Military Works.

READ—the following papers :—

From Brigadier-General E. FAUNCE, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 16th March 1887, No. 1241 A :—

I have the honor, by order, to forward, for sanction and transfer to the Public Works Department for disposal, the estimate below mentioned, which has been approved by the Commander-in-Chief. The estimate has been countersigned :—

Estimate, amounting to Rs. 530, for providing stands for 250 boxes of ammunition for the head-quarters and wing, 2nd battalion, Royal Fusiliers, at Wellington.

2. This work is absolutely necessary to provide temporary storage for the ammunition of the head-quarters and wing, 2nd battalion, Royal Fusiliers, the present magazine of the depôt being insufficient to hold its own in addition to the above. The Commander-in-Chief hopes Government will be pleased to sanction an immediate allotment of funds in view to this most urgent requirement being carried out without delay.

No. 1640, Military.

Approved, and transferred to the Public Works Department for disposal.

Proceedings of the Madras Government

Read the following :—

Letter from the Superintending Engineer IV Circle No 98 E.W.
dated 22nd March 1886.

I understand that the plans and estimates of the pro-
posed new Collector's Cutcherry to be erected at Calicut
were sent to the Board of Revenue on the 12th ultimo, and I
have the honor to request that, as I have not yet seen them,
and have reason to believe they require some modification,
they may be returned to this Office for a short time before
orders are passed upon them.

Order thereon No 842 W dated 29th March 1886.

The plans and estimates for a new office for the
Collector at Calicut will be forwarded to the Superintending
Engineer, on receipt from the Revenue Department.

2. The attention of all Executive Engineers should be
drawn to paras 1168 and 1168 A & B of the P.W. Code, under
which the plans and estimates for buildings required by other
departments should invariably be forwarded to the departmental
Officers through the Superintending Engineer of the Circle.
Cases are constantly occurring in which projects are forwarded
direct by Executive Engineers to the district Civil or Mili-
tary authorities, and they thus reach the Government without
the approval of the Superintending Engineer. The documents
have then to be referred to the Superintending Engineer for
scrutiny

scrutiny, and much unnecessary delay is caused by inattention to a simple rule.

herewith

With reference to your endorsement, Nº 116 C of 23rd March 1887, I have the honor to return counter-signed herewith, the estimate of Rs: 508 for stands for ammunition boxes, at Wellington, having reduced the provision for petty supervision and Contingencies.

2. The Estimate in question was improperly furnished direct to the Military authorities by the supervisor, at Wellington, instead of through the Executive Engineer.

3. Sergeant

3. Serjeant Webb. has been warned that he should not do so again.

4. With reference to para 2 of your Endorsement, I beg to explain that in neither of the 2 cases noticed was the Executive Engineer in fault. In the case of the Collector's Cutcherry Calicut, Colonel Ross Thompson merely forwarded the papers to the Collector for approval and that Officer improperly submitted them direct to the Board of Revenue. In the present case a subordinate had improperly sent an estimate direct to the Military Authorities, instead of through the Division Office.
