Consulting Architect's Office,
Chepauk, Madras,
1st May 1886.

No. 133

From
The Consulting Architect
to the Government of Madras,

To
The Chief Engineer
Public Works Department.

Sir,

Enclosure.

With reference to E. W's. Memo: No. 1306 C. dated the 31 March 1886, I have the honor to enquire if the value of the pumps ordered therein to be handed over to the Public Works Stores should be debited to that Division. The value of the pumps was originally debited to the New Ophthalmic Hospital at Madras, which work it is thought, should now be credited.

I have the honor to be
Sir
Your Most obedient Servant
J A Stephens
Offg: Executive Engineer
Consulting Architect Division

G.O. $\frac{B}{}$ 2777 W d/ 21-11-85

G.O. $\frac{B}{}$ 2588 W d/ 4-11-85
No. 1510 C d/ 16-9-85
G.O. $\frac{B}{}$ 546 W d/ 28-2-84

Memo

It appears that the pumps themselves were not incomplete; but that certain extras, not usually supplied, were not sent to Rushikulya with them. The Consg. Archt should have sent a detailed statement showing the different articles supplied with the pumps and the E.E. should have insisted on seeing such statement before accepting the pumps. Blame therefore attaches to both officers, and in the circumstances, C.A's Division will bear the cost of the carriage of the pumps to Rushikulya & that Division will pay the return charges.

2. The pumps will now be handed over to the P. W. Stores

S. E. I & V circles 30/3/86
C. A. to Govt 1/4/86
30.3.86

From these papers it appears that there are 6 pumps.

3 were got by the P.W. Stores from Messrs Oakes & Co for the Eye Infirmary & found to be useless

3 were bought by C.A. from Messrs Richardson & Cruddas for the same work.

It appears to me from the correspondence that the P.W. Stores should be debited with the full value of the first 3. but that the Eye Infirmary should be debited with the cost of the others unless the P.W. Stores will take them at a valuation or which they can be transferred to other works.

4/5/86

The accompanying note by S.A.W. gives the history of the pumps. As the mistake was owing to the Supdt not giving a proper description of the pumps to the C.A. & as it is considered that Messrs Oakes & Co should not have been paid till the C.A. had approved of them it seems best that the P.W. Stores should be debited with the cost of the pumps & the Eye Infirmary credited.

5/5/86

Dir.

There is no question about the second lot of pumps which were purchased for the eye infirmary from Richardson & Cruddas vide. G.O. 2588. W. of 4.11.85.

The three pumps now referred to are those mentioned in No: 1694.C. of 24.10.85. They were obtained by P.W. Stores from Oakes & Co. in 1884 for C.A. after retaining them for a year C.A. said they were not what he wanted for the Eye infirmary In 1694.C. 24/10/8 C.A. was told to dispose of them to the best advantage - and it was suggested that perhaps Oakes & Co would take them back at a reduced rate. This, however, they would not do - but the C.A. eventually disposed of the pumps by transfer to Rushikulya Divn. When they arrived there they were found to be unsuitable, and in No: 1306.C. of 31/3/6 it was

Letter from C.A. No
1910 of 25.3.86.

To Dew.
For orders.

The pumps were sent to the Rushikulya Divn in an incomplete state, & it seems right therefore that the C.A. divn should bear the cost of transit.

In memo No 1694 C of 24.10.85, the C.A. was told to dispose of the pumps to the best advantage. He now asks permission to send them into the P.W. Stores.

READ—the following paper :—

Proceedings of the Board of Revenue, dated 26th March 1886, No. 744.

Read—the following letter from the Honorable R. W. BARLOW, Collector of Sea Customs, Madras, to the Secretary to the Board of Revenue, dated 26th February 1886, Reference on No. 945 G :—

I have the honor to state that an estimate for Rs. 8,140 for the construction of a petroleum shed on the beach, south of the harbour, was submitted, for sanction, with this office letter, Reference on No. 4620 G, dated 12th November 1884, as directed in G.O., Mis. No. 250, dated 12th June 1884, communicated with Board's proceedings, Mis. No. 5888, dated 26th June 1884. This, the Superintending Engineer, V Circle, reports, was sanctioned in G.O., No. 9 W., dated 5th January 1885.

2. The Executive Engineer, Presidency division, brought to notice in March last that on his taking the work in hand, the Superintendent, Madras Harbour Works, took exception to combustibles being stored on the spot selected, and, after some correspondence, a new site—the only suitable one available—had to be selected in consultation with the President, Municipal Commission, and the Superintendent, Harbour Works. The Superintending Engineer, V Circle, having been duly informed of this, has now submitted the accompanying revised estimate, with five * enclosures, for Rs. 9,200, for the construction of the shed. This, it is observed, exceeds the original estimate by Rs. 1,060, for which that officer has submitted the necessary explanation (*vide* copy of his letter enclosed).

*1 Abstract.
1 Report.
1 Plan.
1 Statement.
1 Copy of abstract estimate.

3. I request that the Board will be good enough to obtain the necessary sanction for this sum at an early date, as the shed is very much needed.

ENCLOSURE No. 1.

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, V Circle, to the Collector of Sea Customs, Madras, dated Chepâk, 22nd February 1886, No. 4808.

I have the honor to forward to you, for disposal under G.O., No. 483 W., dated 21st February 1884, a revised estimate of Rs. 9,200 for constructing a shed on the beach, south of the harbour, for securing explosives and combustibles.

1 Estimate
1 Abstract.
1 Report.
1 Plan.
1 Statement.
1 Copy of the abstract estimate.

2. The original estimate of Rs. 8,140 was sanctioned in G.O., No. 9 W., dated 5th January 1885, and the excess outlay of Rs. 1,060 is caused by the change of site as the spot first selected interfered with the harbour works. The present site is lower than that originally chosen, and when the concrete was laid for the foundations, the place was flooded by the rains, so that it was necessary to build with surkhi instead of ordinary brick in mortar. A further item of expense is the construction of the road of approach on the west side, that on the south having to be abandoned on account of the postal overseer's quarters being built there. The details of excess are given in the accompanying comparative statement.

Enclosure No. 6.—Copy of abstract estimate, &c.

Resolution—dated 26th March 1886, No. 744.

The revised plan and estimate for building a shed on the Madras beach, south of the harbour, for storage of petroleum are submitted for the early sanction of Government.

2. The original estimate for Rs. 8,140 was sanctioned in G.O., dated 5th January 1885, No. 9 W. The necessity for the increase of Rs. 1,060 now asked for is fully explained in the Superintending Engineer's communication forming an enclosure to the above letter.

Approved, and transferred to the Public Works Department.

(By Order.)

Ootacamund,
22nd April 1886.

(Signed) E. S. LAFFAN,
Under Secretary.

Order—dated 7th May 1886, No. 1146 W., Public Works.

The revised estimate, amounting to Rs. 9,200, for constructing a shed for the storage of petroleum and other combustibles on the beach to the south of the Madras Harbour, is sanctioned in supersession of the estimate of Rs. 8,140 sanctioned in G.O., No. 9 W., dated 5th January 1885.

2. The excess is due to the change of site, which, in the circumstances, could not be avoided.

3. As the cost of the work is to be divided equally between Provincial and Port Funds, in accordance with G.O., No. 948 W., dated 7th April 1886, the Examiner of Public Works Accounts will arrange with the Accountant-General for the necessary adjustment, and will report the exact sum which should be appropriated from each fund to cover the outlay in the current official year.

4. This sanction has been registered as Provincial, No. 16 W. of 1886-87, and classified as Civil Buildings, Original Works.

SIR,

Enclosures. 1

In returning your Endorsement No 1510 C dated 16th Ultimo, I have the honor to report that there were no pumps in store such as those indented for by the Consulting Architect. The General Superintendent P.W. Stores purchased from Messrs Oakes & Co pumps as nearly like, or like what he thought were wanted & delivered them to the Assistant Engineer of the Consulting Architect in November 1884. The General Superintendent thinks that, had the

the pumps been then returned to the Workshops or reported as unfit. Messrs Oakes & Co would have readily & obligingly received back the pumps, but that, after such a long delay, he feels somewhat diffident in asking Messrs Oakes & Co to take back the pumps now. I would suggest therefore that under the circumstances the Consulting Architect be requested to dispose of the pumps.

back articles 10 months after delivery.

I contend on the other hand that the pumps are not of the description indented for at all, that no rotatory pump can be described as having "a single barrel", and that, until the pumps were actually taken out for use. There was no description in the bill passed by the Consulting Architect to show that the article delivered was not the article indented for. As the Superintendent has been paid for the pumps, and I have the useless articles on my hands, I solicit the orders of Government as to how the matter is to be settled.

for filling Tanks.

On the 18th November 3 pumps were delivered and described in the bill as

"3 Force pumps supplied to the
"Ophthalmic Hospital." –

When the pumps were taken out of store to be placed in the Buildings, it was discovered that they are rotatory pumps in all respects similar to those which have failed both at the Lying-in-Hospital and the new Telegraph Office.

I wrote to the Superintendent of the stores soliciting him to take them back, but he declines to do so. He contends first that the words "Force pumps single barrel" left it to the discretion of Capt. Baddeley to choose "suction pumps or rotatory pumps" & secondly that the workshops cannot receive

Proceedings of the Government of India, Department of Finance and Commerce, dated Calcutta, 24th January 1884, No. 439.

Accounts and Finance—Stores.

Read again—

Financial resolution, No. 185, dated 10th January 1883, prescribing rules for the supply of articles of European manufacture required for the public service in India.

Read—

Letter from the Government of Bombay, No. 4512, dated 24th November 1882.
Letter to the Government of Bombay, No. 3185, dated 14th December 1882.
Letter from the Government of Bombay, No. 4008, dated 7th November 1883.

Resolution—

By Financial resolution, No. 185, dated 10th January 1883, it was directed that articles of European manufacture shall invariably be obtained by indenting on the Secretary of State.

2. In letter, No. 3185, dated 14th December 1882, to the Government of Bombay, it was stated that resolution, No. 185, dated 10th January 1883, does not apply to purchases made from fixed contingent allowances.

3. The Governor-General in Council now directs that the resolution of 10th January 1883 shall not apply to petty purchases in the local market not exceeding Rs. 10 in value out of contingent allowance, if the officers making such purchases are granted such allowance. The previous sanction of Government should be obtained in cases in which the cost of the article required exceeds Rs. 10.

Order—

Ordered that the foregoing resolution be communicated as follows :—
