The following rules in connection with the employment of unpaid convict labor in the construction and repair of jails are issued for guidance in supersession of those laid down in G.O., No. 2502 W., dated 9th October 1884 :—

I. Estimates for the construction and repair of jail works on which it is intended to use prison labor free of charge will be framed as provided in paragraph 1092 of the Public Works Code, *i.e.*, they will provide for the full market value of the work to be done, a note of the reduction to be effected by the use of prison labor being made at foot of the abstract of the estimate.

II. On receipt of the sanctioned abstract of estimate, prepared as above, for a work which is to cost over Rs. 2,500, the Examiner will obtain from the Executive Engineer a detailed statement (*vide* paragraph 1550 of the Public Works Code) of the proposed application of the convict labor and of its value, and will draw up a form of work voucher for the use of the Executive Engineer as follows : —

Estimated.					Executed.	
Sub-heads.	Quantity.	Cost.	Less cost of convict labor.	Balance to be incurred by Public Works Department.	Quantity.	Cost.

III. The accounts will exhibit the actual quantity of work done, for comparison with the estimated quantity; and the cost incurred by the department compared with the reduced estimated cost arrived at after deducting the estimated value of convict labor. No initial accounts of convict labor need be maintained.

I have the honor to forward plans and estimates, amounting to Rs. 16,890, for constructing quarters for five European warders attached to Her Majesty's Penitentiary at Madras, for the sanction of Government.

2. The necessity for these quarters has been one of long standing and is one of the works named by me in my letter to Government, dated 25th March 1885, No. 77, as especially desirable to be carried out. The warders have been drawing house-rent at Rs. 12 per mensem each ever since October 1874.

Vide G.O., dated 9th October 1874, No. 1880.

Note

With the accompanying office Note, the Examiner of P.W. Accts. submits a statement of the total contributions aggregating Rs 2446.671 to meet outlay under Provincial Establishment during 1886-87. The total contribution under Imperial Military is Rs 117864, not Rs 115396 as shewn by the Examiner, the increase being due to additional allotments to works recently sanctioned but not taken to account by the Examiner. The contribution from Estate works amounts to Rs 535-57 only, not Rs 625-08 as shewn by the Examiner. The latter sum has evidently been arrived at by calculating the percentage on the estimated outlay of the year on estate works while the percentage should have been calculated on the revised grant sanctioned for the year. The contribution of-

of Rs 2,250 on account of scrutiny by the P.W. Dept of the Local Fund Project estimates is already included in the sum of Rs 42639 entered in the Examiner's statement against "Local Incorporated". The separate entry of the amount is a repitition and therefore incorrect.

The total grant will for reasons explained above, amount to Rs 2418928, not Rs 2446671 as shewn by the Examiner. Against this grant the Examiner makes out a total expenditure for the year of Rs 2300000 in round sum. The net saving will therefore be Rs 2418978 - 2300000 or Rs 118978.

The saving now reported is in addition to the saving of Rs 50000 already reported in the Examiners office note No 571 of 13th November 1886.

The contributions to Establishment in the Budget Grants for works amounted to Rs 2459156 including the debit to Provincial. The contributions on the revised Grant for works are only less, as they amount to Rs 2418928. It is not therefore clear

clear why such a large saving should have been caused.

The saving under Establishment seems to recur every year and it is reported so late every year that it is with great inconvenience utilised otherwise. It is desirable therefore that the Examiner should be asked to revise his Budget Estimate under Establishment for 1887-88, so that the Budget Estimate for the year may provide for the actual requirements. Of the saving now reported viz:- Rs 100000, a sum of Rs 53913 as per details in the accompanying list can be appropriated and the balance Rs 46087 may be reserved for urgent demands in the remaining portion of the year and for covering the debit under "Suspense" shewing the transactions of the year under that head end in a net debit balance.
