Read—the following letter from the Consulting Architect to the Government of
Madras, dated 2nd June 1887, No. 301:—

I have the honor to forward, for approval, an estimate, amounting to Rs. 1,190,
for reconstructing the ornamental brick plastered parapet wall on the north side of the
Revenue Board office with stone. The work to be done is explained in the report
attached to the estimate.

2. A detailed drawing of the parapet is also forwarded.

Resolution—dated 17th June 1887, Mis. No. 1374.

The plan and estimate for Rs. 1,190 for reconstructing the parapet wall on the
north side of the Revenue Board office with stone are submitted for the sanction of
Government and for provision of funds in the Public Works budget.

(Signed) J. F. PRICE,
Ag. Secretary to Government.

From J. W. BRASSINGTON, Esq., Consulting Architect to the Government of
Madras, to the Chief Engineer, Public Works Department, dated Chépak,
2nd August 1887, No. 644.

In returning the papers received with your endorsement, No. 2494 C., dated the
26th July 1887, I have the honor to state that the estimate provides for renewing

445 running feet of the parapet wall on the north side of the building and 14 vases over pedestals. Brickwork of this description, plastered, will cost about one-third of the amount provided in the estimate. Plastering in this locality after it once begins to corrode has to be renewed every five years, and owing to the great height of the buildings it is difficult and expensive work. Stone, on the other hand, will not need repair and will always look better. For these reasons, as stated in the report accompanying the estimate, the parapet wall on the west side was rebuilt of stone in the year 1884-85.

ORDER—dated 12th August 1887, No. 2143 W., Public Works.

The estimate, amounting to Rs. 1,190, for reconstructing with stone the parapet wall on the north side of the Revenue Board office at Chepak, is sanctioned against the minor works grant to the Consulting Architect's division.

2. This sanction has been registered as Provincial, No. 73 W. of 1887-88, and classified as Civil Buildings, Original Works.

Enclosure.

In returning the papers received with your endorsement, I beg to state the 26 July 1887, I have the honor to state that the Estimate provides for renewing 545 running feet of the parapet wall, on the north side of the building and in bases over pedestals. Brickwork of this description, plastered, will cost about one third of the amount provided in the Estimate. Plastering in this locality after it once begins to crumble, has to be renewed every five years, and owing to the great height of the buildings it is difficult and expensive work. Stone on the other hand will not need repair, and will always look better. For these reasons, as stated in the Report —
