PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following letter from Lieutenant-Colonel J. PENNYCUICK, R.E., Superintending Engineer, VI Circle, to the Chief Engineer for Irrigation, dated Kodaikanal, 8th August 1886, No. 53 C.V.—Through the Examiner, Public Works Accounts:—

I have the honor to submit, for the sanction of Government, two statements of proposition, one for temporary conservancy establishment employed during June and July, and another for permanent establishment from August 1886 for the Cauvery regulators.

2. The proposed establishment is in accordance with the decision arrived at in personal consultation during your recent visit to the Grand anicut. The pay of the superintendent is fixed, for the present, at Rs. 75, but it ought to be understood that it will be raised from time to time as the holder gains experience. It is most important that sufficient inducement should be offered for a really good man to remain permanently in a post of this kind, as his value increases with every day's experience.

3. I would recommend that, as soon as the present temporary division is broken up, the Grand anicut and works connected therewith be formed into a permanent sub-division of the Tanjore division. For the charge of this division, I know no one more suitable than Sub-Engineer T. Subrahmanya Pillai, who has been employed on the new regulators throughout their construction. I have already recommended T. Subrahmanya Pillai to the Chief Engineer, Public Works Department, for appointment as Honorary Assistant Engineer, and now beg to repeat this recommendation.

ENCLOSURES.

READ—the following letter from J. W. MARTIN, Esq., Officiating Superintending Engineer, VI Circle, to the Chief Engineer for Irrigation (through the Examiner, Public Works Accounts), dated Trichinopoly, 10th November 1886, No. 1191 T.J.:—

I have the honor to forward a revised proposition statement for the temporary conservancy establishments maintained in connection with the Cauvery and Vennar regulators. From this statement it will be seen that the establishments were entertained from June to September 1886; but of these, those that were maintained in June and July were sanctioned in G.O., No. 2255 W., dated 8th September 1886. The Executive Engineer of the Tanjore division since reports that this establishment was maintained and paid for even after July up to end of September, and also points

out an omission of Rs. 6 * in the total amount sanctioned for July. I request, therefore, that sanction of Government may be obtained for this establishment from June to September, costing Rs. 537, in supersession of that accorded in the G.O. referred to above.

2. The establishments under reference were dispensed with on 30th September in consequence of a permanent establishment having been entertained under the sanction given in G.O., No. 2255 W., dated 8th September 1886.
