the same number for natives, the
average daily numbers attending
the school being 120.

3. I propose obtaining the latrine
direct

direct from Messrs Richardson and Cruddas of Bombay, according to the accompanying Plan, except that the roof will be sloping instead of curved, to suit the nature of the ground. I send a copy of Messrs Richardson and Cruddas letter on the subject.

4. The latrine will be buried in the hill side and will be, I hope, nearly, if not quite, invisible. The urinal will be supplied with water from the new water supply and I have provided 1" pipes from Mount Stuart Buildings to the latrine and thence to the existing sewer.
