

N^o 187 W of 21-1-87

Communicated to the
Supg Engineer D Fircle
2. The question of issuing
a revised type design for
taluk offices is now under
consideration. When the
new designs have been
issued, the Supg Engineer
D Fircle will submit an
estimate for taluk offices
at Tindivanam and Villu-
puram.

GOVERNMENT OF MADRAS.
FINANCIAL DEPARTMENT.

READ—the following paper :—

Proceedings of the Board of Revenue, dated 2nd December 1886, No. 2603.

Read—the following letter from H. P. GORDON, Esq., Collector of South Arcot, to the Secretary to the Board of Revenue, dated Cuddalore, 30th October 1886, No. 478 :—

I have the honor to state that the Executive Engineer, South Arcot, informs me that he is prepared to grant certificates of security for the strong rooms of the Tindivanam and Villupuram cutcherries required by the Government of India order communicated in Board's Proceedings, No. 2945, of 25th November 1881, only subject to the condition that the police guards do their duty.

2. The roof of the Tindivanam room is an ordinary tiled roof. On my requesting the Executive Engineer to furnish an estimate for converting the room into a strong room, he has furnished an estimate, amounting to Rs. 579, for constructing a terraced roof, but has stated that as the walls are brick in mud, it seems scarcely worth while putting a terraced roof on them.

3. The cost of making the room a strong room would probably amount altogether to about Rs. 900. The strong room of the Villupuram cutcherry is a cage composed of palmyra bars.

4. The certificates proposed to be given by the Executive Engineer do not appear to me to be such as would fulfil the intention of the order of the Government of India.

5. On the other hand, the construction of a new cutcherry at Tindivanam has been sanctioned, and the estimate has been prepared, although it is impossible to say when the work will be taken up. A new cutcherry for Villupuram has also been sanctioned.

6. Under these circumstances, it seems inadvisable to spend any considerable sum upon the buildings.

7. A proposal to supply these cutcherries with iron safes is at present before Government (Board's Proceedings, No. 1612, of 14th July 1886), and I submit that if iron safes be provided, the present rooms might be continued to be used, without alteration, until the new cutcherries are built.

8. I have the honor to request that the Board will move Government to accord its special sanction for the continued use of these rooms as strong rooms.

Resolution—dated 2nd December 1886, No. 2603.

Submitted to Government with the request that special sanction be accorded for using the taluk treasuries at Tindivanam and Villupuram as strong rooms.

2. The Board have no information as to when the new cutcherries, sanctioned for these two taluks, will be undertaken.

3. They are in communication with the Superintendent, Public Works Workshops, and some private firms regarding the supply of iron safes sanctioned in G.O., dated 18th September 1886, No. 942, Financial Department.

(A true Copy and Extract.)
