READ—the following papers :—

From D. DUNCAN, Esq., M.A., D.Sc., Acting Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 8th February 1887, No. 333.

With reference to official memorandum, No. 53, of the 4th instant, Local and Municipal, I have the honor to enclose copy of a letter * from the Principal, Medical College, on the subject of accommodation in the Medical College for the pupils now trained in the Auxiliary Medical School, Royapuram. To find accommodation for the pupils of the Auxiliary School, Dr. Porter considers that the dissecting room must be enlarged or a temporary shed provided, and that, as the room now used as an anatomical museum will be required as a class-room, a gallery should be erected around the north rooms of the College to hold the anatomical specimens, &c.

2. In G.O., No. 1252 W., of 17th May 1884, a sum of Rs. 75,326 was sanctioned for additions and improvements to the Medical College buildings, but from want of funds no steps have as yet been taken to execute them. It will be observed from the Principal's letter, No. 613, dated 31st January 1887, that the Consulting Architect is still unable to begin the work. In the preliminary issue of the budget estimate of the Public Works Department for 1887-88 (*vide* G.O., No. 3973 W., dated 22nd December 1886), this work appears under Class B, Works, for which funds are not available. As there is no probability of funds being provided for some time to come, a temporary shed may be erected as suggested by the Principal.

3. I am addressing the Surgeon-General with the Government of Madras as to the additional teaching staff required in the Medical College to give instruction to the pupils of the Auxiliary School on their transfer.

* Dated 31st January 1887, No. 613.

Enclosure.

From Brigade-Surgeon A. PORTER, M.D., Principal, Medical College, to the Director of Public Instruction, dated Madras, 31st January 1887, No. 613.

With reference to this office No. 601 of 26th instant, I have the honor to state that I have just now been informed by the Consulting Architect to Government that no funds are available for the extension to the College buildings sanctioned and now so urgently required, and to request that Government be addressed on the subject with the view to the funds being placed at the disposal to lengthen the dissecting room by 30 feet and to raise a gallery around the north rooms of the College to hold the anatomical specimens &c. now occupying the room to be made over as a class room for the junior students; for the latter work Rs. 2,000 have been sanctioned; the former would cost about Rs. 3,000 I should think.

No. 100, Educational.

Transmitted to the Public Works Department for very early orders, with expression of opinion that the erection of a shed should at once be sanctioned if funds are not available for the early commencement of the permanent extension.

Civil Works.

Read—the following letter from Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle to the Chief Engineer, Public Works Department, dated 6th November 1887, No. 3165:—

With reference to G.O., No. 2560 W., dated 27th September 1887, I have the honor to submit a supplemental estimate of Rs. 3,045 for continuing the boring of the artesian well in the Kortalayár valley from 300 to 420 feet.

2. The expenditure on the boring to the depth of 300 feet has been Rs. 5,700 or Rs. 500 in excess of the estimate of Rs. 5,200 sanctioned in G.O., No. 1701 W., dated 24th June 1887. The cause of the excess is explained in the report accompanying the estimate. The total probable cost of boring to the depth of 420 feet is therefore Rs. 8,745.

3. I also forward a statement showing the expenditure already incurred and further allotment of Rs. 3,545 required for the work.

Order—dated 21st November 1887, No. 3147 W., Public Works.

The revised estimate, amounting to Rs. 8,745, for an experimental artesian boring of 420 feet in depth, in the Kortalayár valley, is sanctioned in supersession of the estimate of Rs. 5,200 sanctioned in G.O., No. 1701 W., dated 24th June 1887.

2. If rock be again met with, the boring should be stopped, and the matter reported for the orders of Government.

3. The additional allotment asked for by the Superintending Engineer will be granted later in the year.

4. This sanction has been registered as Provincial No. 127 W. of 1887-88, and classified as Miscellaneous Public Improvements, Original Works.
