J. W. Randall Esquire
Superintending Engineer 2^d Circle
To

The Chief Engineer
Public Works Department
Thro. The Examiner P. W. Accts, Madras
Sir

I have the honor, with reference to Item
No. 8 in the Provincial Statement of Objectionable
Items forwarded with G. O. No. 2106 W of the 8th
Instant to report that the Executive Engineer
Kistna Eastern Division applied for an extension
of the date by which his Divisional Accounts
should reach the Examiner's Office, on the ground
that much extra work was involved in consequence
of the abolition of the late Gudivada Division
and of the amalgamation of its accounts with
those of the Kistna Eastern. This was supported
by the late Supg. Engineer Mr. Wybrock, but is
is objected to by the Examiner, because a very
late ^{date} has already been fixed for the submission
of the Eastern Division Accounts.

B5

2. I think myself there should be no difficulty in the accounts being punctually forwarded, because the Divisional Accountant has a very large staff working under him, not less than 8 clerks are shown in the Divisional Statement as doing work in connection with the Accounts.

3. The cost of Establishment in the Division Office in addition to the Accountant is Rs. 237 per mensem.

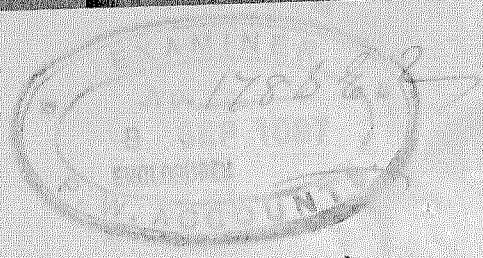

4. The Accountant should certainly be able to keep his accounts in order and punctually up to date.

I have the honor to be
Sir

Your most Obedt. Servant

J. W. Rindall
Superintending Engineer 2^d Circle

Comptroller

The the Government

No 90115

Date 6 2d September 1887

Accounts of the
Kishor Coal Mine Division

I state that there is
no difficulty in the
submission of - by the
due date as the Accountant
has a large staff
working under him.

No. 67W dated 20th September 1887.

In forwarding this letter on to
you, I beg to state that, I shall
shortly be submitting the report
ordered in para 3 of G.O. ⁶
at 1560 W of 21st June 1887 and
when doing so, I shall
endeavour to show what the
general unpunctuality is due
to, and the measures necessary
to prevent it. I will only say
now that, in my opinion, the
unpunctuality is not generally
the fault of the Accountants, and
that I see no reason to suppose
that it is so in this case, in
spite of the apparently ample
assistance given to the
Accountant.

2. I would suggest that no
further notice be taken of the
present case, and I hope that
it will soon be found possible

to

to take general measures for
removing the causes of
impunctuality.
