My Lord,

Letter from General Taylor dated 2d June 1886.
do to do — do dated 26 June 1886.

I forward herewith copy of correspondence with the President of the Royal Indian Engineering College, from which it will be seen that Mr. H. A. Moss, who was appointed to Public Works Department in September last, has been allowed to make special arrangements with regard to his passage to India in the ensuing autumn.

The
Under Secretary of State for India

Sir,

I have the honor to submit, in original, an application dated the 21st ultimo from Assistant Engineer, H. A. Moss, who passed out of the College in July 1885, and is now on the usual practical course which ends on the 21st August, and for permission to close the course on the 1st of August, with a view to travelling to Madras with his father, mother and Sister who leave England on the 18th idem.

Mr Calton reports that Mr Moss has been zealous and attentive to his work, and I beg to recommend as a reasonable concession:-

(1) That he be allowed to terminate his course on the 7th of August,* instead of the 21st so that he may be able to travel with his relatives to India

* not the 1st of August as asked for

(2) That he be granted the sum of money, his passage out in the usual way would cost the Government and be allowed to make his own arrangements.

I have &c

Dear Mr Catton,

I wish to know if I shall be able to start for India on the 8th of August. My father, mother and sister sail for India on that date by one of the B. I. S. N. Steamers and I want if possible to go with them. I should like too, to go home on the 1st of August so that I may have time for preparation &c before starting.

Hoping that by these requests I am not asking too much.

I remain,
Yours faithfully,

To

General Sir A. Taylor, K.C.B., R.E.

Sir,

I am directed by the Secretary of State for India to acknowledge the receipt of your letter of 2nd instant, No. 238, submitting an application from Mr. H. A. Moss to be allowed to make special arrangements in connection with his passage to India in the autumn.

In reply I am to inform you that Lord Kimberley approves of your recommendation that Mr. Moss should for this purpose be allowed to terminate his practical course on the 7th August next; and the Accountant General will be instructed to pay him the sum of £50, being the amount which his passage in the ordinary way would have cost the Government.

Mr. Moss should be informed that on arrival in India he should report himself without delay to the Secretary to the Government of Madras in the Public Works Department from whom he will receive instructions for proceeding to his destination.

He will become entitled to the Indian rate of pay of his rank viz Rs 350 per mensem from the 18th August next, being the date on which the vessel in

which

which he, sails is timed to leave England, but in the event of his not reaching India within two months of that vessels departure, his Indian salary will, in accordance with the regulation, only commence from the date of his arrival in India.

Report by the President of the Royal Indian Engineering College on Messrs H. A. Moss, J. S. Wilson and A. C. Pereira.

Mr H. A. Moss. For 11 months on the Cardiff waterworks. Two reservoirs were in progress in a somewhat advanced stage, and a third had recently been commenced. Did well.

Mr J. S. Wilson. For 11 months on the Hindley and Pendleton Railway (a new branch of the Lancashire and Yorkshire Railway) The line is under construction and there is a good deal of instructive work. Did fairly well.

Mr A. C. Pereira. For 10 months on the Hury Reservoir (Stockton and Middlesboro Waterworks) The dam is a magnificient work and a most instructive subject. Made excellent use of his time.

Sir.

I have the honour to tender the following explanation called for in your No 1998

I disembarked at Bombay on the 9th Novem: 1886 and reported my arrival to the Chief Engineer in the afternoon of the same day.

On the following day (10th) I saw the Examiner and was informed by him that I had one months "joining time".

To assure me of this he sent one of his clerks to make a copy of some special order to this effect, but the clerk was unable to lay his hand on the order. The Examiner however assured me that it was correct and in the event of any difficulty to refer the matter to him.

Being satisfied in my mind that I was not breaking any rule I decided to break my journey at Bellary.

Leaving Bombay on the 11th I reached Bellary on the 12th & finally left Bellary on the 30th & arrived at Madras 1st December and immediately reported my arrival to the Chief Engineer there.
