Superintending Engineer's Office
2nd Circle, Camp Baymader.
19th June 1885.

From

The Superintending Engineer,
2nd Circle.

To

The Chief Engineer,
Public Works Department,
Madras.

Sir,

In acknowledging the receipt
of your Telegram of the 17th Instant,
informing me that Lieutenant Colonel
Morant is to succeed me in charge
of the 2nd Circle, I have the honor
to request permission to hand over
charge of the Circle to this Officer
at Madras. I am just about to visit
the Lalgam and Kellone Divisions and
to inspect the Buckingham Canal, and
as Lieutenant Colonel Morant will be
relieved by Major Drake-Brockman,
at the end of July, it will probably
be convenient to him to take over
charge from me at Madras.

I applied for furlough from the
20th July, but could, if it were necessary,
retain charge of the Crick till the
25th of the month.

I have the honor to be,
Sir,

Your most Obedient

J. W. Randall
Superintending Engineer,
2nd Crick.

No 1518 Way 30 June 85

(18) Dec 5512

The required permission is granted
2. It will be more convenient if Mr Randall does not avail himself of his furlough until 25th July but the question will be left entirely to his own discretion.

From

The Superintending Engineer,
2nd Circle.

To

The Chief Engineer,
P.W. Department,
Madras

Superintending Engineer's Office
2nd Circle Camp Dressimala
10 October 1885.

From

J. H. Randall Esquire
Supt Engineer
2nd Circle

To

The Chief Engineer
Public Works Department
Madras.

Sir,

On returning to Madras in July last from Furlough, and finding that I was posted to the 2nd Circle, I arranged to join the Circle by travelling up the Buckingham Canal, in order that I might get a general idea of what had been done during my absence on leave, and what was being done.

2 I accordingly left Madras on the evening of the 26th July and Mr Vincent accompanied for some distance and I learnt from him what was going on.

3 I had also asked Mr Wybrow to meet me at Peddala Gajam, and on my arrival there on the evening of the 1st August, I met him there.

4 I assumed charge of the

with order,

the barge from her Wharves on the
forenoon of the 2^d August, and we
immediately proceeded up the Commu-
nication Canal to Bezmada.

5 The Examiner informs
me that under Rule 5 Section 160 of the
Civil Service Code, the sanction of a
Government is necessary to the transfer
and assumption of charge of the barge
having been made at a place other than
the Head Quarters, Bezmada.

6 Under the circumstances
above reported, I trust you will be
good enough to move Government to
grant the required sanction.

I have the honor to be

Sir,

Your most obedient servant.

J. W. Randall

Chief Engineer
2^d Barge
