

PROCEEDINGS OF THE BOARD OF REVENUE.

READ—the following letter from W. LOGAN, Esq., Collector of Malabar, to the Secretary to the Board of Revenue, dated Calicut, 8th January 1887, No. 65:—

I have the honor to enclose copy of a letter from the Chairman, Calicut Town Council, dated 7th instant, and to report that this morning I, in company with the Chairman and the District Board District Engineer, inspected the proposed approach to the new railway station and arranged as to how it should be aligned.

2. The proposal to carry the road through the compound of my old office emanated from me in the first instance, as that is manifestly the straightest and best line for the approach to the new station building from the north. The Town Council intend to widen the existing roads in addition to making a new piece of road through the old office compound.

3. The Board are aware that it is proposed to build my new office (Board's Proceedings, No. 644, dated 18th March 1886,) on a site at some distance facing the maidan or Calicut green. The old office compound and buildings I propose to transfer to the Calicut tahsildar and Town sub-magistrate, respectively, and to utilize the existing buildings (record-room, &c.) as offices for them. The plans and estimates for my new office are in the hands of the Executive Engineer for revision, and I hope to submit them shortly.

4. The proposal to take up a portion of the old office compound will in no way interfere with the above arrangements, and it will not even be necessary, as I showed Mr. Gantz this morning on the ground, to touch, as he proposes in his letter, the eastern verandah of the record-room, which I propose to assign eventually as an office to the tahsildar. The road-way will pass in front of it at a convenient distance and will separate it from the office to be assigned to the Town sub-magistrate. Existing buildings will therefore remain as they are.

5. As, however, this proposal will cut the old office compound into two portions, I submit the matter for the Board's orders before replying to the Chairman's letter.

ENCLOSURE No. 1.

From W. S. GANTZ, Esq., Chairman, Municipal Council, to the Collector of Malabar, dated Calicut, 7th January 1887, No. 1052.

I have the honor to inform you that, in accordance with a resolution of the Council passed some time ago, providing for the widening and extension of the "Robinson road," I have had the site of the proposed improvements pegged out by road overseer Jones, and have myself gone over the ground with him yesterday evening. It seems to me that he has put down the pegs just where they should be, having reference to local circumstances and conditions. The road would at its northern end begin at a spot almost midway between the Registrar's office and the old Huzur gate-way; thence it would pass on through the old Huzur compound and just touch the eastern verandah of the block of buildings in the south-west corner of the old Huzur (where I believe the press used to be located), thence it will pass on to the Government college within about a couple of yards of the eastern end of the college portico, thence past the open ground in front of the old munsif court (necessitating the removal of three casuarina trees skirting that land), and then pass through land on the western side of the present (Robinson) road-way, and which land is for the most part very poor-looking paramba ground. It is only when within about a 100 yards of the southern end of the road that one has to encounter some very dilapidated buildings that would have to be demolished.

2. As the road in question will, when the railway is opened, become a very important one, I should be glad to have the benefit of your suggestions in regard to it, and would meet you at the spot if you will fix a date and hour.

3. I have also the honor to request that you will be so good as to take the necessary steps to put the municipality in possession of the requisite land without delay, as I should wish for several reasons to have the road begun at once.

Reference on the above, dated 21st January 1887.

The Collector is requested to submit a sketch-map showing the proposed road. He should state whether the road will divide the buildings to be allotted in the new arrangement to one office.

(Signed) M. HAMMICK,
Acting Secretary.

READ—the following letter from W. LOGAN, Esq., Collector of Malabar, to the Secretary to the Board of Revenue, dated Calicut, 5th February 1887, No. 530 :—

Adverting to the Board's Reference on General Register No. 107 of 1887, dated 21st ultimo, I have the honor to submit herewith a sketch-map showing the alignment of the proposed approach to the new railway station, and to state that the road will not divide the buildings to be allotted in the new arrangement to each of the officers.

ENCLOSURE No. 1.—Sketch-map.

RESOLUTION—dated 14th February 1887, No. 304.

Submitted to Government for orders.

2. The Board approve of the Collector's proposals.
