GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following letter from H. O'C. CARDOZO, Esq., Acting Superintendent, Madras Survey, to the Secretary to Government, Revenue Department, dated Madras, 18th June 1887, No. 88-G :—

I have the honor to report that the store indents have hitherto, as a rule, been based on the expenditure during the previous year, not on the average expenditure of three years.

2. In the indent for 1887-88 as many articles as possible were indented for with reference to the average expenditure of 3 years as prescribed in the form. Some other articles were indented for with reference to the expenditure during 1886-87 as the average of three years would not be sufficient for probable requirements. Other articles again were indented for in larger quantity than the expenditure of any previous year. This was due to the large and increasing demand for miscellaneous maps to illustrate the administration reports of different departments, &c.

ENCLOSURES

Sir,

I have the honor to
report that the cattle shed at
Mangalore, borne on the
Register of Buildings of this
Division, as Bullocks shed
under Commissariat Buildings
has tumbled down on the
evening of 11 July 1887.

2. The shed was very old
with book value of Rs 50, and
was allowed to get into such a
state of decay that the present
monsoon has completed its des-
truction.

* No. 13 - under
the head Military
Buildings, Mangalore
Salang.

3. The sub Divisional officer who inspected the demolished shed reports that he does not consider the sale of debris would pay for the cost of removal, and suggests therefore that it be handed over to the scavengers who may remove it for the fuel.

4. Under the circumstances the debris cannot be sold by auction; I have the honor to request therefore that the above suggestions be approved, and that the sanction of Government be obtained for the shed in question being struck off the Register of this Division.

I have the honor to be,

Sir

Your most obedient servant

Sir,

Enclosures.

I have the honor to state that the Executive Engineer, North Arcot brings to notice that the tools entered in the enclosed List are those ordered to be kept in reserve for famine tools in G.O. No. 2789 of dated 7 November 1884. On a recent examination made of them, 411 hammers, 37 Mattocks, 353 Pick axes, 150 crow bars and 6 hooks are found to be unserviceable and the Executive Engineer asks for sanction to these being sold by public auction.

2. The Executive Engineer further suggests that the number of crow bars, Mattocks, Pick axes, hammers and jumpers in hand are far more than can be possibly required for famine work.

WORKS in the District, and
might be reduced by sale
to Local Fund Boards, Munici-
cipalities and others, after duly
advertising in the Fort St.
George and District Gazette.
I do not recommend this in
view of para 3 of the GO above
alluded to.

3. I request that sanction
be given to the sale by pub-
lic auction of the unserviceable
tools mentioned in para 1 above.
