ORDER—dated 23rd June 1886, No. 1594 W., Public Works.

With the papers read above, the Superintending Engineers and the Consulting Architect submit statements exhibiting demands under Provincial Minor and Incomplete Works, Repairs and Tools and Plant.

2. The demands under Repairs and Tools and Plant, and the allotments sanctioned against them, are shown in statement A. The demands under Communications and Miscellaneous Public Improvements being in excess of the budget provision under those heads, a sum of Rs. 25,080 has been transferred from the budget provision under Civil Buildings, viz., Rs. 13,080, to the grant under Communications, and Rs. 12,000 to that under Miscellaneous Public Improvements. The provision under these heads will now stand as below :—

Civil Buildings	...	...	...	...	...	...	...	RS.
Communications	...	...	...	...	...	...	...	1,49,700
Miscellaneous Public Improvements	...	...	...	...	...	...	...	76,500
								23,500
Total	...	...	...	...	...	...	...	2,49,700

and the demands under Tools and Plant have been so reduced as to bring the total sum within the budget provision, Rs. 50,670.

3. The budget provision under Repairs amounts to Rs. 2,91,055 and the difference between that sum and the allotment now made is Rs. 41,355, which has been resumed and added to the Provincial reserve.

* G.O. No. 1234-A W., dated 14th May 1886	RS.	17,000
" " 1429 W., " 7th June "	"	7,200
" " 1565 W., " 21st " "	"	3,080
" " 1531 W., " 17th " "	"	370
Total	RS.	27,659

4. The provision in the budget under reserve was Rs. 1,77,174, but subsequent appropriations* have reduced the sum to Rs. 1,49,515. The total sum now available for distribution for incomplete and minor original works will amount to Rs. 1,91,306, as detailed below:—

Reserve balance	RS.	1,49,515
Transferred from repairs	"	41,355
Surrender from budget grant (<i>vide</i> remark against item No. 111)	"	436
Total	RS.	1,91,306

5. Under Original Works the demands amount to—

Incomplete minor	RS.	5,317
Do. major	"	1,91,928
Do. registration	"	8,123
Do. police	"	9,592
Total incomplete works	RS.	2,14,960
New minor works	"	36,841
Do. major do.	"	1,25,563
Do. registration works	"	9,917
Do. police works	"	15,950
Total new works	RS.	1,88,271
Lump sum of minor works	"	38,160
Total demand	RS.	4,41,391

but the demands made by the Superintending Engineer, I Circle, include many works for which funds have already been provided in the budget. The total of such demands amounts to Rs. 1,04,705. Provision is also made in the budget for completing "the 12 solitary cells in the Madras penitentiary," for which the Superintending Engineer, V Circle, has included a demand of Rs. 3,887. And the demands of the Superintending Engineer, IV Circle, include provision for "fencing Ootacamund lake with barbed wired," for which funds have already been sanctioned (*vide* G.O., No. 1429 W., dated 7th June 1886). Deducting the amounts referred to above, the actual demands will amount to Rs. 3,25,599.

6. The allotments sanctioned under Original Works are shown below:—

Incomplete minor	RS.	4,769
Do. major	"	61,859
Do. registration works	"	4,551
Do. police works	"	9,592
Total incomplete works	RS.	80,771
New minor works	"	19,865
Do. major do.	"	49,656
Do. registration works	"	5,995
Do. police	"	...
Total new works	RS.	75,516
Lump sum allotment for minor works as per statement A	"	32,365
Total allotment	RS.	1,88,652

7. The demands made for grants in addition to allotments already provided in the budget have not been complied with for want of funds at present. In such cases application for additional funds, if necessary, should be made later in the year.

8. In the case of new works grants have been provided for those works only the urgency of which has already been brought to the notice of the Government and for which provision of funds was promised to be considered in disposing of the demands on account of incomplete works.

9. Funds have been provided for the completion of all the incomplete works brought forward by Superintending Engineers, excepting in cases in which revised estimates are required.

10. The Superintending Engineer, IV Circle, applies for a sum of Rs. 11,752 for completing "the close cellular prison at Coimbatore." This work should have been included in the Superintending Engineer's budget estimates, and it is with inconvenience that provision has been made for this large demand from the small reserve intended for such of the incomplete works as were expected to be completed in 1885-86, but were not completed owing to unforeseen causes.

5TH NOVEMBER 1886, No. 2920 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers :—

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the
Chief Engineer, Public Works Department, dated Coimbatore, 16th October
1886, No. 396 E.W.

I have the honor to forward the accompanying three statements of savings and
demands under Imperial, Provincial, and Excluded Local.

2. Some further saving on the Malapuram barracks is anticipated, which will be
reported in statements of savings and demands to be submitted in January 1887.

3. The only item requiring special notice in the Provincial statement is No. 25,
“Erecting a fountain for the Adam Memorial, Ootacamund.” The estimate for this
work will be exceeded by Rs. 1,000 under the sub-head “Carriage and fixing,” &c.
As the excess is nearly 6 per cent. on the amount of the estimate, Rs. 16,850, the
sanction of Government is necessary to admit the excess outlay.

4. The Executive Engineer reports that there is not likely to be any further
excess on the estimate for this work.

5. The outlay for the first five months of the official year, April to August, was
small for the following reasons :—

(1) The budgets were received as follow :—

1. Imperial, Postal, 30th April 1886.
2. Do. Military, 8th May „
3. Provincial, 8th May 1886.
4. Irrigation, 19th „ „

Until receipt of the budgets, the only works that could be proceeded with
were new works in progress in last official year, and emergent repairs.

(2) Large allotments were made to the circle towards end of June* and in
July.† No special allotments were made
in April or May.

* Rs. 196,677 † Rs. 38,645

Of course, after allotments are received, tenders have to be invited, contracts
settled, and time given to the contractors to commence work. After special allotments
are made, a period of two to three months is needed before outlay begins to appear in
the accounts; and it is to be noted that in this case the budget allotments, which
came late, amounted to Rs. 4,21,883 and the special allotments to Rs. 2,35,322.

6. Another great cause of delay which must be taken into account is the fact
that the best part of the working season, April, May and June, was lost this year, owing
to the delay in receipt of budgets and sanction of special allotments.

7. Every endeavour, however, is now being made to spend the allotments, and
further statements of savings and demands will be submitted in January 1887.

From the same officer, dated Salem, 23rd October 1886, No. 407 E.W.

I have the honor to request you will be good enough to include the undermentioned works in the statements of savings and demands submitted with my letter, No. 396, of 16th instant.

6. Under Imperial, Military, the surrenders of grants proposed by the Superintending Engineer amount to Rs. 10,300, and the total additional funds applied for amount to Rs. 18,218, as detailed in the margin. The Superintending Engineer will, in the meanwhile, submit a revised statement restricting his demands for Minor Works to Rs. 4,600, which sum will be distributed on receipt of the sanction of the Government of India to the above transfers.

8. As there is no reserve with the Government under Postal, the Superintending Engineer will apply to the Director-General of Post Offices for the sum of Rs. 40 required for additions to the post office at Kotagiri.

9. The sum of Rs. 340 required for the Nilgiri division under Telegraph, Repairs, is allotted from the reserve with the Government under that head. The allotment of Rs. 230 required for the Coimbatore division under Postal, Repairs, cannot be appropriated, no funds being available.

12. With respect to the Superintending Engineer's explanation of short outlay in the first five months of the year, it is remarked that the preliminary issues of the budget estimates for 1886-87 were circulated in December 1885, and, excepting works for which estimates had not been sanctioned, it was open to the Superintending Engineer to make preliminary arrangements for the commencement of other works entered therein. It is not practicable to circulate the final issues of the budgets before the end of April each year, and those for 1886-87 were not issued later than usual. With respect to the special allotments made in June and July, the majority of them were given as applications were received from the Superintending Engineer, and one large allotment granted in compliance with the Superintending Engineer's statement of demands was not included in the budget owing to the failure of the Superintending Engineer to include it in the circle budget (*vide* paragraph 10 of G.O., No. 1594 W., dated 2nd June 1886).
