Rolled iron girders.	159 10 0	Providing additional buildings with fixtures to the College of Engineering, Chépak.	20,000 G.Os., Nos. 3125 W., dated 24th Nov. 1886, and 3135 W., dated 25th Nov. 1886.	I certify that funds to meet the outlay, which it is estimated will be incurred in England in connection with this indent during the year 1886-87, have been provided for in the estimates of the Public Works Department to the extent of £159-10-0.

MADRAS,
7th February 1887.

(Signed) D. C. GORDON,
Examiner, Public Works Accounts.

REPORT to accompany indent for rolled iron girders for the College of Engineering at Madras.

The estimate for the work for which these stores are required has been sanctioned in G.O., No. 2547 W., dated 29th September 1886, and the amount provided in the estimate will cover the cost of these girders including putting up.

2. The girders should be sent *via* the Canal as they are very urgently required; the buildings in question are commenced and it is necessary that they should be completed as early as practicable.

3. The weights of the sections are taken from illustrations of stock patterns available here, but if the weights of girders at present in stock are 2 or 3 lb. more than that indented for, they can be supplied to avoid delay, but in no case should the weight per foot run be less than what is shown in the indent. The sizes of all the girders should be as indented for and the 9 feet

2 inches girders should be exactly this length as they come between columns; the other girders might be a few inches longer as their ends rest on walls.
