State.

As a redistribution of the permanent executive establishment is very necessary, a proposed statement is submitted for approval.

Additions have been made to the I, II and VI Circles in consequence of the temporary divisions in them having been made into sub divisions. The sanctioned strength of the V Circle has been reduced by two as it was the best able to afford it.

The number of supernumeraries allowed amounts in all to 17, but there are really at present 21 officers and subordinates away on long leave.

If the proposed redistribution is sanctioned then

then the

I Circle will need 2 upper sub.

II - - - will need 2 Engineers &
3 upper subordinates

III - - - will need 2 Engrs & 2 upper sub.

IV - - - - do - 1 upper sub.

and the V Circle will need
have 6 upper subordinates
in excess.

To bring the existing
strength of the Circles up to
sanctioned strength, it
will be necessary to post
the 6 upper subordinates
in excess in the V Circle
to the I, II and III Circles -
(2 each) and to post
Engineers to them as officers
retiring from furlough -
