GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From W. LOGAN, Esq., President, District Board, Malabar, to the Chief Engineer, Public Works Department (through the Superintending Engineer, IV Circle) dated Calicut, 12th August 1887, No. 566.

I have the honor to enclose two plans and estimates for reconstructing the Eringoli bridge on the outskirts of Tellicherry.

2. One design provides for removal of the existing masonry piers and for constructing the bridge of iron rolled beams carried on wrought iron screw piles. The estimate works out at Rs. 12,500.

3. The other design provides for utilising the existing masonry piers, which are to carry three Whipple-Murphy pony trusses, on the centre spans, and iron rolled beams on the end spans. The estimate works out at Rs. 15,400.

4. Seeing that we know so little of what the masonry piers are really constructed and what the depth of their foundations, and seeing also that the screw-pile bridge will be cheaper by nearly Rs. 3,000, I propose (if you see no objection) to advise my District Board to adopt the screw-pile design.

5. I may add that, although signed by Mr. Maylor, our present acting District Engineer, the designs and estimates are really the work of Mr. Anderson, our permanent District Engineer, who has gone home on sick leave.

6. You will observe that the necessary borings have been made.

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 27th August 1887, No. 356 E.W.

I have the honor to forward the letter of the President, District Board, Malabar, No. 566, of 12th instant, together with three plans, two estimates and one specification for reconstructing the Eringoli bridge on the Tellicherry-Coorg road No. 3, two miles north of Tellicherry; and am of opinion that the design for reconstructing the bridge shown in drawings Nos. 2 and 3 with iron rolled beams erected on wrought iron screw piles, at a cost of Rs. 12,600, is better and cheaper than the other design as per drawing No. 1 (the estimate of which amounts to Rs. 15,400), and I recommend the former for the sanction of Government.

2. The estimate for the above screw-pile bridge has been examined and slightly corrected in this office, and the total amount raised from Rs. 12,500 to Rs. 12,600.

1276

No. 6822.

Note by the Chief Engineer, Public Works Department.

The Chief Engineer agrees in opinion with the Superintending Engineer that of the alternative plans submitted by the District Board the screw-pile design is preferable, and accordingly recommends it for the sanction of Government.

2. It is observed that the drawings of the couplings referred to in the specification are not with the papers.

20th September 1887.

(Signed) J. O. HASTED, Colonel, R.E.,
Chief Engineer, Public Works Department.

ORDER—dated 27th September 1887, No. 2564 W., Public Works.

The estimate, amounting to Rs. 12,600, for reconstructing the Eringoli bridge on the Tellicherry-Coorg road, is sanctioned.

2. This sanction has been registered as Local, No. 26 W. of 1887-88.

(True Extract.)

(Signed) J. O. HASTED, Colonel, R.E.,
Secretary to Govt., P.W.D.

To the Local and Municipal Department, with six enclosures.

 " Director-General of Post Offices, dated 10th May 1887, No. 1582.

ORDER—dated 15th June 1887, No. 1617 W., Public Works.

With the papers recorded above, the Superintending Engineers and the Consulting Architect submit statements of demands on account of incomplete and minor new works, and for repairs under Imperial Military and Civil Works.

2. Under Imperial Military the demands for original works amount to—

	RS.
Minor works, lump sums	28,355
New works, minor	20,408
Do. major	16,208
Incomplete minor works	6,239
Do. major works	60,241
Total ..	1,31,451

while the budget grant for minor works amounts to only Rs. 20,987. The statements received from the Superintending Engineers, IV and V Circles include large demands on account of works which should have been brought forward in their budget estimates; but as many of these works are in progress and cannot with advantage be postponed, a sum of Rs. 26,021 will be transferred from the grant for repairs to enable funds to be provided for them. The available grant for original works will then be Rs. 47,008. Of this amount, Rs. 36,411 for incomplete works and Rs. 1,224 for a new work which has been already sanctioned for immediate execution—vide G.O., No. 1111 W., dated 23rd April 1887, are now allotted, and the balance, Rs. 9,373, is placed in lump sum at the disposal of Officers Commanding Divisions and Districts, to whom Superintending Engineers will apply for funds for such works only as are emergent.

3. The rate of percentage charge for general tools and plant having been increased from 1 to $1\frac{1}{2}$ per cent.—*vide* G.O., No. 881 W., dated 23rd March 1887, the provision required to meet the adjustment of the contribution at the higher rate has been made by reducing rateably the budget grants for repairs, and establishment. The budget grants will in consequence stand as shown below :—

Original works	...	...	...	...	...	...	...	RS.
Repairs	...	...	...	...	...	...	...	1,42,600
								2,98,170
Establishment	...	...	...	...	...	...	Total, Works	4,40,770
Tools and plant	...	...	...	...	...	...		1,02,630
								6,600
							Total	5,50,000

The budget provision of Rs. 3,00,000 for repairs will therefore, including the transfer to original works sanctioned in paragraph 2 above, be reduced to Rs. 2,72,149. The demands under repairs and the allotments sanctioned against them are shown in statement A. If the allotment to the Presidency division be found insufficient, the Superintending Engineer, V Circle, will apply for a further grant later in the year.

4. Under Imperial Civil Works the demands against original works, postal, amount to—

For minor works, lump sum	...	...	...	...	...	...	RS.
For incomplete major works	...	...	...	...	...	...	1,630
							2,129
						Total	3,759

The budget provision for postal minor works is Rs. 10,000. Of this, a sum of Rs. 2,129 has been allotted for completing the new Post office at Anantapur, and the balance, Rs. 7,871, is placed at the disposal of the Director-General of Post Offices, who will allot the required funds for works to be undertaken during the year.

5. The demands against original works, telegraphs, amount to Rs. 1,046 for incomplete minor works; but as the demand in each case is within Rs. 500, no appropriation is necessary under code paragraph 1908, part III. The budget provision of Rs. 6,000 for minor works, telegraphs, has therefore been placed at the disposal of the Director-General of Telegraphs, to whom application should be made for funds required during the year.

6. Under Imperial Civil Works the provision required to meet the adjustment of the contribution on account of general tools and plant at the higher rate sanctioned by the Government of India will be met by reducing the amount reserved in the budget for telegraph repairs, and the budget grant will, in consequence, be altered as shown below :—

Original works	{ Postal	...	...	...	...	...	RS.
	{ Telegraph	...	...	...	...	...	10,000
Repairs	{ Postal	...	...	...	...	...	6,000
	{ Telegraph	...	...	...	...	...	6,000
Establishment	...	...	...	...	...	...	4,905
Tools and plant	...	...	...	...	...	...	6,190
							405
						Total	33,500

7. The demands under Repairs, Postal and Telegraph, and the allotments sanctioned against them, are shown in statement A.

8. The statement received from the Superintending Engineer, I Circle, does not include demands for works in the Vizagapatam division. To avoid delay, allotments

have been made to the extent sanctioned in the last official year for repairs under Military and Civil Works, and the Superintending Engineer will apply separately if funds are required for incomplete works.
