Godavari Eastern Delta Division

Dowlaishweram,

J. F. Fraser

Superintending Engineer 1st. Circle.

Enclosure No 1 of letter
No 406 GL dated
the 5th January 1887
to the Chief Engineer
Public Works Dept

incl 1
1 Statement

No. 406 GL.

FROM

THE SUPERINTENDING ENGINEER

FIRST CIRCLE.

TO

THE CHIEF ENGINEER

P.W.S. Dept

FOR IRRIGATION.

DOWLAISHWERAM, 5th January 1887

Despd 12/1/87

SIR,

1 With reference to your No. 4332C dated 6th December 86, I have the honor to say that I have given the matter of proposed reduction of strength of establishments my most careful consideration in detail and if the areas and the works to which this Department have to attend remain as now I do not see my way to proposing reductions of much importance

2. Taking the establishments in the order given in your Memorandum under reply the following are general remarks about them, whilst details of proposals will be seen in the statement Form No. M. 184 herewith but in that form I have not, as I supposed

that under the circumstances you would not wish it, shown the increases in establishments which I have elsewhere recommended and referred to in the following general remarks.

(1) Irrigation Conservancy Establishment under (a) "Navigation" no reduction can be made, all the locks must have establishments to attend to them, there is not a man too many for the purpose though possibly some improvement in the distribution of the establishment may be made by sending men from locks with little traffic to locks which have great deal, especially those with much night work. It must also be remembered that under this head as the new Locks which are being and are to be built in the Central Delta are completed the establishment will have to be increased under (b) Water Regulation. The only reduction I can propose is the absorbtion of one of the permanent 1st grade Delta Superintendents appointments in the Western Division when the present holder retires or dies, and of the temporary Delta Superintendent 3rd grade appointment sanctioned originally in Chief Engineers memo 296 dated 13th March 1884.

(2) Office Establishments. The only reductions which can be proposed are those due to the amalgamation of Subdivisions in the Godavari Eastern Division (see next clause). Not a single Office is able to satisfactorily cope with its duties, chiefly owing to the fact that much of what is supposed to be the writers (Clerks) power is absorbed in attending to accounts. I have in the cases of the Eastern Division had to recommend an increase (see No 2205 4th dated 10th December 86) of 3 Clerks 4th Class 3rd grade and I was about to make application for 2 such writers extra in the Central Division (see answer to query 42 Report of examination of Central Division Office dtd 20th December 86) In the Kushtkulya Division I have also (see my 779 dated 12th December 86) applied for extra clerks

for the Division office and the 2 sanctioned sub Divisions and it must be remembered also that if the extra Sub Division ("Surada") strongly recommended (see next para) be sanctioned the office establishment necessary for it would swallow up part of the saving shown as resulting from the amalgamation of sub Divisions in the Godavari Eastern Division.

(3) Sub Divisions.

It is only in the Godavari Eastern Division that I can propose a reduction of the sub Divisions. there I propose a reduction from 6[x] to 4 viz (1) Whole Section of the Delta, except first 5 miles from head (to be called the "Delta Sub Division") (2) Anicut, Head works and Quarries (to be called the "Head works Sub Division") (3) All the up-land portions of the Division (to be called the "Rajahmundry Sub Division") (4) The Rumma qudiem Sub Division as now. In the Kushikulya Division I have already (see my No 423 dated 23d August 86 and y/9 dated 12th December 86) proposed an additional sub Division (to be called the "Surada sub Division") and in the Ganjam Division, I have (see my No y/34 dated 30th November 86) recommended that as sanctioned in G.O. No 2948 W dated 9th December 85 an extra (Kinedi) sub Division should be recognized, for this latter the temporary establishment has already been sanctioned see G.O. No 2383 W dated 20th Septr 86 and finds a place in the statement form No 184. Both these sub Divisions I believe to be necessary, but as stated in para 1, I have not shown in the statement form No. 184 the increases which the formation of these sub Divisions would necessitate.

[x] exclusive of workshops.

Reduction of Establishment in the 1st Circle — Proposition Statement of — Submitted —

Copied
15.1.87

Superintending Engineer's Office,
2nd Circle, Belgaum,
16th January 1887.

From

G. D. Molyneux Esquire,
Superintendent of Roads,
in charge 2nd Circle,

To

The Chief Engineer,
Public Works Department,
Bombay.

Sir,

With reference to your memo No. 3320 C. of the 6th December last, requesting to report what reductions of Divisional establishments can be effected, I have the honor to inform you that as all the temporary establishment is to be dispensed with shortly, as ordered in your memo No. 910 C. of the 12th instant, I cannot suggest any reductions in the permanent establishments of the several Divisions in the Circle. As ordered in para 3 of your memo I shall shew proposed arrangements will be made to redistribute the permanent establishment among the several Divisions, so as to provide, as far as possible, for the carrying out of works in the Circle.

2 Writs.

2. With the reduction of the temporary establishment, Grahamstown Division will have to be abolished, and the other Divisions very much crippled.

I have the honor to be

Sir

Your Most obedient Servant

P.C. Hemming

Superintendent of Works,
in charge, 2nd Circle

SUPERINTENDING ENGINEER,
IIIrd CIRCLE.

To,

THE Chief Engineer
P.W. Department
Madras

Sir,

Enclosures.

With reference to your memorandum No. 6332 C dy 6th December 1886, I have the honor to report that after careful consideration, I am not in a position to suggest any savings under any of the Establishment heads therein alluded to.

2. The Sub Divisions in this Circle are about the largest in the Presidency and do not admit of reduction by distribution of works in them among other Sub Divisions

3. The Kurnool Division has a special Office Establishment which is at times found inadequate to cope with the heavy work of that Office. The number of Clerks in the Bellary and Cuddapah Division Offices seem to me to be the minimum at which the Office should be maintained. The Sub Divisional Officers and Overseers are allowed only one Clerk each

and they cannot do with less.

4. Only the Kurnool Canal has Irrigation Navigation and water Regulation Establishment, and considering the extent of the Canal and its unsafe Condition in rainy Seasons, reduction of the present Establishment is hardly feasible.

5. In Conclusion I would beg to refer you to my former report No. 187 dy. 1st May 1886, on the same subject, wherein I have briefly stated the views of the Executive Engineers and expressed my own opinion that no reduction could possibly be effected without seriously impairing the efficient working of the Department.

Enclosure 1 to the
Superintending Engi-
-neer's letter No. 471
E.W.
of 14th December 86.

Statement of pro-
-position for revision
of establishment
in the IV Circle P.W.
Department.

No. 471
E.W.

Supg. Engineer's office IV Circle
Coimbatore, 14th December 1886.

From,

The Superintending Engineer
IV Circle

To,

The Chief Engineer
Public Works Departt.

Sir,

As directed in your memorandum
No. 4332 C of 6th instant I have
the honor to report on possible savings
in the present establishment of the Circle.

Enclos: 1
1 statement

2 The question of reductions was con-
-sidered so recently as May last, in reply-
-ing to G.O. No. 988 of 15th April 1886,
vide my letters Nos. B and 134 C of 30th
April and 6th May respectively.

3. On carefully considering the state
of the establishment now I have three
proposals to make:-

I. A reduction of one Supervisor a
Murugesa Mudeliar and his establish-
-ment of one writer and lascar, may
be made in the Coimbatore Division

The

the writer and Lascar may be dispensed with at once, but Murugesa, who is under suspension owing to certain charges brought against him, should remain in the Circle until the enquiries are completed. These reductions would effect a saving of about Rs. 181, monthly.

II If there is no prospect of any large expenditure on new buildings, or Harbour works, in South Canara, the work there, consisting principally of repairs, is not of sufficient importance for the employment of a subordinate of the rank of Sub Engineer 1st grade; and Mr. R. P. Lennon might be moved, if he can be replaced by an efficient Supervisor or 1st grade Overseer; but I cannot spare a man from any other part of the Circle to replace him.

III Again, as already stated when the Barur Project works are more advanced, about six or eight months hence, ~~once~~ of the Assistant Engineer now at Barur may be transferred elsewhere, and a Supervisor employed in his stead. But the subdivisions of the Circle are at present so extensive or important that it is not expedient to reduce the number of them.

low

This paper might perhaps stand over until we receive replies from Supdg Surveyors to the recent circular relative to reduction of sub-divisions &c -

It seems possible to reduce one sub-division in the C.A. division by giving Mr Stephens the new buildings now worked after by Supdg Smith, & keeping the latter to his proper work at the Cemeteries.

The foregoing papers are replies to Memo. No. 4332.C dated 6th December 1886, calling for reports as to feasible reductions in the permanent Establishment of the P.W. Department under the heads Petty, office and

Sub-divisional esta =

= blishments.

2. The only officer who considers any reduc= = tion practicable is the Suptg: Engr: I Circle, who reports that one first and one third grade delta Superintendent may be absorbed on the retirement or death of incumbents. the present ^ The case of these appointments will accordingly be reported for orders when they become vacant. The proposals of the Suptg: Engr: I. Circle with respect to Sub-divisions will probably be liable to modification in consequence of the closure of the temporary divisions in that Circle, and the subject will therefore be further considered on receipt of the lists of Sub-divisions called for in Memo: No. 847 C of 8th March 1887.

3. The letter from the above recorded Suptg: Engr. IV Circle does not deal with the specific points mentioned in Memo: No. 4332. C of 6th December 86.
