11TH NOVEMBER 1887, No. 3042 W., PUBLIC WORKS.

Note by the Chief Engineer, Public Works Department.

The estimate, amounting to Rs. 5,148, for constructing a choultry at Kottapatam, in the Nellore district, is submitted for the sanction of the Government with the following remarks :—

(1) The rate allowed for teakwood wrought and put up, viz., Rs. 4-12-0 per cubic foot, appears unnecessarily high.

(2) The beams and joists should be painted or wood-oiled.

(3) Five per cent. should be sufficient to cover the cost of petty supervision and contingencies, and the estimate should be reduced in accordance with this and the above remarks.

NOTE OF REMARKS.

1. The accompanying estimate provides for constructing Choultry at Pootthapattam in the Nellore District.
2. The amount of estimate is Rs. 5148.
3. For want of detail plan & estimate nothing can be checked, except the rates which seem fair.
4. As the estimate is incomplete subject to approval I suggest that the estimate be returned with a request that a proper plan of the building with required sections of roof with other details & a detail estimate for the same be furnished. Sd.

Without the plan it is
impossible to check this
estimate.

It is stated in the report
that the building is similar
to that sanctioned for Kenig
but as the estimate for the
latter building was apparently
sanctioned in the Financial
Dept. the plan was never
communicated to this Office.
Suggested that a plan &
detailed estimate be called

NOTE OF REMARKS.

1. With reference to Chief Engr.
Memorandum No 441 D of 23rd
July 1886, the accompanying
abstract estimate for con-
structing a Choultry at
Kottapattam together with
plan & estimate for the
Kannigiri Choultry are
forwarded by the Asst.
Secretary Local & Munici-
pal Department.

The amount of the esti-
-mate for constructing
the Choultry at Kottapattam
is Rupees 5148.

2. It is understood from
the President's letter No 1826 of
20th December 1886, that the
plan

plan and estimate for the
Choultries at Loanigiri &
Kesthapatam are identical.

3. The amount of the estimate
for constructing the choultry
at Kesthapatam is Rs. 5148,
or Rs. 518 more than the
estimate of Rs. 4630 for the
Loanigiri Choultry. The
excess of Rs. 518 (over the
amount of the estimate
of Rs. 4630, for Loanigiri
Choultry) is due to the following
alterations.

The foundation and basement
of the present estimate i.e.
for the Kesthapatam choultry
will be of brick in mortar
(at Rs. 16 per 100 cft.) on a bed
of concrete $3\frac{1}{4}$ foot thick and
projecting three inches on
each side, instead of
rubble stone in mortar
(at Rs. 12 per 100 cft.) as allowed
for the Loanigiri Choultry.

The other items concerning
the dimensions of the structure
and the nature of the building
are the same as for the estimate
for

1/20/56 22.7.56 23.7.56

estimate for constructing a
2nd Class Choultry at Loanigiri
except earthwork, excavation
and concrete (the last being
a new item). There is a slight
increase in the rates of few
items in the present estimate
over those in the estimate
of the Loanigiri Choultry.

4. The superstructure including
flat and circular archwork
is to be built of brick in

mortar and plastered inside
with 2 coats of chunam &
painted outside with mortar.

5. Flooring is to be of 6" concrete
& plastered over with $\frac{1}{2}$ " Portland
Cement.

6. Roofing to main building
(except the rooms for servants
& lower classes in the front
of the building which will
have Bengal terrace) is to be
of flat terrace with brick
on edge 3" concrete, 3 courses
of flat tiles, plastering the
ceiling & top with 3 coats of
chunam.

7. All woodwork is to be of teak wrought & put up & the scantlings of timbers are correct. No provision is made in the estimate for painting or wood oiling the timbers.

8. All doors & windows are to be made of teak of beaten pattern and the doors, windows & iron gate are to be painted with 2 coats of anti corrosion green paint.

9. The rates are fair, but there are few items in excess of the rate in the District Schedule as mentioned below:-

Particular	As per Dist. Est.	As per Dist. Schedule
Bungal terrace per 100 sq ft.	15-11-0	10-11-0
Teak wood wrought & put up per 1 sq ft.	4-12-0	4-0-0
Green paint 100 sq ft.	4-6-0	2-8-0

10. Contingencies & Petty supervision are separately charged at 5 percent.

11. The estimate has been counter signed by the President L. J. Board and forwarded by the Local & Municipal Dept. to the Public Works Depart. for disposal.

Sometime for the

note by E. M.

The rate allowed for teak wood wrought & put up, viz 4-12 cub ft appears unreasonably high, and should be reduced -

The beams and posts should be painted or wood oiled -

Five percent should be sufficient to cover the cost of petty supervision and contingencies and the estimate should be reduced in accordance with this and the above remarks.
