Compensation for inferior quarters

The decision of the Government of India on the question whether — to officers and others entitled thereto should depend on the actual cost of the quarters, or on the area of accommodation provided compared with the scale laid down by the Public Works Code Rules, communicated to Superintending Engineers and the Examiner, Public Works Accounts.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following letter from Lieutenant-Colonel E. COLLEN, Officiating Secretary to the Government of India, Military Department, to the Secretary to the Government of Madras, Public Works Department, dated Fort William, 22nd November 1886, No. 1710 M.W. (Quarters):—

I am directed to acknowledge the receipt of your letter, No. 2131 M.W., dated the 23rd August 1886, to the address of the Secretary to the Government of India, in the Public Works Department, submitting for decision the question, whether compensation for inferior quarters to officers and others entitled thereto should depend on the actual cost of the quarters, or on the area of accommodation provided compared with the scale laid down by Public Works Department Code Rules.

2. In reply, and with reference to the case in point, that of the Apothecary attached to the Reserve Remount Depôt, Hosúr, I am directed to say, for the information of the Governor in Council, that, under existing regulations, the grant of compensation to a medical warrant officer for inferior quarters, is regulated by considering the proportion which the floor area of the rooms he occupies bears to that to which he is entitled. In the present case, as the actual area of the house is not less than that authorised, no claim for compensation is admissible, unless there are some very decided drawbacks, such as the rooms being very badly or inconveniently arranged, whereby the accommodation would not really be equal to what it measures in superficial area. If this be the case, the compensation might be fixed by a committee, but this plea should be admitted very rarely with great caution.

3. I am to add that no compensation is claimable on account of a deficiency of out-offices.

ORDER—dated 30th November 1886, No. 3158 W., Public Works.

Communicated to the Superintending Engineer, IV Circle, and the Examiner, Public Works Accounts, with advertence to G.O., No. 2130 W., dated 23rd August 1886; also to other Superintending Engineers, for information and guidance.

2. The case of the Apothecary attached to the Reserve Remount Depôt, Hosúr, will be disposed of in accordance with this decision.
