NOTE OF REMARKS.

The estimate under review amounting to Rs 12,570 provides for constructing an office for the Sub Magistrate of Shivaganga in the Madura District.

It is stated that the estimate was called for by the Collector in his letter No 131 of 19th January 1874, but its submission was delayed owing to a suitable site not being available. The site was selected in a portion of the Local Fund Dispensary Compound which the Taluq Board have agreed to make over for the sum of Rs 1,800.

The design proposed is in accordance with the

the type design sanctioned with G.O. No 1602 W. d/15th June 1887 but the existing buildings are to accord with the type plan approved in G.O. No 1014 W. d/20th April 1874 -

The foundations will consist 1½ feet of concrete and 3 feet of Brickwork this depth is considered sufficient as it is stated that hard gravel is met with 3 feet below ground surface

It is proposed to enclose the site by a compound wall 320 feet in length -

The deviations from the type plan are as follows -

1 The flooring is to be of Cement instead of Sq. bricks

2 The Exterior is to be plastered instead of pointed -

It is explained that only inferior quality of bricks are obtainable in the locality -

---

The rates are fair -

The Estimate has been countersigned by the Collector and approved by Govt: in the Rev: Deptt: -

Report by the Superintending Engin
VI Circle on the Estimate for Construct
a Sub-Magistrates Cutcherry with Sub
Jail and out houses at Shivaganga
in Madura District —— Rs 12,570

The Estimate was called for by the
Collector of Madura in his letter No. 13
of 19th January 1886 with reference to th
G.O. No. 1691 of 24th June 1874 passing
orders on the list of Civil Building
to be constructed in several Distric
But its submission was delayed on
account of a suitable site. The sit
now selected is a portion of the Loc
Fund Dispensary Compound which
the Taluq Board have agreed to mak
over for Rs 1800.

2 The present building being in bad
order and unsuitable for the purpose, it
Considered that the Construction of the
new building is highly desirable. The
main building is to be Constructed
on the Type design circulated with
G.O. No. 1602 W. dated 15th June 1887 and the
outhouses on that approved in G.O.

No.

No. 1014 of 20th April 1874.

3 Hard gravel being met 3 feet below the surface of the site the depth of the foundation allowed Viz 1½ feet Concrete and 3 feet masonry is considered sufficient. Compensation of Rs 1800 is allowed for the land in the Estimate in accordance with the statement enclosed. A compound wall to a length of 320 feet is estimated for to separate the site from the land to be retained by the Taluq Board for a new dispensary.

4 The only deviations made from the design is the substitution of Cement Concrete flooring for square brick flooring and plastering the exterior instead ~~to that~~ of pointing. Brick floorings are in practice found not suitable for public buildings, especially where as at Shivaganga first class brick earth is not obtainable.

5 The rates are suitable to the locality, and the Estimate is recommended for sanction.
