In reply to your letter No. 259 dated 31<sup>st</sup> August 1887, I have the honor to inform that I have been able to make enquiries regarding the Cellular prison at Tinnevely; the Cells have no verandahs or battened doors. The addition of these would no doubt be an improvement, but I do not know that the Government will consider them necessary.

2. Blocks similar to 5A and 5B have shutters to the windows, but no battened doors, these would also be an improvement particularly in so exposed a jail as this is.
