1 Statement.

I have the honor to submit for sanction of Government a list of Europe articles purchased for the Canal in the Lurnood Division

2. The Executive Engineer's remarks in the Statement explain how they came to be purchased without previous sanction.

3. These articles are not mentioned in the Railway Director General's Price List of class G- Stones for 1885 supplied to this Office. Their probable cost if purchased in England is not therefore ascertainable. However, half the Indian value may be assumed to be English price including freight and landing charges.
