GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment

Read—the following papers :—

No. 69 E.W.

Note by the Chief Engineer for Irrigation.

In G.O., No. 922, Financial, dated 20th August 1887, communicated in G.O., No. 2360 W., dated 2nd September 1887, it is directed that a programme of operations under Tank Restoration in 1888-89 for an outlay of 6½ lakhs should be prepared.

2. To enable this amount to be expended, it will be necessary to increase the establishment now employed in the preparation of estimates, and, I think, also to give further establishment to the Superintending Engineer to whom the execution of the works is entrusted.

3. At present there is the following establishment employed in investigation in the four districts, namely :—

No. 1 Party, Madura district.
No. 2 ,, Chingleput ,,
No. 3 ,, Kurnool ,,
No. 4 ,, Coimbatore ,,

Each party consists of an Executive Engineer provided from the permanent establishment with two temporary upper subordinates, four surveyors, two draftsmen, four clerks, 35 lascars. The cost of each party, exclusive of the pay of the Executive Engineer, is estimated at Rs. 14,100 per year, and, of this, Rs. 6,000 is charged as Petty to Works, the remainder, Rs. 8,100, is charged to temporary establishment.

4. In the office of the Chief Engineer for Irrigation, there is an Executive Engineer in charge from the permanent establishment, and six clerks, seven draftsmen, seven messengers, &c., the cost of which, with contingencies, is Rs. 10,700 a-year, chargeable to temporary establishment, and Rs. 4,000 for the cost of lithographing, printing, &c. The total establishment is therefore as follows :—

5 Executive Engineers belonging to the permanent establishment.
4 Parties chargeable to temporary establishments provided for in the Provincial Irrigation budget.

	Rs.
For four Parties	32,400
For establishment attached to office of Chief Engineer for Irrigation.	10,700
Total ...	43,100
Petty establishment chargeable to Works	24,000
For lithographing, printing, &c.	4,000
Total ...	28,000
Grand Total ...	71,100

It is considered that an extra upper subordinate with two surveyors, one clerk and fifteen lascars should be added to each party. The cost of this being—

	RS.
1 Upper subordinate	100
2 Surveyors	160
1 Clerk	25
15 Lascars	90
Travelling allowance and contingencies	95
Per month per Party ...	470
Per year " ...	5,640
For four Parties ...	22,560

Of this, Rs. 10,560 will be chargeable to temporary establishment, and Rs. 12,000, being the pay of the two surveyors and 15 lascars, to petty establishment chargeable to Works. It is considered that the Executive Engineers, now that they have their establishments in fair working order, should be able to work an additional sub-party to the two they now have. I would also propose that an additional party should be started in a fifth district, but, as there is no Executive or Assistant Engineer available, that it should be placed under charge of a selected temporary upper subordinate for the present, and that he should carry out, in the first place, the grouping, and eventually be placed under the orders of one of the Executive Engineers in charge of one of the Parties.

5. As this is proposed, it is necessary that the district for this fifth party to work in should be accessible from one of the present parties. One of the following districts that have been surveyed by the Revenue Survey Department and the maps published might be selected:—Nellore, Bellary, Tinnevelly, North Arcot. The first three districts are not accessible from any of the head-quarters of the present Parties; as this is the case, I would propose that North Arcot should be selected as the fifth district to be taken up; this is fairly accessible from St. Thomas' Mount, the head-quarters of No. 2 Party. I would propose the following strength and pay for this No. 5 Party for the present:—

	RS.
1 Temporary upper subordinate in charge	200
2 Do upper subordinates, at Rs. 100 each	200
4 Surveyors at Rs. 80 each	320
1 Draftsman	50
2 Clerks at Rs. 25 each	50
34 Lascars	204
Travelling allowance and contingencies	236
Per month ...	1,260
Per year ...	15,120

Of this, the four surveyors and thirty of the lascars would be chargeable to Works as petty establishment, the amount being Rs. 6,000.

6. The following is an abstract of the total cost of the above proposed establishment, showing the amounts chargeable to temporary establishments and to Works—

5 Executive Engineers from permanent establishment. (Amount chargeable to temporary establishment to be provided for in the Provincial Irrigation budget.)

	RS.
4 Parties, each of three sub-parties	42,960
For establishment attached to the office of Chief Engineer for Irrigation	10,700
For No. 5 Party	9,120
Total ...	62,780

2936/2

	RS.
Petty establishment chargeable to Works	36,000
Do. do. for No. 5 Party	6,000
For lithographing, printing, &c.	4,000
Total ...	46,000
Establishment charge at 23 per cent.	10,580
Tools and plant charge at 1½ per cent.	690
Total ...	57,270
Grand Total ...	1,20,050

against Rs. 71,000 now sanctioned.

7. With a grant of 6½ lakhs for Tank Restoration, this would leave Rs. 5,29,950 for Works and Establishment and Tools and Plant charges, and of this amount Rs. 4,25,663 would be available for works.

8. With regard to strengthening the establishment to carry out the works, I consider it necessary that Superintending Engineer should be given more assistance, and would propose that in the five districts in which the work has to be carried out an additional temporary overseer should be allowed. The cost of this would be charged to Provincial as on the expenditure on Tank Restoration, establishment charges are paid to Provincial. Should the above be approved of, I would propose that sanction be given to increase the establishment for investigation as above sketched out from the 1st December this year; this is necessary in order that there should be sufficient estimates prepared by the working season that begins, it may be said, in March. The expenditure of Rs. 4,25,663 on works is a large amount, and Superintending Engineers will not be able to spend this amount unless they are given sufficient sanctioned estimates early in the year. I do not consider it is any good increasing the establishment before the 1st December, the monsoon would not allow good progress in investigations being made. The extra cost of this establishment is about Rs. 8,000, and can be met from savings in the grant for establishment and works for the Tank Restoration Scheme.

CHEPÂK,
20th October 1887.

(Signed) H. R. MEAD, Colonel, R.E.,
Chief Engineer for Irrigation.

To the Chief Engineer, Public Works Department.

Note by the Chief Engineer, Public Works Department.

The proposals made by the Chief Engineer for Irrigation have my approval. I am prepared to recommend that Superintending Engineers' hands should be strengthened to any extent that may be necessary to enable them to expend the grants made for works.

(Signed) J. O. HASTED, Colonel, R.E.,
Chief Engineer, Public Works Department.

ORDER—dated 5th November 1887, No. 2936 W., Public Works.

The arrangements proposed by the Chief Engineer for Irrigation to increase the establishment now employed in investigating the Tank Restoration Scheme are approved, with effect from 1st December 1887.

2. A fifth Party will be started in the North Arcot district, under the charge of a temporary upper subordinate for the present, as suggested by the Chief Engineer for Irrigation.

3. The increase of establishment proposed for the Superintending Engineers to whom the execution of the works is entrusted is sanctioned. The Chief Engineer, Public Works Department, will arrange to appoint the subordinates to the extent required as necessity may arise.

G.O., 5th Nov. 1887, No. 2936 W.

NOVEMBER.

Tank Restoration Scheme

Proposals for increasing the establishment now employed in investigating the —; approved with remarks.

Note by the Chief Engineer for Irrigation

No. 698 W. 2936

In G.O. No. 922 Financial dated 20th August 1887 communicated in G.O. No. 2360 W. dated 2nd September 1887 it is directed that a programme of operations under Tank Restoration in 1888-89 for an outlay of 6½ lacs should be prepared.

To enable this amount to be expended it will be necessary to increase the establishment now employed in the preparation of estimates and I think also to give further establishment to the Superintending Engineers to whom the execution of the works is entrusted.

At present there is the following establishment employed in investigation in the 4 districts namely

No. 1 Party Madura district
No. 2 — Do. — Chinglepet — Do. —
No. 3 — Do. — Kurnool — Do. —
No. 4 — Do. — Coimbatore — Do. —

Each party consists of an Executive Engineer provided from the Permanent Establishment

with 2 Temporary Upper subordinates
4 Surveyors
2 Draughtsmen
4 Clerks
35 Lascars.

The cost of each party exclusive of the pay of the Executive Engineer is estimated at Rs 14,100 per year and of this Rs 6,000 is charged as Petty to Works, the remainder Rs 8100 is charged to Temporary establishment.

In the office of the Chief Engineer for Irrigation, there is an Executive Engineer in charge from the Permanent establishment and
6 Clerks
7 Draughtsmen
7 Messengers &ca

The cost of which with contingencies is Rs 10,700 a year chargeable to Temporary establishment and Rs 4,000 for the cost of lithographing, printing &ca. The total establishment is therefore as follows:-

5 Executive Engineers belonging to the Permanent Establishment

4 Parties chargeable to temporary establishments provided for in the Provincial Irrigation Budget

For

For 4 Parties	Rs 32,400
For establishment attached to office of Chief Engineer for Irrigation	Rs 10,700
Total	Rs 43,100
Petty establishment chargeable to Works	24,000
For lithographing, printing &ca	4,000
	Rs 28,000
Grand total	Rs 71,100

It is considered that an extra Upper subordinate with 2 Surveyors, 1 Clerk and 15 Lascars should be added to each party. The cost of this being:-

1 Upper subordinate	Rs 100
2 Surveyors	160
1 Clerk	25
15 Lascars	90
Travelling allowance and Contingencies	95
Per month per party	470
Per year	5640
For 4 parties	22,560

of this Rs 10,560 will be chargeable to Temporary establishment and Rs 12,000 being the pay of the 2 surveyors and 15 lascars to Petty establishment chargeable to Works. It is considered that the Executive Engineers now, that they have their establishments in fair working order should be able to work an additional sub-party to the 2 they now have. I would also propose that an additional party should be started in a 5th district but as there is no Executive or Assistant Engineer available that it should be placed under charge of a selected Temporary Upper subordinate for the present and that he should carry out in the first place the grouping and eventually be placed under the orders of one of the Executive Engineers in charge of one of the parties.

As this is proposed it is necessary that the district for this 5th Party to work in should be accessible from one of the present Parties. One of the following districts that have been surveyed by the Revenue survey department and the maps published might be selected:-

Nellore
Bellary
Tinnevelly
North Arcot

The first three districts are not accessible from any of the Head quarters of the present parties, as this is the case, I would propose that North Arcot should be selected as the 5th district

to

to be taken up; this is fairly accessible from Saint Thomas' Mount the Head quarters of No. 2 Party. I would propose the following strength and pay, for this No. 5 Party for the present

1 Temporary Upper subordinate in charge Rs	200
2 —— Do. —— Upper subordinates @ Rs 100 each	200
4 Surveyors at Rs 80 each ————	320
1 Draughtsman ————	50
2 Clerks at Rs 25 each ————	50
34 Lascars ————	204
Travelling allowance and Contingencies ————	236
Per Month	1,260
Per year — Rs	15,120

Of this the 4 Surveyors and 30 of the Lascars would be chargeable to Works as Petty establishment, the amount being Rs 6000.

The following is an abstract of the total cost of the above proposed establishment showing the amounts chargeable to Temporary establishments and to Works:-

5 Executive Engineers ~~from~~ Permanent Establishment.

Amount chargeable to temporary establishment to be provided for in the Provincial Irrigation budget

4 Parties each of 3 sub-parties ———— 42,960

For

	Rs 42,960
For establishment attached to the office of Chief Engineer for Irrigation	10,700
For No. 5 Party	9,120
Total	62,780
Petty establishment chargeable to Works	Rs 36,000
Do. for No. 5 Party	6000
For lithographing printing &ca	4,000
Total	46,000
Establishment charge at 23 per cent	10,580 (on Rs 46,00
Tools and Plant charge at $1\frac{1}{2}$ per cent	690 (do.
Total	57,270
Grand Total	1,20,050. or 62780 + 572

against Rs 71,000 now sanctioned

With a grant of $6\frac{1}{2}$ lacs for Tank Restoration this would leave Rs 5,29,950 for Works and Establishment and Tools and Plant Charges and of this amount Rs 4,25,663 would be available for Works.

With regard to strengthening the establishment to carry out the works I consider it necessary that Superintending Engineer should be given more assistance and would propose that in the 5 districts in which the work has to be carried out an additional Temporary Overseer should be allowed. The cost of this would be charged to Provincial as on the expenditure on Tank Restoration, Establishment charges are paid to Provincial.

Should the above be approved of I would propose that sanction be given to increase the establishment for investigation as above sketched out from the 1st December this year; this is necessary in order that there should be sufficient estimates prepared by the working season that begins it may be said in March the expenditure of Rs 4,25,663 on works is a large amount and Superintending Engineers will not be able to spend this amount unless they are given sufficient sanctioned estimates early in the year. I do not consider it is any good increasing the establishment before the 1st December, the monsoon would not allow good progress in investigations being made. The extra cost of this establishment is about Rs 8,000 and can be met from savings in the grant for establishment and Works for the Tank Restoration Scheme.

Military Works.

Read—the following papers :—

From Brigadier-General E. FAUNCE, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 24th August 1887, No. 2988 A.

Referring to this office letter No. 1947 A., of 26th May 1887, and to O.G., No. 4389, of 22nd ultimo, I am desired by the Commander-in-Chief to submit, for the sanction of Government, the accompanying revised plan and estimate, amounting to Rs. 4,900, for constructing workshops, store-rooms and a chuckler's shop for the Pioneer Regiment at Bangalore in substitution of the plan and estimate, amounting to Rs. 4,740, for the above work, without the chuckler's shop, sanctioned in O.G., No. 1315,* of 5th March 1887.

* P.W. No. 534 W., of 24th February 1887.

2. The excess of the revised estimate over the original being only Rs. 160, the Commander-in-Chief trusts the very early sanction of Government will be accorded thereto in view to the grant made for the work in the current year's budget being utilised to its fullest extent.

3. The plan and estimate have been countersigned.

No. 5253, Military.

Approved and transferred to the Public Works Department for disposal with reference to Proceedings of Government, No. 1859 W., dated 11th July 1887.

(By Order.)

Ootacamund, 26th August 1887.
(Signed) A. KENNEY-HERBERT, Brigdr.-Genl.,
Secretary to Government.

From E. COLLEN, Esq., Officiating Secretary to the Government of India, Military Department (Accounts), to the Secretary to the Government of Madras, Public Works Department, dated Simla, 14th October 1887, No. 2134 M.W.

I am directed to acknowledge the receipt of your letter No. 1860 W., dated the 11th July 1887, and subsequent correspondence, requesting sanction to incur expenditure, up to Rs. 4,740, for store-rooms and workshops for the Pioneer Regiment stationed at Bangalore.

2. In reply, I am to state, for the information of the Governor in Council, that the regulations do not authorise the provision, at the expense of the State, of special buildings for workshop accommodation for Bengal Pioneer Regiments, nor are these corps entitled to store accommodation in excess of what is allowed to ordinary Bengal Infantry Regiments. Under these circumstances, the Governor-General in Council

regrets that, after careful consideration of the case, he is unable to accede to the request made by the Madras Government.

3. The enclosures of your letter No. 2216 W., dated 19th August 1887, are returned as requested.

ORDER—dated 5th November 1887, No. 2937 W., Public Works.

The Government of India's letter read above will be communicated to the Superintending Engineer, V Circle, and to the Military Department with reference to the following orders:—

No. 534 W., of 24th February 1887.
,, 1160 W., of 28th April 1887.
,, 1859 W., of 11th July 1887.

2. The Superintending Engineer, V Circle, will, in communication with the Military authorities, submit a revised plan and estimate with reference to paragraph 2.
