ORDER—dated 6th January 1886, No. 33 W., Public Works.

The estimate, amounting to Rs. 1,926, for converting into patients' wards the sweepers' quarters at the lunatic asylum, Calicut, is sanctioned.

2. As recommended by the official visitors, the work will be carried out by the Superintendent of the asylum, and passed, on completion, by the Executive Engineer. If the requisite funds cannot be provided by the Superintending Engineer before the end of the current official year, the work should be included in the statement of demands against the reserve to be submitted early in 1886-87.

3. It is observed that the execution of the work now sanctioned will render unnecessary, for the present, the larger scheme estimated to cost Rs. 10,346, and sanctioned in G.O., dated 18th November 1884, No. 2876 W.

4. The sanction accorded in paragraph 1 has been registered as Provincial, No. 192 W. of 1885-86, and classified as Civil Buildings, Original Works.

NOTE OF REMARKS.

The accompanying is a supplemental estimate amounting to Rs 562 for completing the conversion of the Keepers quarters in the Lunatic Asylum at Calicut into a convalescent ward.

The previous sanction referred to by the Superintendent of the Asylum & the Exy. Engineer will be found in G.Os No 33 W d/6/1/86. No 3038 W d/7/11/86.

and G.O. No 2251 W
d/22/8/87 -

It would be very much more convenient to have the requirements of a building fully considered and provided for in one Estimate but when the opinions of others besides the Supt. have to be acted upon supplementary estimates are unavoidable.

The rates are fair & the estimate has been countersigned by the Superintendent of the Asylum and approved by the Surgeon General and in the Judicial Deptt. -

Sir,

With reference to your letter to the Executive Engineer West Coast Division No. 221 of 8th August 1887, I have the honor to forward for transmission to Government for sanction and provision of funds, a third Supplemental Estimate amounting to Rs 562 for extra work you consider necessary in converting the Sweepers Quarters into Patients wards &c at the Lunatic Asylum Calicut.

2 An estimate of Rs 1960 and a supplemental one of Rs 780 were sanctioned for

for this work in G.O. Nos 33 W and 3038 W dated 6th January and 17th November 1886 respectively. The first supplemental Estimate provided for removing the Centre wall, for extra ventilation & Compound wall. A second supplemental Estimate of Rs 833 was sanctioned in G.O. No 2251 W of 22d August 187 for increased accommodation for Criminal Lunatics by converting the Workshops Nos 1 & 2 and the Recreation shed in the Asylum into 4 wards.

3. The third supplemental estimate now submitted provides for all the works asked for in your letter above quoted and the two jungle wood doors complete have also been included.

4 In forwarding this estimate to Government through the head of your Department, you should explain the necessity for its submission and how it was these extra works were not applied for when the original estimate was prepared. 3040/4

Sir,

With reference to your letter No. 0/593 dated 17th June 1887, I have the honor to submit a detailed statement with abstracts exhibit A & B showing the quantity & cost of work done up to date for converting the Sweepers' quarters into convalescent wa and a supplimental estimate for Rs. 590/ with abstract giving in detail the remaining work still to be done against the estimate for Rs 2740/.

2. You are doubtless aware of the necessity for the same. The original estimate did not include certain works which have since been found to be actually necessary not only by me but by the Official Visitors. They are:—

(a) Sky light to each room.
(b.) Tarring the wall of the ward 6 feet high
(C) Ceiling rooms with cedar planks, although it is a convalescent ward still no reason why the inmates should not endeavour to escape; in

fact

fact the last escape was a convalescent patient.

(d). Deepening the well 8 feet more; for a better supply of water.

(e). Cutting and levelling the ground under the head "Earth work" - of course this should be done but some of the proceeds of this will be credited to Government under "Lunatic labor".

3 Other items requiring no comment. I request you will kindly obtain early sanction.

To,

The Secretary to the Surgeon Genera
with the Government of Madras
Madras

Sir,

With reference to your Memo No 5024 dated 28th September 1887, I have the honor to forward, in accordance with the request of the Superintending Engineer IV Circle, a second supplemental estimate (not third as mentioned in the annexed letter of the Supg: Engineer) for Rs 512 to complete the conversion of the sup quarters into a convalescent ward.

This supplemental estimate has no connection with the estimate for Rs 933 which was very recently sanctioned in G.O. No 2251. W. of 22nd August 1887 for providing permanent accommodation for criminal lunati by converting the existing work shops and recreation shed into 4 pucca rooms as proposed by the Inspector General of Jail

The criminal yard work is quite apart from the convalescent ward for which I submit the following explanation for the favourable considera-tion of the Surgeon General.

The

The original sanctioned estimate was Rs 1960/- The Sanitary Commissioner (now the Surgeon-General) in his inspection of this institution, after the original estimate was prepared, proposed certain alterations by knocking down the centre dead wall &c for procuring sufficient ventilation, and increasing the dimension of the rooms. Thus a first supplemental estimate was forwarded and sanction was obtained for Rs 780/-

Now I have to submit a second supplemental estimate (but not third) for Rs 562 for various works which are absolutely necessary for the comfort and safety of the patients. Some of these works were not included in the original estimate and others are of a purely unforseen nature. In fact these defects and improvements were observed while the works were approaching completion. The included items in the estimate are as follows — (a) Well. (b) Planking (c) Tarring (d) Sky lights, and (e) Earth work.

(a). The well work is the largest amount in the estimate which costs Rs 244. It embraces various minor details such as Laterite dry packing and Laterite in chunam, Excavation Rs 205. Plastering Rs 3 Bailing water Rs 7 a mango wood curb and wood work Rs 14 (the soil being clay) and two jungle wood doors, complete Rs 15 (to prevent lunatics falling into the well). The deepening of the well was allowed in the original estimate for 12 feet, but not a drop of water was found. The work was stopped and I invited the attention of the Official Visitors who directed me to sink 6 feet more

to

to procure water, and further that the well should be planked to prevent accidents. (a copy of their remarks enclosed). This well work I think is an unforseen one.

(b) Planking or ceiling the rooms of the convalescent ward 8 feet high is essentially necessary as this building is roofed with German Mission tiles which leaves a gap of about 1 foot between two rafters. The patients could easly make their escape if they only attempt to do so. The Official Visitors verbally directed me to have it done as early as possible. This work is estimated to be Rs 130

(c) Rupees 27 for Tarring 2 coats - 6 feet high inside the rooms. I think it is necessary in point of sanitation. The patients dirty very often the lower part of the wall.

(d) The sky lights. The object of having sky lights is to remove the present glooming state of the building inside especially in the Monsoon for which work the cost will be Rs 12

(e) Earth work. Levelling and filling earth are absolutely necessary to improve the sight of the building. There are many pits of various dimensions to be filled up and several raised ground in and out of the compound wall to be levelled. Though this item is marked Rs 122, yet I am certain that I will not spend more than half of the sum and the balance will be credited to Government under the head "Lunatic labour."

I trust now the Surgeon-General will kindly get early sanction from Government for the work

which

Sich I enclose herewith a second supplemental estima
