the proposed buildings to be at the disposal of the Trust when not required for Military purposes.

3. Colonel H. P. Hawkes, late Com-Missionary General after careful consideration came to the conclusion that 3 buildings were required - viz two measuring $120 \times 40'$ each parallel to each other, and one $100 \times 20'$ at right angles to the other two; and I have now to request that Government will be pleased to sanction my applying to the Public Works Department for plans and estimates for these buildings in order that they may be erected as soon as funds are available for the purpose.

The necessity for an embarkation depot has already been fully explained in the correspondence embodied in D. G. Nos 6251 and 7046 dated 16 December 1884 and 10 December 1885, respectively.

Order 4 October 1887 No. 447.

The Military Department will be informed that final orders on the question of the allotment of sites within the Harbour limits for the several Military departments are deferred pending reply to a reference that has been made to the Government of India regarding the site
