GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following papers :—

From Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle, to the Deputy Assistant Quartermaster-General, Eastern District, dated Chepâk, 25th December 1886, No. 4874.

I have the honor to forward, herewith, for disposal, the plan and estimate for conversion of A. block into single men's barrack and subsidiary accommodation for a garrison battery of Royal Artillery, to which the Deputy Surgeon-General, Her Majesty's Forces, Eastern District, has accorded a modified approval as per copy of extract of his letter marginally noted. In reference thereto, I would state that square bricks appear to have been adopted in Madras as material for barrack, but no other flooring, solely on account of its first cost being less than that of other and more suitable material. The after cost, however, of a brick floor is much greater. If the floor of A. block was made with Portland cement, the addition to the present estimate would be Rs. 3,225 ; and if with asphalte, as in the Station and General hospitals, the addition to the present estimate would be Rs. 6,800 ; but in my opinion asphalte floor would be in reality the more economical one on account of its greater permanency ; it is, moreover, the only one, other than wood (the usual material for a barrack floor in England and the Colonies), which can be cleaned daily by washing. As the Deputy Surgeon-General has not yet given his approval to the proposals for the wash-house and latrine, the reference * made to me concerning those estimates cannot be dealt with until after the re-opening of the Public Works offices ; so in view of the utilization of the grant for this work during the current year, I forward now the plan and estimate for conversion of the A. block.

Extract from letter from Deputy Surgeon-General, to Superintending Engineer, V Circle, dated 23rd December 1886, No. 66.

"I have the honor to state that in my opinion the plan of conversion of A. block appears suitable in all respects, except that the floor ought to be of asphalte, and not of brick, the former material being in every way preferable on sanitary grounds. The present condition of the Infantry barracks shows what an unsatisfactory floor for a barrack room the brick procurable here forms."

---

* In your endorsement, dated 16th December 1886, No. 4350.

Approved.

(Signed) A. C. JOHNSON, Major-General,
Commanding Eastern District.

29th December 1886.

From Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 25th January 1887, No. 5286.

As the estimates last submitted during Christmas holidays for the conversion of A. block, &c., into single men's quarters for additional accommodation in the fort have not as yet been sanctioned, I have the honor to surrender the whole of the existing grant of Rs. 17,160 of the item No. 4 of B. class works in the current year's budget.

No. 330 C., Public Works.

Referred to the Military Department for favor of His Excellency the Commander-in-Chief's remarks.

To the Quartermaster-General.

From Brigadier-General E. FAUNCE, Officiating Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 2nd February 1887, No. 512 A.

I have the honor, by order, to forward, for sanction and transfer to the Public Works Department for disposal, the estimates and plan, &c., below mentioned, which have been approved by the Commander-in-Chief. The plan and estimates have been countersigned :—

Abstract and detail estimates, amounting to Rs. 6,600, for converting the A. block family quarters, Fort St. George, into Royal Artillery single men's barracks, and providing a cook-house, with report, plan and letter, No. 4874, dated 25th December 1886, from the Superintending Engineer, V Circle.

2. The Commander-in-Chief considers that the floor should be of asphalte as being more economical in the long run, and desires me to request that the early sanction of Government may be accorded to this work, so that a beginning may be made before the termination of the current official year.

No. 740, Military.

Approved and transferred to the Public Works Department for disposal.

(By Order.)

Fort St. George,
4th February 1887. (Signed) A. R. KENNEY-HERBERT, Lieut.-Col.,
Secretary to Government.

From Brigadier-General E. FAUNCE, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 4th February 1887, No. 537 A.

In returning letter, No. 5286, of 25th January 1887, from the Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, received under your No. 617, of 31st idem, I am desired to state that the plan and estimate for the conversion of the A. block family quarters, Fort St. George, into single men's quarters, &c., for the garrison battery, Royal Artillery, was submitted to Government with this office No. 512 A., dated 2nd instant, and to express regret at the delay caused in their submission, which has been unavoidable.

2. A large item in the estimate is the cost of flooring the barracks with asphalte, a desideratum which the Commander-in-Chief considers both essential and economical, and as there are still nearly two months during which the work can be prosecuted, Sir Charles Arbuthnot considers it most undesirable that the amount should be surrendered, and desires me to express a hope that Government will be pleased to issue the necessary orders for the commencement of the work and for its being proceeded with as speedily as possible.

No. 796, Military.

Transferred to the Public Works Department, in continuation of Military Department No. 740, dated 4th February 1887, and the referred papers * returned.

Transferred

Public Works Department.

Current No. 924
Letter No. 740
Dated the 4th February 1887
From the Secretary to Govt. Military Dept.

Note of Remarks.

1. The accompanying plan and estimate provide for converting the A Block Family Quarters at Fort St. George into a Barrack for 104 single men of a Garrison Battery of Royal Artillery. If the flooring be of ordinary 8 inches sqre. bricks with cement pointing, the estimate amounts to Rs. 6600; if of Portland cement, it amounts to Rs. 9825; but if of asphalte, it amounts to Rs. 13400.

2. The work proposed to be effected consists in the removal of the majority of the existing partition walls of the Family Quarters from both upper and lower stories, the introduction of semi-circular arches into the upper and lower inner south longitudinal walls, raising the roof of the upper southern longitudinal rooms to a level with the roof of the adjoining longl. rooms, and in the improvement of the upper and lower floorings, together with converting R. A. Qr. Mr. Sergeant's office into a Cook House.

3. The intended alterations appear to be only such as are necessary to render the building fit and suitable to effect the accommodation at present proposed, and subject to approval, may be accepted. The masonry, including arch work, is to be of brick in mortar, and the new roofing is to be of terracing on the lines laid down in the Standard Specification for such description of work.

4. It rests with E.W. which of the three descriptions of flooring, for each of which the estimated cost is now submitted, shall be adopted in the present instance — It is for him to decide whether the new flooring of the Barrack shall be of ordinary 8 inch sqre. bricks pointed with cement, or of Portland cement, or of asphalte. The Commander-in-Chief, the Dy. Surgeon General and S.E.V. recommend the adoption of an asphalte floor on both financial and sanitary grounds — on financial, that it is far more economical

in the longrun that the floor should be of so durable a material as asphalte; on sanitary, that by the nature of the substance, it permits periodical washings of its surface without sustaining any injury or occasioning any inconvenience.— It has however been urged against asphalte as a flooring material that during the hot months of the year it loses much of its solidity and is inconsequence unable to sustain any great pressure, or even to bear any rough treatment, while at the same time it must be remembered that if asphalte be approved the charge under that

single

single item will be Rs. 6800 — Perhaps after all a coating of Portland cement 3/4 inch thick (the cost of that item being Rs. 3,225) may possibly give a flooring best answering present requirements on both sanitary and financial grounds.

5. The scantlings of the timbers are correct. The rates are fair.

6. The plan and estimate are countersigned by the Qr. Mr. General and are approved in the Military Dept.

B.H.
10/2/87

The Est. should be sanctioned at once for ~~Rs~~ 13,400 W.W. 10.2.87

427 W

To Dr

For orders –

This matter requires to be settled with the least possible delay as provision for the work exists to the extent of Rs 17,160, & it is important that as much as possible of this amount should be expended before 31st March.

The Surgeon Genl & the Commr in Chief have both given their votes in favour of asphalte, & the proposal has been approved by Govt in the Mily Dept. It is thought therefore that the estimate may be sanctioned to extent of at once Rs 13.400 – The order might issue, & be shown to W afterwards.

Military Works.

READ—the following papers:—

From Brigadier-General E. FAUNCE, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 12th July 1887, No. 2439 A:—

I have the honor, by order, to forward, for sanction and transfer to the Public Works Department for disposal, the estimate, &c., below mentioned, which have been approved by the Commander-in-Chief. The estimate has been countersigned:—

Estimate, amounting to Rs. 2,536, for repairing, white and color washing the A block of family quarters converted into single men's barracks in Fort St. George, with report.

2. This estimate, classed under Original Works under paragraph 909, Public Works Department Code, is supplemental to that for Rs. 13,400 sanctioned in G.O., No. 427 W., of 10th February 1887, which does not include the items for which sanction is now sought, and which are absolutely necessary to render the building fit for occupation.

No. 4167, Military.

Approved, and transferred to the Public Works Department for disposal.

(By Order.)

OOTACAMUND, 13th July 1887. (Signed) A. R. KENNEY-HERBERT, Brigdr.-Genl., Secretary to Government.

Note by the Chief Engineer, Public Works Department.

Submitted with a recommendation that the percentage for contingencies be reduced to 2½, and the estimate sanctioned for Rs. 2,477.

31st July 1887. (Signed) J. O. HASTED, Col., R.E., Chief Engineer, P.W.D.

ORDER—dated 4th August 1887, No. 2081 W., Public Works.

The estimate of Rs. 2,536, for repairing and white and color washing the A block of family quarters now being converted into single men's barracks, Fort St. George, has been reduced to Rs. 2,477, with reference to the note by the Chief Engineer, Public Works Department, above recorded, and sanction is accorded to the reduced amount, which will be considered as supplemental to the estimate of Rs. 13,400 sanctioned in G.O., No. 427 W., dated 10th February 1887.

2. This sanction has been registered as Imperial, Ordinary, No. 23 W. of 1887-88, and classified as Military, Original Works.

Read—the following papers :—

From Brigadier-General E. FAUNCE, Quartermaster-General, to the Secretary to Government, Public Works Department, dated Ootacamund, 22nd July 1887, No. 2562 A.

I am desired to bring to your notice the serious delay which has been allowed to arise in the submission by the Superintending Engineer, V Circle, of the plans and estimates for the wash-house and latrine subsidiary to the new Royal Artillery barracks provided in Fort St. George by the conversion of the A. block family quarters, British Infantry.

2. The General officer commanding Eastern district reports that, so long back as December last, he asked for the early submission of these plans and estimates, and that in March he again called for them, but up to the 14th instant he had not received them.

3. The consequence of this great delay has been that the battery which is now in occupation of the new barracks not only has not any proper wash-house and latrine but is not likely to obtain them until next year, for funds which might have been made available for these works have now been appropriated to others.

No. 4452, Military.

Forwarded.

(By Order.)

Ootacamund,
25th July 1887.

(Signed) A. KENNEY-HERBERT, Brigdr.-Genl.,
Secretary to Government.

From Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Bangalore, 4th August 1887, No. 1929.

In returning your endorsement, No. 2250 C., dated 1st August 1887, I have the honor to report that plans and estimates for constructing wash-house and latrine, in accordance with the original proposal, were submitted to the Deputy Assistant Quartermaster-General, Eastern district, with this office letters, Nos. 3846 and 4066, dated 1st and 11th November 1886.

2. The plans and estimates for alterations to A. block, &c., to adapt them for single men's barracks had been previously submitted on the 4th September. These were returned by the Military authorities for revision on the 8th September 1886. Revised estimates sent on the 4th October were also returned for revision on the 26th October, and these again revised were sent on the 1st November 1886.

3. The plans and estimates for alterations to A. block and for the wash-house and latrine were all returned for revision on the 16th December 1886.

4. Plans and estimates for alterations to A. block revised a third time were sent on the 25th December 1886 and were sanctioned in G.O., No. 427 W., dated 10th February 1887.

5. As regards the plans and estimates for wash-house and latrine, the Deputy Surgeon-General, Her Majesty's Forces, for whose opinion they were submitted as desired by the Military authorities, objected to the wash-house being built within the Fort as proposed, on the ground that it will add another building within the already overcrowded Fort, and suggested on the 29th December 1886 that, if it be possible to construct a suitable latrine as well as wash-house in the present Sergeants' mess and godowns connected therewith, such arrangement would appear to be convenient and expedient.

6. Plans and estimates prepared accordingly were submitted to the Deputy Surgeon-General on the 26th April 1887 and were returned by that officer on the 12th May 1887 with suggestions regarding certain improvements he considered necessary.

7. Plans and estimate accordingly revised were received in my office from the Executive Engineer on the 19th July 1887, and on receipt of information, which has been called for from the Executive Engineer regarding certain rates, &c., the papers will be sent on for sanction.

8. There is a very large number of estimates required to be prepared every year in the Presidency division, and the delay in the submission of the plans and estimates for wash-house and latrine, complained of in the Quartermaster-General's letter, herewith returned, is chiefly due to the frequent revisions of the plans and estimates at the request of the Military authorities as explained above.

ORDER—dated 13th August 1887, No. 2153 W., Public Works.

The Superintending Engineer's letter recorded above will be communicated to the Military Department with reference to their endorsement, No. 4452, dated 25th July 1887.

Enclosures.

SIR,

I have the honor to state that on the Estimate of Rs 13,400 sanctioned in G. O. No. 427 W dated 10th February 1887, for Converting A Block of Family Quarters into Singlemen's Barracks in Fort Saint George, a sum of Rs 5955 was spent in the last official year and the balance Viz Rs 7445 has been appropriated in G. O. No. 1617 W dated 15th June 1887 for the current official year and the whole grant is required to complete the works,

2. A supplemental Estimate of Rs 2477 has since been sanctioned in G. O. No. 2081 W dated 4th August 1887, on which Rs 2428 have been spent, as the works is being carried out in connection with the first Estimate. I therefore request that an additional grant of Rs 2477 may

be sanctioned to meet the outlay on the Supplemental Estimate.

3. I should mention that the Estimate of Rs 13400 is likely to be exceeded by Rs 1714, and an additional funds to the extent of Rs 4191 are required for the work.

The Revised Estimate will be submitted shortly.

I have the honor to be

Dated 3d February 1887

Received 3d — " —

SUBJECT.

Regarding an Estimate in connection with the increase accommodation for Troops in Fort Saint George

DISPOSAL.

B W/52

No. 414 C Dated 5th Feby 1887

Referred to the Mily: Dept, in continuation of No. 330 C dated 28th January 1887, in view to the Quarter Master General's Dept being urged to hasten the submission of the Estimates in question.

2. Provision exists in the

C No 828

To W

The estimates referred to have not yet reached the P.W. Dept, & must therefore be still with the military authorities.

There is a provision of Rs 17160 for item (1) in the current year's Budget. This sum the S.E. recently proposed to resign, & the matter has been referred to the military dept. Vide - 330 C of 28.1.87

For (2) no provision exists.

C
4.2.87

I think we might address Q.M.G. asking when the est. is, as nothing can be done this year unless it is sanctioned immediately.
