No. 910

Pension Department.

PROCEEDINGS OF THE MADRAS

28TH JULY 1887, No. 1060, PUBLIC.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following papers :—

Office Note from R. HILL, Esq., Superintendent, Government Press, to the Chief Secretary to Government, dated Fort St. George, 23rd June 1887, No. 874.

The Superintendent, Government Press, requests that the Chief Secretary will be pleased to direct that all writing papers of foolscap size indented for by all departments will be proportionately obtained in double foolscap as well as in single foolscap.

2. The Press obtains annually double foolscap, cream wove, 30 lb. machine-made, for printing budgets for the Public Works Secretariat; but all other writing papers are single foolscap. Each office when indenting can approximately estimate how much writing paper is used for clerical purposes and how much is sent to the Press for printing forms, and obtain the paper for the latter in double foolscap.

3. The use of the double foolscap writing paper will facilitate work in the Press by reducing the striking off of copies by one-half, in almost every case. Writing papers of all descriptions can be obtained in double foolscap size.

From the Hon. R. W. BARLOW, Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 16th July 1887, No. 635.

Adverting to your reference, No. 2692, dated 5th July 1887, on the Office note (herewith returned) of the Superintendent, Government Press, Fort St. George, dated 23rd June 1887, No. 874, I have the honor to state that as double foolscap sized papers of all the different descriptions of writing single foolscap procured, is not obtained by this office, I am not aware of their prices, and as I further do not know the quantities of writing papers used by each office annually for printing purposes, I am unable to state in actual figures what the financial effect of the proposal of the Superintendent of the Government Press will be; but judging from the fact that while single foolscap, cream wove, 15 lb. cost 6*s.* 7*d.* per ream, the corresponding double foolscap costs only 11*s.* 2*d.*, it can generally be stated that it would be far cheaper to substitute for printing purposes double for single foolscap.

2. If Government decide on the introduction of this change, I will first ascertain whether other descriptions of double foolscap will be cheaper than their corresponding single foolscap, and then, after communicating with heads of offices as to the quantity of printing paper required annually by each, make the necessary provision in my next indent on the Secretary of State for the supply of double foolscap for single foolscap for printing purposes.

ORDER—dated 28th July 1887, No. 1060, Public.

The Government approve of the suggestion of the Superintendent, Government Press, that all writing paper used for forms, &c., should be obtained in double foolscap.

2. The Superintendent of Stationery will make the inquiries suggested in paragraph 2 of his letter, and report the ultimate financial results to Government.
