No 2865 W of 25th Oct 1877
To

The Director General of Stores

India office
London.

Sir,

I am directed to request
that if possible you will
be so good as to obtain,
for the Govt. of Madras,
drawings and an estimate
of cost for a testing machine,
adapted to test cast iron
columns by compression.
It is presumed that the
machine will mainly
consist of a hydraulic
press working horizontally,
and that the design will
not involve any excessively
heavy component parts
being sent from England.
