GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following letter from Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 11th August 1887, No. 336 E.W.:—

I have the honor to inform you that, owing to the insufficiency of the two draftsmen allotted to the West Coast and Coimbatore divisions, to keep up with the large amount of plan drawing, estimating and checking estimates in those divisions, there are now great arrears in both, as will be seen by reference to the accompanying lists of work waiting for disposal.

2. There is one extra draftsman * in the circle (who belonged to the late B. Project division and who has not yet been absorbed); him I have allotted to the Coimbatore division to assist in bringing up arrears there. But an extra hand is badly wanted in the West Coast, and I have the honor to request you will be good enough to obtain sanction for an extra draughtsman for a period of one year for the West Coast division.

* A second-class man.

3. As draftsmen are invariably natives of the East Coast, and East Coast men greatly dislike the West Coast, and as the appointment would, at least for the present, be temporary, I request that a pay of Rs. 70 may be sanctioned for a first-class man, and Rs. 50 if the man obtained is a second-class man.

4. I send the usual proposition statement.

No. 498.

The entries in column "Present scale" of the proposal statement have been checked and found correct. In the column for "Average or fixed pay," the mean pay of each appointment, and not pay as defined in section 43 (*a*) of the Pay and Acting Allowance Code, has been entered. The necessary correction has been made by this office.

2. There appears no objection to the appointment of temporary draftsmen being sanctioned on the maximum pay of the grades, provided they hold certificates for such grades; but the sanction must not be used as a means of giving promotions to permanent men, *vide* also my O.N., No. 390, dated 26th July 1887.

(Signed) C. P. CHRISTIE, Major, R.E.,
Examiner, Public Works Accounts.

31st August 1887.

ORDER—dated 7th September 1887, No. 2414 W., Public Works.

Sanction is accorded to the entertainment of a draftsman in the West Coast division on the terms proposed by the Superintending Engineer.

2. The Superintending Engineer's attention is drawn to the remarks in paragraph 2 of the Examiner's office note above recorded.

3. This sanction has been registered as Provincial, No. 30 W. of 1887-88, and classified as Establishment, Temporary.

Executive Engineers Office
West Coast Division
Calicut 5 July 187

No. 415

From,

H. S. Taylor Esq
Executive Engineer
West Coast Division

To,

The Superintending Engineer
IV Circle

Sir,

I have the honor in reply to your Memorandum No. 418 dated 21st June/87 to report the circumstances under which I have applied for an extra draughtsman for this division.

1 List of plans

2 Enclosed is a list of the plans and estimates now on hand which alone is a formidable one, but besides these there are the tracings of plans and copies of sanctioned estimates to be made to present for execution.

3 All this is in addition to what may be termed the current daily work of the draughtsman department. By this I mean the repairs, stores &c in the case of from both Civil and Military offices.

These

4 These requisitions may seem petty in themselves, but chiefly owing to the climate and especially in this season they are so constant that they represent a considerable quantity of time to be spent in checking the estimates for carrying them out, which duty of course devolves on the draftsman.

5. It will be remembered that such requisitions come in from Civil Officers scattered over two whole districts and from four Sub divisions.

6. Also that there are 3 detachments of European Infantry and three whole native Infantry Regiments stationed respectively at Mangalore, Cannanore and Quilon with a detachment at Trichur from all of which come constant requisitions both for petty repairs and for other estimates of greater or less magnitude. There is now among others an order for an estimate for new Sepoy Lines for the Regiment at Quilon, for which reminders are being received.

7. I would bring to your notice also that the temporary draughtsman who has always been attached to the Vayitri Sub division is now withdrawn and thus there is thrown on the Division office draftsman the considerable work of copying the numerous plans and estimates for the bridges on the Calicut-Vayitri Road, all of which have to be prepared so as to be ready to be sent for execution after the monsoon. The revised estimates too of all the nine iron bridges have to be submitted as soon as possible.

8. I do not therefore think it possible for two draughtsmen to cope successfully with the enormous quantity of work of which the above is a partial gives but an inadequate idea and I am of opinion that another 2d class draftsman should be attached permanently to this division as at present constituted.

9. If another draftsman is so appointed I would employ him solely on plans and estimates connected with the Military Department leaving the other two to deal entirely with the Roads and Buildings.

10. I have had no opportunity of comparing

Comparing the work of this Division with that of others comprising Military works but arranging the case solely on its own merits and I do trust that sanction to a third draftsman may be accorded in order that the make of plans and estimates which this office is called upon to supply may be promptly dealt with.

I have &c

(Signed) H. S. Taylor
