23rd SEPTEMBER 1887, No. 2525 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following letter from Lieutenant-Colonel J. PENNYCUICK, R.E.,
Superintending Engineer, VI Circle, to the Chief Engineer, Public Works
Department (through the Chief Engineer for Irrigation), dated Curuv-
nuthu, 8th September 1887, No. 80 P.E. :—

I have the honor to suggest that the Travancore Government be informed of the
intended commencement of the Periyár works, and requested to direct their officials not
to interfere with coolies coming to the works.

2. The branch road leading to this camp and to the Periyár leaves the main road
on the Travancore side of the boundary, and I am informed that the Travancore officials
object to the passage of salt and tobacco for use by the coolies.

3. I would also suggest for consideration the possibility of establishing a branch
Post office at Kumili, close to the head of the Gúdálúr ghât. I do not suggest this if
it involves the establishment of a separate line of runners, but I believe mails are
already carried by the Gúdálúr ghât into Travancore, and if so, the establishment of a
depôt for the receipt and delivery of letters at Kumili would probably cost very little,
while it would be a great convenience to have an office there instead of at Gúdálúr
which is nine miles further off.

4. We shall have five or six Europeans and some four or five hundred natives
here this year, and next year probably ten or twelve Europeans and six or seven hundred
natives.

No. 54 E.W.

Forwarded to the Chief Engineer, Public Works Department.

CHAPAK,
14th September 1887.

(Signed) S. D. PEARS,
for Chief Engineer for Irrigation.

ORDER—dated 23rd September 1887, No. 2525 W., Public Works.

Communicated to the Political Department with reference to G.O., No. 2314 W.,
dated 29th August 1887, in view to the Travancore Government being addressed.

2. Paragraphs 3 and 4 will be communicated to the Postmaster-General for
consideration.

Establishment of a separate line of runners,
but the mails are already carried
by the Gadsden that is true
and if so the establishment of a depot
for the receipt and delivery of letters
at Kumili would probably cost very
little, while it would be a great
convenience to have an office there
instead of at Gadsden which is nine
miles further off.

4 We shall have four or six Europeans
and some four or five hundred natives
here this year and next year probably
ten or twelve Europeans and six or
seven hundred natives.

I have the honor to be,
Sir,
Your most obedient servant,
J. B. Smith
Superintendent Engineer 6th Circle.
