19TH OCTOBER 1887, No. 2775 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following papers:—

From Brigadier-General E. FAUNCE, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 17th August 1887, No. 2913-A.

No. 128 G., dated 13th August 1887.

Referring to this office letter No. 2358 A., of 5th July 1887. I am desired to submit, for the information of Government, the letter, as per margin, from the General Officer Commanding Ceded Districts, from which it appears that, notwithstanding the provision of funds and the execution of the work in the last official year, the Executive Engineer of the district now requires a fresh allotment of funds to be made for the work in the current year.

2. Before approving of the allotment of funds, which the Brigadier-General Commanding reports he has made a second time, the Commander-in-Chief would ask that the matter be brought to the notice of Government in the Public Works Department, in view to its opinion being obtained as to the necessity for the renewed grant of funds, which, I am to note, will unduly diminish the balance available for allotment for minor works of the current year in the Ceded Districts command.

ENCLOSURE.

From Colonel A. D. PARSONS, Commanding Ceded Districts, to the Quartermaster-General, Madras Army, dated Bellary, 13th August 1887, No. 128 G.

Adverting to my monthly statement of Minor Works Grant, sanctioned in December 1886, and letters No. 12-G. of 26th January and No. 100-G. of 27th June 1887, I have the honor to report for your information that the Executive Engineer, Bellary division, writes and says, under date the 19th July 1887, that the amount, Rs. 664, already assigned last year for "fitting up a new gate and raising the compound wall of Lock Hospital," is not available for outlay during the current year and the same having lapsed.

2. He has therefore requested that Rs. 600 be now allotted afresh, and I accordingly sanctioned the amount from the current year's grant.

No. 5086, Military.

Referred to the Public Works Department with advertence to this department proceedings of Government, No. 4103, dated 11th July 1887.

(By Order.)

OOTACAMUND, 19th August 1887.

(Signed) A. KENNEY-HERBERT, Brigdr.-Genl.,
Secretary to Government.

No. 505 D.

Compound wall of the Lock Hospital, Bellary.—Forwarding original letter of Quartermaster-General to Superintending Engineer, III Circle, with request to report the circumstances in which the allotment made during 1886-87 for fitting up a new gate and raising the — was allowed to lapse.

From C. J. PETERS, Esq., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 15th September 1887, No. 1145.

I have the honor to submit a copy of letter No. 1490, of 9th September 1887, from the Executive Engineer, Bellary division, explaining how the allotment for raising the wall of the Lock Hospital at Bellary was allowed to lapse.

2. The fact of the allotment having been made appears to have been lost sight of both in the divisional and this office. On the sum being allotted, it should, of course, have been at once registered in the book kept for that purpose in each office. The accountant, through whose negligence this was not done in the divisional office, was transferred from this circle in May 1887.

3. The second clerk in this office, whose duty it was to register it in this office, pleads that he was sick at the time.

ENCLOSURE.

From A. H. GARRETT, Esq., Executive Engineer, Bellary division, to the Superintending Engineer, III Circle, dated Bellary, 9th September 1887, No. 1490.

In reply to your No. 1016, of 5th September 1887, I have the honor to explain the circumstances under which the allotment made in 1886-87 for raising the wall of the Lock Hospital was allowed to lapse. The estimate for this work amounted to Rs. 630 and consequently required the sanction of Government. In view, however, of the emergent nature of the work, it was commenced in anticipation of sanction by orders of the Superintending Engineer. On 2nd December the Officer Commanding Ceded Districts allotted funds for the work, and this fact was communicated by the Superintending Engineer with his No. 1909 of 21st December, in which it was said that the Deputy Assistant Quartermaster-General had been requested to forward the estimate for sanction of Government. In G.O., No. 668 W., of 4th March 1887, Government sanctioned the work for execution "when funds are available," being, I suppose, unaware that funds had already been allotted. This fact of funds having been provided also escaped the notice of my office, and I think the wording of the Government order to some extent explains the mistake. My accountant therefore, when a bill was submitted for the work in March, endorsed on it that no funds were available. I may mention that the grant for the work was never entered in my progress report, nor was the omission ever noticed in the Superintending Engineer's office. Moreover, when the allotment was made by the Officer Commanding the District, the fact never seems to have been communicated to the Examiner, otherwise he would have corrected the abstract at the end of my schedule of expenditure for December 1886 and subsequent months.

ORDER—dated 19th October 1887, No. 2775 W., Public Works.

The foregoing letter from the Superintending Engineer, III Circle, will be communicated to His Excellency the Commander-in-Chief, through the Military Department, with reference to the endorsement in that department, No. 5086, dated 19th August 1887.

2. The explanation furnished by the Superintending Engineer is very unsatisfactory.

3. It appears that an appropriation of funds was duly made for the work by the Officer Commanding the Ceded Districts, but that the circumstance was overlooked in both the Executive Engineer and Superintending Engineer's offices. Seeing that expenditure was being incurred on the work, application should have been at once made for a specific appropriation to cover it, when the facts of the case would have been elicited in time to prevent the lapse of grant which has now occurred.

2/2775

4. In the circumstances explained, it is considered that a renewed grant of funds for the work in the current year is necessary, and the Military Department will be requested to arrange for the allotment provided by the Officer Commanding the Ceded Districts being sanctioned.

5. Due notice should be taken of the culpable neglect of the second clerk in the Superintending Engineer's office and of the accountant, who, though transferred, is still in Government service.

Read—the following letter from Brigadier-General E. FAUNCE, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 24th February 1887, No. 842 A. :—

I have the honor, by order, to forward, for sanction and transfer to the Public Works Department for disposal, the estimate, plan, &c., below mentioned, which have been approved by the Commander-in-Chief. The plan and estimate have been countersigned :—

Estimate, amounting to Rs. 638, for fitting up a new gate and raising the compound wall of the Lock hospital at Bellary, with plan and report.

2. This work is considered necessary to prevent the inmates of the hospital from climbing over the walls at night, a practice at present prevailing and which is obviously objectionable.

3. The cost of the work will be met from the Minor Works grant at the disposal of the General Officer Commanding, Ceded Districts.

No. 1168, Military.

Approved and transferred to the Public Works Department for disposal.
