28th April 1886, No. 1067 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following papers:—

From D. C. GORDON, Esq., Examiner, Public Works Accounts, Madras, to the Secretary to Government, Public Works Department, dated 15th March 1886, No. 133 W.

In continuation of my letter, No. 125 W., dated 25th February 1886, I have the honor to forward, herewith, copy of letter, No. 460, dated 8th March 1886, from the Executive Engineer, Dowlaishweram workshops, in reply to a proposal made by me to transfer to the divisional stock raw materials and manufactured goods, retaining for the current uses of the shops only a small reserve, not exceeding Rs. 2,000 in value.

2. The proposal was made in view to assimilating the system of accounts with that in force in all State Railway workshops, in which stores are obtained for use as required from the adjoining Stores, and are never kept as part of the workshop stores. This system ensures the stock being separately and thoroughly accounted for, while the accounts of the shops themselves are freed from all accounting not necessarily connected with manufacture, and the materials in hand are kept at a minimum. The arrangement has been accepted by the presidency shops.

3. The Executive Engineer's objections are—

(*a*) There is nothing in common between the stock materials of the Eastern division and those of the shops.

(*b*) The divisional storekeeper will know nothing whatever about the issue of material to the shops, which are of constant occurrence.

4. As regards (*a*), there will be no need to mix up the stock of the division with that kept as a reserve for the workshops; they can still be kept quite apart; and as regards (*b*), the divisional storekeeper need have nothing to do with the current shop issues any more than with other "materials at site" of works. His issues will usually be in bulk to replenish the reserve of the shops.

5. The favor of early orders on this point, as well as on my letter, No. 125 W., dated 25th February 1886, is requested.

Enclosure.

From the Executive Engineer, Government Workshops, Dowlaishweram, to the Examiner, Public Works Accounts, dated 8th March 1886, No. 460.

With reference to your letter, No. 466 S.E. 1st, dated 3rd instant, proposing to transfer, on the 31st March 1886, to the divisional stock raw materials and manufactured goods of the shops, if any, retaining for current use of the shops only a small reserve not exceeding the value of Rs. 2,000, and inquiring what will be the probable value of the materials thus to be transferred, I have the honor to inform you that I object altogether to the proposed transfer as there is nothing in common between the stock materials of the Eastern division and those of the shops.

2. This transfer will, moreover, cause a great confusion as the divisional storekeeper will know nothing whatever about the issue of materials to the shops which are of constant occurrence.

3. I may here add that the balance of stock of the shops, at the end of January 1886 is Rs. 85,565-9-11, which includes the following items:—

	RS.	A.	P.
Small stores	33,614	6	9
Manufactured articles	1,268	5	5
Timber	50,017	6	0
Fuel	665	7	9
Total ...	85,565	9	11

And the average balance of stock may be taken as Rs. 50,000, the accounting of which, in a division like the Godávari Eastern division, will no doubt cause much trouble. I am therefore of opinion that the transfer now contemplated will in no way simplify the present system.

Office note to the Chief Engineer for Irrigation, dated 19th March 1886, No. 1124 C.

Office note from the Chief Engineer for Irrigation, dated 8th April 1886, No. 91.

Your office note, No. 1124 C., dated 19th March 1886.

2. There are, I think, objections to the proposal to transfer the stock of the Dowlaishweram workshops to the divisional stock. The latter is kept in a small building at some distance from the workshop yard, and new buildings would be necessary. An increase of establishment would also be necessary, as if the workshops were to maintain a reserve sufficient for current use, no reduction could be made in the present workshop establishment, while the divisional establishment would certainly need considerable strengthening. There is, moreover, no place in which the considerable stock of timber, which must often be kept, as there is no market at hand from which to replenish, can be stored except in the workshop yard, and it would be very inconvenient to have part of the timber in the yard belonging to the division and part to the workshop.

3. It would, of course, be possible to hand over the whole of the workshop stores to the division, but as the store building is under the same roof as the workshop office and in the very midst of the workshop buildings (the timber is in another part of the yard), it would be very inconvenient to introduce another sub-division there.

4. I do not see that, under the Government of India orders, any such change as that proposed by the Examiner, Public Works Accounts is necessary, and it seems to me very doubtful whether, in the face of the difficulties which are apparent, it is worth while making such a change for the sake of uniformity.

Office note from the Examiner, Public Works Accounts, dated 17th April 1886, No. 60.

ORDER—dated 28th April 1886, No. 1067 W., Public Works.

The foregoing note by the Chief Engineer for Irrigation will be communicated to the Examiner, Public Works Accounts, with an expression of the opinion of Government that, in the case of the Dowlaishweram workshops, the advantages of uniformity would be more than counterbalanced by the difficulties arising from the transfer to the divisional stock of a portion of the workshop stock. Those workshops will therefore keep the reserve of stock as proposed, and maintain the ordinary stock accounts outside the workshop manufacture suspense account.

2. As stated in paragraph 5 of G.O., No. 858 W., dated 30th March 1886, the requisite orders for bringing the Dowlaishweram workshops under the budget system will issue in the Irrigation Branch.

Read—the following papers :—

From G. H. W. WALKER, Esq., Officiating Under Secretary to the Government of India, Public Works Department (General), to the Secretary to the Government of Madras, Public Works Department, dated Fort William, 23rd December 1882, No. 1769 G.

I am directed to forward copy of the Despatch noted in the margin with reference to previous correspondence, and am to request that a list may be furnished showing the names of the persons in the employ of the Company at the time of the transfer of the works to Government, and specifying those whose services have been dispensed with and those who have been retained.

Despatch from Secretary of State, No. 50, Public Works, of 21st September 1882, on the subject of the staff of employés of the late Madras Irrigation and Canal Company.

2. It is observed that a copy of the letter addressed to the Right Honorable E. P. Bouverie by the Secretary of State, referred to in the third paragraph of His Lordship's Despatch, was forwarded to the Madras Government in his Despatch No. 1, Public Works, dated 6th January 1881, and that the matter was referred to in this office No. 50 I., dated 12th February 1881, and subsequent correspondence between the Supreme Government and the Government of Madras.

Enclosure.

Despatch from the Most Honorable the Secretary of State for India, to His Excellency the Most Honorable the Governor-General of India in Council, dated India Office, London, 21st September 1882, No. 50, Public Works.

Your Excellency's letter in the Department of Finance and Commerce, No. 233, dated 4th August 1882, informs me of your having sanctioned the retention, by the Government of Madras, of the entire staff of the late Madras Irrigation and Canal Company for a period of six months from the 1st July 1882, the date on which the works of the late Company were taken over by Government.

2. The services of the staff are represented as likely to be useful to the Government of Madras on their first entering into possession of the works, and as the employés are, it is understood, entitled to six months' notice or six months' pay, I approve of their services being utilized till the close of this year when their engagements will be finally terminated.

3. This decision will apply, of course, only to those of the employés of the late Company whose services are to be dispensed with altogether; but I would draw your Excellency's attention to the correspondence marginally noted, from which it would appear that a certain number of the subordinates, to be selected by the Government of Madras, will be continued in Government employment. Such a course would be in accordance with the intimation conveyed to the Right Honorable E. P. Bouverie by this office letter of the 6th November 1880, copy of which has been already furnished to you.

READ—the following letter from Lieutenant-Colonel ROSS THOMPSON, R.E., Officiating Superintending Engineer, Third Circle, to the Chief Engineer, Public Works Department, dated Bellary, 30th January 1883, No. 1965 :—

With reference to G.O., No. 3435 W., dated 27th December 1882, relating to the establishment for the Kurnool Canal Division, I have the honor to request that sanction may be given to the entertainment of two more Clerks, 4th Class, III Grade, on salary Rs. 25 each, one for the Canal Division Office and the other for the Lower Sub-division.

2. At present only one Clerk, 4th Class, III Grade, is sanctioned for the division against two as allowed by the scale of establishment for first-class divisions, approved in G.O., No. 1729 W., of 14th July 1881. A second Sub-divisional Clerk is also required, as there are two Sub-divisional Officers.

3. Chain Sing and P. Balasundrum Moodelly, who were employed as clerks under the Company, are proposed to be brought on the permanent establishment in filling up the above appointments, and I request that these men may be exempted from passing the prescribed examinations.

4. The Executive Engineer reports that M. Raghaviah Naidu, ordered to be appointed as Sub-divisional Clerk in G.O., No. 3435, above referred, is not an efficient clerk, and recommends in his place A. Nursimhooloo Naidu, late Head Writer in the Lower Sub-division. He also recommends the increase of Superintendent * Arnachallum's pay from Rs. 40 to 45, by a corresponding reduction in the pay of Rs. 70 allowed for Superintendent Abdul Rahman Sahib. I request that the proposed changes may be authorized.

* On the Conservancy Establishment.

No. 86.

ORDER—dated 12th February 1883, No. 467 W., Public Works.

The Superintending Engineer is at liberty to make up the office establishment of the Kurnool Canal Division to that allowed by the fixed scale for a first-class division with three sub-divisions.

2. The individuals named in G.O., No. 3435 W., were merely those whose appointments for some reason or other required the special sanction of Government, and were not intended to form the whole office establishment of the division.

3. The name of the Head Clerk was entered for appointment as Clerk, 3rd Class, III Grade, because it was understood to be the intention of the late Superintending Engineer to transfer him to another division and promote the Head Clerk of the latter to the Kurnool Canal Division, but it is open to the Superintending Engineer

to use his own discretion in the matter and appoint the individual named to the Kurnool Canal if he thinks proper.

4. The exemption of Chain Sing and Balasundrum Moodelly from the examination rules, with a view to their appointment to the permanent establishment, is sanctioned.

(a) Required for the efficient discharge of office work. The present office establishment is quite unequal to cope with the current work.

(b) The office building at Docgaru, which will be the future headquarters, is about 2 miles distant from the treasury and post office at Aska, and one man will constantly be required for going and coming. Hence an additional messenger is proposed.

(c) This establishment is required for estate works.

Dowlaishweram,
31st May 1886.

(Signed) S. C. CLARKE, Major, R.E.,
Suptg. Engineer, I Circle.

Office note from the Examiner of Public Works Accounts, dated 16th June 1886, No. 212.

Order—dated 25th June 1886, No. 1617 W., Public Works.

The statement of temporary establishment required in the Rushikulya division during 1886-87 is sanctioned; but the provision therein made for an additional sub-division office establishment has been struck out, as the formation of a third sub-division has not been sanctioned. The Superintending Engineer will submit detailed proposals for the formation of an additional sub-division, if necessary.

2. This sanction has been registered as Provincial, No. 25 W. of 1886-87, and classified as Establishment, Temporary.

28TH JULY 1886, No. 482, EDUCATIONAL.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

Proceedings of the Board of Revenue, dated 6th May 1886, Mis. No. 3286.

Read—the following letter from H. TREMENHEERE, Esq., Acting Sub-Collector of Salem, to the Collector of Salem, dated Dharmapuri, 11th March 1886, No. 675 :—

I have the honor to suggest that Government may be moved, through the Board of Revenue, to require the same test for appointments with a pay of Rs. 15, as is required for appointments with a pay of Rs. 20.

2. Most of the clerks in the taluk offices draw the former pay; and it now happens that a man appointed, say, at 21 years of age, may continue on a pay of Rs. 15 all his official life (until 55 years of age). This is destructive of all incentive to work.

3. Of course, it is in the hands of divisional officers to appoint as taluk clerks only such men as are already qualified for higher appointments; but such action cannot be depended upon. At present, I have many clerks in this division who can never rise above Rs. 15.

Endorsement on the above.

Forwarded to the Board of Revenue. I certainly support the Sub-Collector's view. It is most pernicious to the service allowing unqualified attenders, &c., into the 15-rupees grade with no prospects before them, and only an order of Government can put a stop to the present too prevalent practice.

(Signed) G. McWATTERS,
Collector.

To the Secretary to the Board of Revenue.

Resolution—dated 6th May 1886, Mis. No. 3286.

Submitted to Government.

2. As passed candidates are extensively available, the Board are of opinion that the time has now arrived for extending the rule prescribed in G.O., 23rd October 1866, No. 309, to appointments on salaries of Rs. 15.

3. As the middle school examination is held in December, the Board are in favor of introducing the new rule with prospective effect only from the date on which its results are published.

(True Extract.)

(Signed) C. F. MACCARTIE,
Acting Secretary.

To the Chief Secretary to Government, Educational Department,
with letter, in original, to be returned.

Copy to the Collector of Salem.

From D. DUNCAN, Esq., M.A., D.Sc., Acting Commissioner for the U.C.S. Examinations, to the Chief Secretary to Government, dated Madras, 16th June 1886, No. 468.

Letter, No. 675, of the 11th March 1886, from the Sub-Collector of Salem, to the Collector of Salem, and the Proceedings of the Board of Revenue, Mis. No. 3286, of the 6th May 1886.

In returning the correspondence noted in the margin, referred to me for remarks in No. 891-C, dated Ootacamund, 2nd June 1886, I have the honor to observe that the question of extending the operation of the educational tests for the admission of candidates to the public service was fully considered by Government in their Proceedings of the 23rd October 1866, Educational. It was not thought advisable at the time to revert to the rules as they originally stood, which prescribed an educational test for all situations exceeding Rs. 10 per mensem, though this was strongly recommended by Mr. Carmichael, then Collector of Vizagapatam, and Mr. Powell, Director of Public Instruction. But, while sanctioning a slight advance on the arrangements as they then existed, Government clearly looked forward to the time when it would be possible to entertain in their service none but passed candidates in the very lowest appointments above the grade of peon. Twenty years have passed away since then, and, considering the progress that education has made and the number of passed men that must now be available almost everywhere in the Presidency, it seems to me that the present system has been tried sufficiently long to justify a further step being taken in the direction originally contemplated. I have no hesitation, therefore, in expressing my concurrence in the recommendation that has been made to extend the operation of the examination rules so as to include all appointments of the value of Rs. 15 and upwards.

2. Should Government approve of the suggestion, I see no objection to immediate effect being given to their orders on the subject.

Order—dated 28th July 1886, No. 482, Educational.

In the Proceedings read above, the Board of Revenue submit, for the favorable consideration of Government, a suggestion of the Sub-Collector of Salem, that the educational test at present required for appointments of Rs. 20 should be extended to all appointments of Rs. 15 and upwards.

2. Twenty years have passed since the last advance in this direction was made. It was ordered in G.O., 23rd October 1866, No. 309, that from the 1st July 1867, none but passed candidates should be admitted to any appointments on salaries of Rs. 20 and upwards. It is unnecessary to trace the progress which education has made in this Presidency since that date. It is sufficient to observe that, as stated by the Board of Revenue, there is now an abundant supply of passed candidates to meet all the demands of the public service. It is, therefore, in the opinion of the Governor in Council, unadvisable, on public grounds, to continue to fill appointments in the lower grades of the public service by men who, in consequence of their not having passed the required tests, are ineligible for promotion. The existence of appointments which require no test is, moreover, unfavorable to the cause of education, while the men themselves who fill these appointments are of inferior attainments and without any inducement to improve themselves. From the point of view of official requirements, therefore, as well as from that of the educationalist, it appears to the Government highly desirable that the educational test should be extended to all Government appointments. They are accordingly pleased to declare that, after the 1st July 1887, no person shall be appointed to any post carrying a salary of Rs. 15 a month or upwards unless he shall have passed the middle school examination in the first class, or the matriculation examination of the university together with the handwriting test. Unpassed officers now in the service of Government will not be affected by this order so far as their present appointments are concerned, but they will be ineligible

for promotion to posts carrying a salary of Rs. 15 per mensem until they have qualified by the tests.

3. In view of the remarks of the Education Commission (Report, paragraph 197,) on the expediency of exacting an educational test from applicants for every public appointment, the Government resolve to call on the Director of Public Instruction to consider the advisability of instituting a test of primary education, which should answer to the middle school examination, and be declared preliminary to any entrance into Government service. Information might be obtained on the systems in force in other Presidencies, especially Bombay, and proposals submitted to Government.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following papers :—

From G. T. WALCH, Esq., Superintending Engineer, I Circle, to the Chief Engineer for Irrigation, dated Dowlaishweram, 3rd July 1886, No. 237 G.N.

With reference to your telegram, dated 29th March 1886, to the Executive Engineer, Ganjam division, copy of which has been furnished to this office, I have the honor to forward, herewith, a copy of the Executive Engineer's No. 16, dated 23rd June 1886 (and its enclosures, in original), reporting that he has purchased a bungalow belonging to the London Mission for Rs. 1,250.

An estimate for repairs to the purchased building will follow.

From the Superintending Engineer, I Circle, dated 17th July 1886, No. 264 G.N.

From the same officer, dated Dowlaishweram, 8th October 1886, No. 544 G.N.

With reference to your memorandum, No. 1/40 G.N., dated the 20th July 1886, I have the honor to state that I consider a rent of Rs. 15 * per month can fairly be charged for the portion of the building proposed to be occupied by the Executive Engineer.

2. The amount paid for the purchase of the building will have to be met from "Provincial" funds under the head "Civil buildings," "Original works." And the necessary allotment must be obtained from Government under the above head, as no portions of the grants already given for the circle can at present be made available to meet the charge.

3. The document required in paragraph 2 of your memorandum under reference is herewith sent.

* At Rs. 7½ per cent. on the purchase money (1,250) of the building and the probable cost of repairs, Rs. 2,190 = Rs. 3,440.

No. 86 E.W.

Forwarded to the Chief Engineer, Public Works Department, with the request that the amount required for the purchase of the bungalow belonging to the London Mission at Chicacole may be allotted from Provincial funds, the rent to be charged for the portion of the building proposed to be occupied by the Executive Engineer being fixed at Rs. 15 per mensem.

2. The deed of conveyance executed by Mr. Vincent should have been stamped and registered, and the previous title-deeds for the property, if there be any, should have been obtained from the Agent of the London Mission.

Chepâk,
28th October 1886.

(Signed) J. PENNYCUICK, Lieut.-Col., R.E.,
Offg. Chief Engineer for Irrigation.

Order—dated 9th November 1886, No. 2942 W., Public Works.

The sum of Rs. 1,250, the price of the building at Chicacole, purchased as a residence and office for the Executive Engineer, Ganjam division, is allotted from the Provincial reserve with the Government.

2. An estimate providing for the purchase money and the cost of the improvements needed to fit the building for a residence and office should be submitted as early as possible.

3. With advertence to paragraph 1216 A of the Public Works Code, the title-deeds of the building should be submitted to the Government Solicitor for examination and for transmission to Government through the Examiner, Public Works Accounts.

4. The proposal of the Chief Engineer for Irrigation that the proportion of rent to be paid by the Executive Engineer be fixed at Rs. 15 per mensem is approved.

Buildings and Roads.
Civil Works.

Read—the following letter from G. T. WALCH, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 11th December 1886, No. 780 G.N. :—

As called for in paragraph 2 of G.O., No. 2942 W., of the 9th November 1886, I have the honor to submit, herewith, for early sanction, an estimate, amounting to Rs. 3,440, for the purchase and repair of the building referred to in the above Government order.

2. The Executive Engineer, Ganjam division, will be requested to submit the title-deeds of the building called for in paragraph 3 of the Government order under reference, and they will be submitted to you as soon as they are received from him.

Order—dated 7th January 1887, No. 21 W., Public Works.

The estimate, amounting to Rs. 3,440, for the purchase and improvement of the building at Chicacole, acquired as a residence and office for the Executive Engineer, Ganjam division, is sanctioned.

2. This sanction has been registered as Provincial, No. 155 W. of 1886-87, and classified as Civil Buildings, Original Works.

3. As the building provides quarters for the divisional officer, these proceedings will be forwarded for the confirmation of the Government of India, with reference to paragraph 984 of the Madras Public Works Code.

(Here enter No. 22 W., dated 7th January 1887.)

(True Extract.)

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers :—

From Major S. C. CLARKE, R.E., Acting Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 25th March 1886, No. 573 G.N.

I have the honor to submit an abridged transcript of the report on the existing condition of the Parlákimedi estates, just received from the Executive Engineer, Ganjam division (Mr. C. Vincent).

Agriculture.—The estate covers an area of about 615 square miles (*vide* tracing), having an irrigated area of about 93,000 acres, from which a revenue of nearly three lakhs is collected. The irrigation is principally maintained by tanks of no considerable size, amounting in all to about 1,750; out of which number, only 61 can be designated major tanks, each commanding an irrigable area above 200 acres. Two rivers (the Vamsadhára and Mahandra Tanaya) flow through the district, but apparently no attempt has been made to make use of them as irrigating agents, for the existing cultivation would appear to be considered amply sufficient for the people, and it is said that, owing to this estate being subjected to the rains of both monsoons, no entire failure of crops has ever been experienced.

Roads and Communications.—The Local Fund Department have taken over charge of all the roads (colored brown on the tracing) forming the principal lines of communication; but 120 miles of road (colored green) still remain under the charge of the Estate agent and are now transferred to the Public Works Department.

Works incompleted.—From the marginal statement it will be observed that a sum of Rs. 1,46,246 remains unexpended up to date, which clearly shows that the further development and improvement of this estate has been most unfortunately mismanaged, but it is unnecessary to incriminate any particular individual when all concerned may have been to blame.

	Number of works.	Balance unexpended RS.
Irrigation	163	43,263
Buildings	33	31,805
Roads (maintenance) ...	28	10,067
Special roads	14	61,111
Total ...		1,46,246

For some unaccountable reason no credit was granted for the works in progress until the other day when applied for by the Executive Engineer (Mr. Vincent), but where the fault lies, I have not yet discovered. It appears that Mr. W. H. Taylor, who relieved Mr. Dumphy, found that a sum of over Rs. 15,000 was due to various contractors, and at once applied for funds, but could get none, although a considerable amount had been assigned by the Court of Wards for the said works.

Proposals.—The Executive Engineer now proposes to put in hand all the incomplete works and submits a list of the establishment required, which I have appended, in a modified form, for I am of opinion that he ought to take in hand only a portion of the work to be done and concentrate all his working staff and labor on them, thus by degrees completing all the unfinished work. If, as he desires, the whole of the works, about 200 or more, are started simultaneously, there is every likelihood of many being imperfectly executed, and assuredly both time and money would be wasted, as has been already unfortunately experienced.

2. I would beg to propose the following modified establishment (statement appended to this letter) being sanctioned, as I feel sure that unless the works are efficiently supervised by well-paid subordinates, it will be mere waste of valuable money to undertake the proposed work of restoration. Moreover, as the Executive Engineer points out, a very large number of the existing estimates must be revised, for they are of long standing and very unreliable, so that the upper subordinate staff (two) with an Assistant Engineer in immediate charge will not be too much to ask for.

3. I have taken the liberty of authorising the Executive Engineer to start two or three of the more important works, which he must select on his own responsibility, and to appoint temporarily two upper subordinates, with their writers and lascars, so that no time may be lost, pending the sanction of Government to the entire establishment now considered as essentially necessary.

Enclosure.

STATEMENT A.

Establishment proposed for the Parlákimedi Estate.

	Salary. RS. to RS.
1 Temporary Assistant Engineer ...	350 to 400
1 Do. Overseer, 1st grade...	80 to 100
1 Do. do. 2nd do.	60 to 80
1 Draftsman, 1st Class	60 to 80
1 Do. 2nd do.	40 to 60
1 Clerk (for Assistant Engineer's office	30 to 40
2 Clerks or writers for each Overseer	15 to 20
1 Storekeeper	20 to 30
3 Lascars for Assistant Engineer, each	6 to 7
4 Do. (2 for each Overseer), each	5 to 6
3 Do. for the office and stores, each	6 to 7
Total ...	672 to 830

The monthly charges will thus average from Rs. 672 to 830.

(Signed) S. C. CLARKE, Major, R.E.,
Ag. Suptg. Engineer, I Circle.

Office note from the Chief Engineer for Irrigation, dated 5th April 1886, No. 86.

Your office note, No. 1346, dated 2nd April 1886.

It would, I think, have been more satisfactory if the Superintending Engineer had sent the Executive Engineer's report with his remarks, instead of an "abridged transcript."

2. The Superintending Engineer does not appear to be aware that an establishment for the Court of Wards Estates in Ganjam district was approved in G.O., No. 2659, dated 28th October 1884, and could have been (if it has not) appointed. It is true that this establishment provided for all the estates (six altogether, see G.O., No. 411 W., dated 25th February 1886) but he had a sanction to commence on and could have applied for further establishment, if necessary.

3. The establishment now proposed amounts to nearly Rs. 10,000, but if, as I understand, the yearly expenditure on works will be upwards of one lakh, it is not unreasonable. There is, however, petty and conservancy establishment to be thought of, and, when I was in Ganjam, a rather long list of establishment, which had been working under the Collector on the Parlákimedi estate, was shown me. The Collector told me, in conversation, that he learned several of this establishment had been reduced or were employed on less pay. I think we should see the list of old hands and have the Superintending Engineer's suggestions as to their continued employment. It will give great dissatisfaction in the estate if all old hands are sent adrift, and subordinates without any local knowledge appointed.

4. I so far agree with the Superintending Engineer that I consider it inadvisable to undertake too many works at one time, but he does not tell us what he does propose as to the number of works, expenditure and extent of country to be attended to by each subordinate (overseer).

5. The Superintending Engineer gives no information regarding the delay there has been in taking over the works in the estates and providing funds. The Collector told me that he had done all in his power to enable the Public Works Department to deal with the works; and, for the credit of the department, I think we should make a searching inquiry into the subject. The Superintending Engineer should be called upon to report what steps were taken in his office and by the Executive Engineer to obtain the funds required, giving the dates of the letters written on the subject in both offices. It may then be possible to discover who is to blame for a most unsatisfactory state of affairs.

From Major S. C. CLARKE, R.E., Acting Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Berhampore, 30th April 1886, No. 88 G.N.

I have the honor, with reference to your No. 1453 C., dated 9th instant, to resubmit the proposition statement called for, and beg to state that, at the request of the Executive Engineer, I have now included the requisite establishment for both the Parlákimedi and Jarada estates; the third estate (Urlám) the Executive Engineer will be able to look after himself (being close to his headquarters) with the assistance of a sub-overseer, who is on the permanent establishment.

2 I have authorised the Executive Engineer to employ as many of the old servants as may be found fit and competent, within the scale now recommended.

3. I may here remark that it has been found impossible to obtain the services of competent draftsmen (just now none are forthcoming, although there are two vacancies) to accept either permanent or temporary posts on the lower scale of salaries; so that I beg that the maximum rates of pay may be sanctioned as a special case.

4. Referring to the Chief Engineer for Irrigation's office note, No. 86, of April 1886, I beg to remark that I was aware of the fact that an establishment had been duly sanctioned some time back, but having been informed that the existing staff were very much under the required strength and not sufficiently well paid, I deemed it advisable to submit a revised establishment statement, which has now been reconsidered and altered. The total annual charge for the proposed establishment will be 10·7 per cent. on the approximate anticipated outlay, viz., Rs. 1,20,000, during the current year on the two estates. In my former report, which was wholly taken from Mr. Vincent's inspection notes, I was unable to give any detailed information regarding the several works proposed to be started, but a budget statement for these two estates has been lately submitted, wherein the proposed works are enumerated.

5. The Executive Engineer states that several of the major projects must be re-investigated and fresh estimates drawn up, for the surveys and other plans are not to be found anywhere and most of the rates are too low to allow of good work being executed.

6. I beg to forward, for perusal, the (A and B) replies I have received from the Executive Engineers of the Ganjam and Rushikulya divisions regarding the non-provision of funds and the delay in commencing the estate works.

7. From the various letters, &c., relating to these estate works in this office, I find that, after the receipt of G.O., No. 2433 W., of 19th October 1885, in this office, nothing further seems to have been done, and neither of the divisional officers appear to be able to find any orders on the subject; from which fact I must admit that this office is mainly to blame for the unsatisfactory state of affairs, and that the late Superintending Engineer must have forgotten all about the matter, for no orders were issued by him on the subject to any one.

Enclosure.

About 10·7 per cent. Approximate anticipated outlay during 1886-87, Rs. 1,20,000.

Berhampore,
27th April 1886.

(Signed) S. C. CLARKE, Major, R.E.,
Ag. Superintending Engineer, I Circle.

Office note from the Examiner of Public Works Accounts, dated 31st May 1886, No. 169.

Order—dated 18th June 1886, No. 1545 W., Public Works.

The statement of establishment for carrying out works in the Wards' estates situated in the I Circle is sanctioned, as proposed by the Superintending Engineer, in his letter, No. 88 G.N., dated 30th April 1886, recorded above; but the provision therein made for upper subordinates has been struck out, the required temporary upper subordinates having been separately sanctioned.

2. The Government notice with dissatisfaction the delay that occurred in taking over the works in the estates and in obtaining the funds required during the past official year. The list of works proposed by the Superintending Engineer for execution during the current official year has been forwarded to the Court of Wards (through the Revenue Department) for the necessary provision of funds, and the Government trust that the Superintending Engineer will make timely arrangements for maintaining and improving the estate works satisfactorily.

3. The action taken by the Superintending Engineer in regard to the re-employment of old servants who have been in charge of estate works is approved.

4. The sanction accorded in paragraph 1 of these proceedings has been registered as Provincial, No. 24 W. of 1886-87, and classified as Establishment, Temporary.

C. No. 3194

Note.

The appointment of C. Kristnamurti as Tempy: Overseer 3rd grade should have received the special sanction of the Chief Engineer.

The case not having been sent to the Establishment Section before or after disposal, there was no opportunity given to objecting the appointment as in excess of the sanctioned number of temporary posts.

There seems no help therefore but to sanction the appointment.

DOWLAISHWERAM, 20th April 1887
Despd 21/4/87

SIR,

Sanction of Chief Engr. for Kristnamoorty naidu appointment as temporary overseer 3d Grade. G.O. No. 2294 d/25th Janry /87 simply sanctioned his exemption vide Dis: List No. 460 of 1886-87.

With reference to the Examiner's remark as per margin in the Salary Dis: List No. 502 for January 1887 of the Ganjam Division, I have the honor to state that C. Kristnamoorty naidu was appointed by the Executive Engineer in July 1886 and his exemption from the Examination rules was sanctioned in Government Order No. 2294 dated 25th January /87 and I therefore request that sanction to the appointment of this overseer from 2nd July /86 may be accorded in order to remove the Examiners objection-

I have the honor to be

TO
THE CHIEF ENGINEER
PUBLIC WORKS DEPARTMENT.

DOWLAISHWARAM, 1st August 1887
Desp 6th

SIR,

	Rs. a. p.
V. Appala Narasayya clerk on Rs 15 from 14th June to end of July 1886	23-8--
A. B. Krishnamurty Clerk on Rs 15 from 11th June to 5th August 1886	27-6-9
B. P. L. Narasimharow Clerk from 21st August 1886 to end of October 1886 on Rs 15	35-5-2

I have the honor to bring to your notice that owing to the difficulty in obtaining passed candidates for temporary appointments in the Office Establishment of the late Rushikulya Division the Executive Engineer of the Division has entertained 3 unpassed men as clerks on Rs 15 each for the periods noted in the margin, whilst sanction has been accorded in G. O. No 1617 W. of 25-6-86 for 3 clerks on Rs 20 per mensem.

2. The Salaries for these unpassed men were claimed; but the Examiner has objected to pass them in the absence of the Sanction of Government on account

account of the charge made in the Sanction-ed rate of pay.

3. I therefore request that you will be good enough to obtain the Sanction of Government for the Course followed by the Executive Engineer to enable the Examiner to admit the above charges.

I have the honor to be

Sir,

Enclosures.

I have the honor to request that the Examiner of P.W. accounts may be authorised to pass the pay of A. Venkatarayalu Naidu an un-passed candidate who was appointed on Rs 25 per mensem from 14th May/87 to act for storekeeper, Jamaluddin Saib Kurnool Division who was suspended from that date as no passed candidate was available to take up the acting appointment. His services have since been dispensed with on the 26th July/87 when the permanent incumbent was relieved of his suspension.

To W.

A. Venkataroyalu Naidu was appointed acting storekeeper Kurnool Division on Rs. 25 per mensem, vice Jamaluddien Saib under suspension from 14th. May 1887. Jamaluddien was relieved from suspension from 26th. July 1887, and the services of Venkataroyalu were dispensed with from that date.

2. Venkataroyalu has not passed the qualifying test required under Code para 172, and, under para 180, sanction of Govt. should have been obtained to the employment of an unpassed candidate for over a month.

3. The pay of the substitute will be admitted if now sanctioned by Govt. under the circumstances explained by the Supg. Engineer.
