NOTE OF REMARKS.

1. S.E. II. submits the two undernamed estimates as directed in G.O. No. 1578 W. of the 23rd June/84:—

(a) Estimate for constructing a Head Asst. Collector's Cutcherry at Gudur — Rs. 14,622

(b) Estimate for constructing a Deputy Collector's Cutcherry at Atmakur — Rs. 5,574

Gudur and Atmakur are in the Nellore District.

2. The amount of the first estimate (a) is thus divided:— Main building — Rs. 13686, and shed for witnesses — Rs. 936. — Total — Rs. 14,622. Both cutcherry and shed are to be built according to the standard designs sanctioned in

G.O. No. 252 of the 14th Feby/76. The estimate differs but very slightly from the standard – the difference consists in the substitution of brick for stone in the steps, and of concrete for brick in flooring.

Stone would certainly be better, but I presume suitable slabs are not obtainable.

3. The Dy Collector's cutcherry, estimate (b), is to be built according to the standard design sanctioned in G.O. No. 1484 of the 3rd May/77. – The estimate differs from the standard in having brick substituted for stone in the steps, and concrete for brick in the flooring.

4. Neither plans nor estimates have been countersigned by any Revenue authority.

29th Octr/84
B.A.

D.W.

If approved in this off. the plans and estimates will have to be referred to the Rev Dept for approval.

The S.E. in this case has overlooked the order under which the estimates should have been sent through the Collector & Bd of Rev.

Collrs.' Cutcherries at Gudur & Atmakur, Nellore District.

Read also the following Procs. of the Board of Revenue dd 19th January 1885, No. 442 Mis. on the following papers:—

(1) Endorsement of the Secry to Govt. R. D. dd 14th Novr. 1884, No. 5043 Mis. on that of the P. W. D. dd 4th Novr. 1884, No. 1783 C.

(2) Letter from the Collector of Nellore dd 6th Janry. 1885, No. 114:—

With reference to Govt. Endt. Mis. No. 5043 dd 14th Novr. 1884, (received thro. the Board) on letter No. $\frac{617}{16-10-84}$ N. L. from the Supdg. Engr., 2nd Circle, I have the honor to state that I have no remark

to

to offer about the Head Assistant Collr's Cutchery to be constructed at Gudur. But the Head Assistant Collr thinks that the walls between the pillars in the Northern & Western faces of the shed for witnesses should be 4 feet high in order to afford some protection against the land wind and the N. E. monsoon; that no partition wall is needed in the shed; that the shed should not face due South, but slightly to the East South so as to exclude the land wind and that its floor should be 3 inches above the level of the ground.

2. As regards the Deputy Collr's Cutchery at Atmakur, I am unable to give any opinion, as no plan of the building has been received with the Supdg. Engr's letter. The Dy. Collr. suggests that a building for his residence may be constructed near the office quarters charging rent on behalf of Govt. I beg to support the Dy. Collr's suggestion.

3. The Supdg. Engr's letter with its enclosures is herewith returned.

---

(3) G. O., Rev. Dept., d/ 7th Jany 1885, No. 44, communicating to the Board of Revenue, with instructions, P. W. D. Procgs., requesting the return of certain papers relating to the construction of Head Asst. and Dy. Collrs' Cutcheries at Gudur and Atmakur.

13/58

Resolution — d/ 19th Jany/85: No 462, Mis.

The Collr's letter is submitted to Govt. with reference to G. O. d/ 7th Jany 1885, No. 44.

2. The Board suggest that the plan of the Deputy Collr's Office be forwarded to the Collr for his inspection. The slight modification proposed in the plan of the Head Asst's Office will doubtless receive attention in the P. W. Dept.

3. Mr. Grose is requested to report further, with reference to the Dy. Collr's request that a residence be provided for him, whether that officer will be unable to obtain a suitable house for rent at Atmakur. Unless absolutely necessary in some cases, the Board fear that the funds at the disposal of Govt. will not justify their undertaking to erect buildings for the residence of native officers.

Ordered

Order thereon, 6th Feby 1885, No. 619.

The plan and estimate for the Head Assistant Collector's Office are approved, subject to the modifications in the shed for witnesses suggested by that Officer.

The Executive Engineer will be instructed in the P. W. Department to forward the plan for the Deputy Collector's Office to the Collector. Mr. Grose might have obtained it by application to that Officer and thus saved time in its disposal.

Sir,

In returning the plan and other papers connected with the Deputy Collector's Cutchery at Atmakur, I have the honor to state that:-

1st. The Record room should have record racks by the side of the walls.

2dly. The Record room is too small being only 12 Feet x 13 Feet, inches $7\frac{1}{2}$. I think the room should be as spacious as the Record room now allowed for, and the Waiting room both put together.

3dly. A Waiting room and a small room for keeping Treasury box and Lamps and unclaimed property will have to be provide

They

They may be added, viz, the waiting room to the east of porch and the Luggage room next the clerks' room.

4th. The clerks' room is too small in width, being 10 feet. It may be increased to 12 feet.

5th. A well and a Luncheon room and 2 Latrines are also required. The Atmakur village is so far from the Deputy Collector's Cutchery, that the clerks and parties will feel the want of these Considerably.

Read the following Progs of the Board of Revenue, dated 18th April /86, No: 3570 Misc. on letter from the Collector of Nellore of 30th March /86 No: 1196:-

Resolution.

The plan and Estimate are submitted to Govt. for sanction.

2. So far as the alterations to the main building are concerned, the Board are unable to support the Deputy Collector's proposals. The standard plan was adopted after full discussion and the accommodation afforded was deemed sufficient. As to lamps and property, they can be deposited in an almirah — and as regards the Record Racks, they will form part of the furniture.

3. The proposal to add a luncheon room, a well and latrine seems to the Board to be reasonable.

Order

Order thereon, 11th May 1885, No: 2407

The Government agree with the Board in thinking that a luncheon room, a well, and necessary latrine accommodation, should be provided. Subject to these additions the Estimate is approved, and will be transferred with the accompanying papers to the Public Works Department for necessary orders.

Sir

With reference to your Endorsement No 197 N.L. of 27th May 1885 and reminder No. 660 NL of 20th Ultimo, I have the honor to forward herewith Revised Estimates for a Deputy Collector's Cutcherry at Atmakur.

2. Your instructions have been attended to in the additions made. The original Estimates were prepared by Mr Whiteley, when he was in charge of this Division. I have had to revise them, and it was necessary for me to examine the site, this and great pressure of urgent work has prevented me from submitting the Estimates before now.

3 I have estimated for a Latrine as ordered, but as not a single one of the numerous Latrines built in this District has ever been used, I consider that its construction will be a complete waste of money.

I have &c

~~Letter~~ G.O No. 903

Dated the 11th February 1887

From the Secretary to Govt. Revenue Depart.

NOTE OF REMARKS.

1. The accompanying plans and estimate provide for constructing a Deputy Collectors' Office with out houses, at Atmakur in the Nellore District. The estimate amounts to Rs 6,300 – thus divided. – Main building Rs 5100, Luncheon room Rs 550, Latrine Rs 450, and a Well Rs 200.

2. This estimate now resubmitted for a Deputy Collectors' office at Atmakur has been altered and revised in accordance with instructions conveyed in G.O No 2407 of the 11th May 1885. When originally submitted the estimate provided for the main building only of a Deputy Collectors' Office but in its present

15R 161/87

present form additional provision is made for a luncheon room, latrine and well.

3. The main building is to be constructed on the lines of the standard design for Deputy Collectors' offices sanctioned in G. O. No 14 W of the 3rd May 1877. The masonry however is to be of stone in mortar as good bricks are not procurable at Atmakur.

4. The latrine is to be built on the lines of the standard design for jail latrines sanctioned in G. O. No 1014 of the 0th April 1874.

The proposed luncheon oom (for which there is o standard design) is a mall pent roofed shed nsisting of a single room ft. × 10 ft., with a front randah 6 ft. wide. The lls are to be of stone ortar & the roof is to be

24/536

be of flat and pantiles on teakwood couples.

6. The rates are fair.

The estimate, as at present revised and altered, is counter-signed by the Collector; and is approved in the Revenue Department.
