

11TH DECEMBER 1886, No. 2585, PUBLIC.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From A. REA, Esq., First Assistant, Archaeological Survey Department, to the Chief Secretary to Government, dated Madras, 26th November 1886, No. 231.

I have the honor to forward copy of my No. 230, of this date, to the Superintendent of the Government Central Museum. *In re* the ancient pottery therein referred to, as also in my No. 171, of 17th September 1886, to the Chief Secretary to Government, published in G.O., dated 17th October 1886, No. 2102, Public, and subsequent letters on the subject, I would remark I have reason to believe that some chatties similar to those I have sent to the museum, and a tomb like that shown in figure 2 in the G.O. referred to, are preserved in the Engineer's office at the Pallavaram quarries.

2. Considering the curious and ancient nature of these earthen tombs and other pottery, which may almost certainly be classed as of Pallava origin, and probably referred to the 7th century, and also the fact that all the tombs left exposed have been destroyed by the rains, would it not be well if the persons in whose charge these other relics are, could be induced to deposit them in the Madras Museum?

3. A reference from Government would, I have no doubt, show them the advisability of having these antiquities kept in a place where they could be safely preserved and seen by persons who interest themselves in such matters.

ENCLOSURE.

From A. REA, Esq., First Assistant, Archaeological Survey Department, to the Superintendent, Government Central Museum, dated Madras, 26th November 1886, No. 230.

I have the honor to forward, for deposit in the Museum, five small earthenware chatties and three pieces of the ancient coffins recently discovered at Pallavaram.

2. Numbers 1 to 3 were found in one of these coffins on 17th September last, and are shown in the sketches published in G.O., dated 7th October 1886, No. 2102, Public. The small chatties, Nos. 4 and 5, were found by Dr. Burgess and myself on the 22nd instant in the earth remaining from a small coffin which had been destroyed by the recent rains.

ORDER—dated 11th December 1886, No. 2585, Public.

Communicated to the Public Works Department, for the issue of the necessary orders.
