13TH JUNE 1887, No. 563 M., LOCAL AND MUNICIPAL.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

Proceedings of the Board of Revenue (Land Revenue), dated 14th April 1887, No. 14.

Read—the following papers :—

From G. BRUNTON, Esq., Chairman, Municipal Council, Cochin, to the Chief Secretary to Government, dated Cochin, 17th September 1886, No. 144.

In accordance with paragraph 4 of G.O., dated 26th July 1886, Municipal—Financial, I have the honor to submit a statement showing the toll receipts in connection with the Kalvetti canal, and the expenditure incurred on improvements to the canal, &c., from the time* the toll was established to the 31st March 1886.

* 1st July 1882.

2. At the suggestion of the then President, the Vice-President commenced with the proposed improvements in 1883-84, by constructing granite stone revetments, in small sections, with a superstructure of parapet wall of laterite in chunam, 2 feet high; and gradually filling up the swamp on the Kalvetti side. The extent of the revetment constructed was—

In 1883-84	..	..	..	..	..	700 feet, costing Rs.	959
„ 1884-85	..	..	..	..	..	1,210 „ „	2,057
„ 1885-86	..	..	..	..	..	614 „ „	833
Total ..						2,524 „ „	3,849

and the total extent of the swamp filled up was 3,750 square feet.

3. The works, which were stopped during the heavy monsoon, have now been resumed.

4. As it would appear from paragraph 5 of the Collector's letter to Government, forwarding the annual report of this municipality for 1885-86, that the proceeds of the canal toll cannot be partially diverted from the special project upon which it was intended they should be spent, and the Government in their Order, dated 14th July 1886, No. 581, Revenue, having been pleased to direct that the tolls on the canal shall in future be annually leased out by the Collector, the municipal council at their last meeting considered the subject and passed a resolution authorizing me to propose to Government the advisability of transferring to the revenue authorities also the task of expending the toll receipts on improvements to the canal from the beginning of the next official year.

5. Though from the beginning a separate account of receipts and disbursements in connection with the canal was being kept, it has apparently never been clearly recognized by the commissioners or council that these tolls really formed no portion of the proper revenue of the municipality; consequently, the sums for which those tolls were sold were wrongly credited to that revenue and went to swell its total to the loss of the municipality, for the percentages allowed to the several sources of expenditure were by so much increased, whilst the actual income was the same as before.

6. To properly carry out the project of reclaiming the swamp at Kalvetti, the care and supervision of some person having experience in such matters is absolutely required, and this municipality has no one so experienced in its employ. In fact, the municipality has undertaken a work for which it was never fitted, with not only no prospect of any advantage, but at a dead loss.

7. I cannot find from the records any intimation as to whether the ground when reclaimed shall belong to Government or the municipality, or who shall receive the rents or profits thereon—if the latter, it would certainly be an incentive for the council to by any means complete the work in the best manner and in the shortest possible time; if the former, I think the municipality should be relieved of this unremunerative work. An early decision on this point is most desirable.

Ag. Secretary to Government.

Reference on the above, dated 22nd December 1886.

Referred to the Collector of Malabar for remarks.

(Signed) M. HAMMICK,
Acting Secretary.

To the Collector of Malabar, with papers,
in original, to be returned.

From W. LOGAN, Esq., Collector of Malabar, to the Secretary to the Board of Revenue, dated Calicut, 17th February 1887, No. 389.

In reply to Board's reference, dated 22nd December 1886, on Government Register No. 4806 of 1886, I have the honor to state that, in forwarding the annual report of the Cochin municipality for 1885-86, the Acting Collector remarked that the proceeds of the Kalvetti canal toll were partially diverted by the municipality from the special project (Colonel Meade's reclamation scheme, embodied in G.O., No. 105, dated 19th January 1882, Financial), upon which it was intended they should be spent, and Government in reviewing the same (G.O., No. 712, dated 26th July 1886,) directed the chairman to submit a statement showing the receipts from this toll, and the expenditure incurred on improvements to the canal since the toll was established.

2. The chairman, in forwarding the statement called for, states that the town council has, with reference to G.O., No. 581, Revenue, dated 14th July 1886, directing that the Kalvetti canal should in future be annually leased out by the Collector, resolved to propose to Government the advisability of transferring to the revenue authorities the task of spending the toll receipts on improvements to the canal, and raises the question as to the ownership of the swamp once it is reclaimed. I have ascertained from him that the town council is willing to undertake the reclamation "on consideration of receiving all land reclaimed as well as net toll-receipts during reclamation." This arrangement appears to me to be a fair one, and I have the honor to suggest that it may be approved. The swamp is a standing menace to the health of the townspeople, and Government ought, I think, to impose some conditions as to the time within which the work is to be carried out.

Resolution—dated 14th April 1887, No. 14.

The Collector's letter is submitted to Government.

2. If it is decided to hand over the swamp, when reclaimed, to the municipality, it is necessary, as the Collector points out, to fix a time within which the work should be completed. The receipts from tolls have been steadily increasing, and may be

estimated approximately at Rs. 2,000. To this the municipality may be expected to add another Rs. 2,000 annually, and, if this is done, the work might probably be completed in four or five years more.

(True Copies and Extract.)

with 2 enclosures in General Register No. 4806, returned,
„ Collector of Malabar.

Mis. No. 2997.

Transferred to the Local and Municipal Department, with an expression of concurrence in the opinions of the Collector and the Board.

(Signed) J. F. PRICE,
Ag. Secretary to Government.

To the Local and Municipal Department, with 2 enclosures.
Copy to the Commissioners of Land Revenue.

ORDER—dated 13th June 1887, No. 563 M., Local and Municipal.

The Collector's proposal in paragraph 2 of his letter recorded in the Board's Proceedings read above is approved and sanctioned. Under section 29 of Act I of 1870, it is necessary that the sums realised from the lessees be paid into the public treasury, but the Collector will pay them over to the municipal council from time to time as may be required. The Government will be prepared to appoint the Chairman supervisor of the canal, if desired, in order to legalize any requisition for the removal of obstructions under section 12 of the Act.

2. With reference to paragraph 2 of the Board's Proceedings, however, it is observed that the present condition of the municipal fund does not permit of any large expenditure being incurred therefrom on the work in question. The Government will, therefore, only impose the conditions—

- (1) that the outlay on the work shall not in each year fall short of the net receipts from tolls; and
- (2) that any sums realised by sale or otherwise from the reclaimed lands be expended on the work until it is completed. The progress of the work must be fully described in the annual reports.

Referred to the Board of Revenue for remarks.

FORT ST. GEORGE,
30th November 1886.

(Signed) J. F. PRICE,
Ag. Secretary to Government.

Reference on the above, dated 22nd December 1886.

Referred to the Collector of Malabar for remarks.

(Signed) M. HAMMICK,
Acting Secretary.

To the Collector of Malabar, with papers,
in original, to be returned.

From W. LOGAN, Esq., Collector of Malabar, to the Secretary to the Board of
Revenue, dated Calicut, 17th February 1887, No. 389.

In reply to Board's reference, dated 22nd December 1886, on Government Register No. 4806 of 1886, I have the honor to state that, in forwarding the annual report of the Cochin municipality for 1885-86, the Acting Collector remarked that the proceeds of the Kalvetti canal toll were partially diverted by the municipality from the special project (Colonel Meade's reclamation scheme, embodied in G.O., No. 105, dated 19th January 1882, Financial), upon which it was intended they should be spent, and Government in reviewing the same (G.O., No. 712, dated 26th July 1886,) directed the chairman to submit a statement showing the receipts from this toll, and the expenditure incurred on improvements to the canal since the toll was established.

2. The chairman, in forwarding the statement called for, states that the town council has, with reference to G.O., No. 581, Revenue, dated 14th July 1886, directing that the Kalvetti canal should in future be annually leased out by the Collector, resolved to propose to Government the advisability of transferring to the revenue authorities the task of spending the toll receipts on improvements to the canal, and raises the question as to the ownership of the swamp once it is reclaimed. I have ascertained from him that the town council is willing to undertake the reclamation "on consideration of receiving all land reclaimed as well as net toll-receipts during reclamation." This arrangement appears to me to be a fair one, and I have the honor to suggest that it may be approved. The swamp is a standing menace to the health of the townspeople, and Government ought, I think, to impose some conditions as to the time within which the work is to be carried out.

Resolution—dated 14th April 1887, No. 14.

The Collector's letter is submitted to Government.

2. If it is decided to hand over the swamp, when reclaimed, to the municipality, it is necessary, as the Collector points out, to fix a time within which the work should be completed. The receipts from tolls have been steadily increasing, and may be
