable, but the general effect of the building is not pleasing. It would be better, in the opinion of the undersigned to omit the cast iron work provided for a steel rectangular ventilator in ordinary wooden frames, and plain better pipes. The 2nd is unimpaired by the solid iron pipes for spans of from 12 to 16 feet & iron brackets, but the Board have approved of this arrangement.
