30th April 1888, No. 1260 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following papers :—

From J. W. MARTIN, Esq., Officiating Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 20th February 1888, No. 58 E.W. :—

I have the honor to forward to you a copy of letter, No. 262, dated 11th instant, from the District Judge, Coimbatore, with enclosures, suggesting certain alterations in the standard plan for a new court-house for the District Munsif at Karúr. The plan is the same as the one circulated with G.O., No. 2008 W., dated 27th July 1887.

2. The District Judge proposes to alter the plan as follows :—

- i. Remove the wall behind the dais and place it back in line with the main wall of the building.
- ii. Make the record-room the Judge's retiring-room and make the property-room the record-room.
- iii. Make the Judge's retiring-room a copyists' room and the vakils' room a room for the Nazir.
- iv. Make the room for the Nazarat establishment a room for vakils.
- v. Provide a new room for a property-room by enclosing a portion of the verandah.
- vi. Provide for two doors and two windows in the gumastas' room instead of four doors, and provide a weather-board for the window at the end of the room.
- vii. Provide two extra doors for the court-room, and close the door between the Judge's retiring-room and vakils' room and between the latter and the room for the Nazarat establishment; also to close the door in the back wall of Judge's retiring-room and substitute a window for the door in the front wall.

Besides the foregoing alterations, the Judge wishes that a shed for distrained cattle should be provided, and the District Munsif considers a well is necessary.

3. The District Munsif considers it is desirable to have a passage behind the dais for the head clerk to communicate easily with the copyists. He disapproves of having the vakils' room close to the Judge's retiring-room on account of the noise made when the vakils are transacting business with their clients, and therefore he considers the vakils' room should be at the end of the building. Both the District Judge and District Munsif consider a copyists' room should be provided, but the standard plan does not provide accommodation for copyists, nor is any provision made for a shed for distrained cattle.

4. As the standard plan was circulated so recently as July 1887, I do not know whether you will consider it necessary to make the additions and alterations proposed by the District Judge. I therefore request instructions about what I should do. As regards a well, which the District Munsif considers necessary, there is, I suppose, no objection to providing for one.

No. 876 C.

Referred, with advertence to G.O., No. 2543 W., dated 28th September 1882, to the Judicial Department for favor of information whether the proposed departures from the type design in this case are approved by the Government in that department and by the Honorable the Judges of the High Court.

2. The alterations will not materially increase the cost of the building.

(By Order.)

2nd March 1888. (Signed) W. L. C. BADDELEY, Captain, R.E.,
Under Secy. to Govt., P.W.D.

Referred to the Honorable the Judges of the High Court for favor of their opinion on the proposed alterations.

(By Order.)

9th March 1888. (Signed) A. G. CARDEW,
Under Secretary.

From T. M. HORSFALL, Esq., Acting Registrar of the High Court of Judicature at Madras, to the Chief Secretary to Government, dated Madras, 7th April 1888, No. 1113.

With reference to Mr. Under Secretary A. G. Cardew's endorsement, dated 9th March 1888, on current No. 1058, I am directed to state that the Honorable the Chief Justice and the Judges are of opinion that the alterations proposed by the District Munsif of Karúr, as modified by the District Judge of Coimbatore, are desirable and that they are an improvement upon the type design.

2. The papers which accompanied the above endorsement are herewith returned.

Transferred to the Public Works Department with papers returned and an intimation that the proposed alterations are approved by the Government in the Judicial Department.

(By Order.)

19th April 1888. (Signed) A. G. CARDEW,
Acting Under Secretary.

ORDER—dated 30th April 1888, No. 1260 W., Public Works.

The Government prefer to adhere to the type design.

2. The alterations suggested would impair the ventilation in two of the rooms, and the room suggested for use by the copyists would not have sufficient light. The passage behind the dais is only wanted if this suggestion is carried out and the copyists are placed in the Judge's retiring-room. They should, however, be placed in the back verandah behind the gumastas' room, the space from the end of the verandah up to the second pillar being enclosed for their use if necessary. The position of the back steps would then require to be slightly altered, and four doors should be provided to the gumastas' room.

2/1260

3. Weather-boards should be provided to all outside windows.

(True Extract.)

Captain, R.E.,
Under Secy. to Govt., P.W.D.

District Munsif's Court, Karur

Orders on correspondence regarding certain proposed alterations in the estimate for constructing a —.

[illegible] 105 8/

Regr No 185 with 8 Encl: 31-1-88.

Karur District Munsiff's Court.

No 17. B/1260 30th January 1888.

From,

T. M. Adinarayana Chetty,
District Munsiff,
Karur.

To,

G. D. Irvine Esqr,
Ag District Judge,
Coimbatore.

Respected Sir,

With reference to the Proceedings of the District Court No 141 dated the 23rd instant forwarding to me for any remarks I have to offer, the plans and estimates received from the Superintending Engineer for constructing a Court house at this station, I beg to make the following observations and suggestions:-

2. In the first place I find that no accommodation has been provided for the copyists establishment and for keeping attached live stock. There is

is no well, and no easy access from the Head Clerk's room to the Nazir's.

3. Next, as regards the arrangement of the rooms, the position of the vakils' room just behind the Judge's retiring room, must be productive of inconvenience both to the Judge and the vakils who may have often to consult with their noisy clients. The inconvenience to the Judge cannot, I think, be avoided by converting the vakils' room into the Nazir's and vice versa, for the Nazir shall have to deal with a large number of peons and amins, auction bidders, vakils and clients.

4. My suggestions to remedy the defects and the inconvenience I have pointed out above, are as follows:—

(1) The room intended for the Judge's chamber might be allotted for the Copyists establishment which would then be kept within view of the Judge which is very desirable.

(2). I would convert the Record room into the Judge's chamber or Retiring room with an entrance from the Court room and the Property room into the Record room with a similar entrance from the Court room. The change is desirable in order to keep the Judge's chamber as close as possible to the Head Clerk's and the Gumastahs' rooms and the Record room close to the Copyists establishment which, I think, shall have more to do with the record clerk than the Regular Establishment.

(3) Behind the Dais a passage about 2½ feet wide might be left by pushing back the rear-wall of the Court room and bringing it in a line with the rear-walls of the side rooms. The passage is necessary not only to provide easy access between the Head Clerk's and Gumastahs' rooms on the one side and the Copyists' and Nazir's rooms on the other side, but also to enable the opening up of doorways to the Judge's chamber

chamber and the Record room from the Court room. By pushing the rear-wall of the Court room a little behind as suggested, no doubt the Judge's chamber and the Record room would lose about 2¾ or 3 feet in length, but they would become symmetrical and present a better appearance; and the accommodation left would quite suffice. The Record room would then be about 19 feet long and a row of record racks or almyrahs to that length would, I think, be quite sufficient, as I would place a pair of almyrahs on the dais at the back of the Judge's seat one on each side for keeping Law-Reports and other books within easy reach of the Judge, and the stationery almyrah in the Head Clerk's room. The placing of a pair of almyrahs on the dais as pointed out would not only present a good appearance to the Court room but would offer a cover for the clerks and the Copyists Examiner passing

through

through the passage behind. I do not consider that by pushing behind the wall as suggested, the section of the building would be affected, so far as I can judge from the Plan.

(4) I would locate the Nazir's establishment in the Vakils' room and convert the Nazir's into the Property room.

(5) Addition of a room for Vakils now becomes necessary. I would have a room 15 feet by 15 or 12 with a verandah at the front for the suitors' stay, erected at a distance and apart from the main building, say in the south-east corner of the Court compound. That the Vakils' room must be distinct and apart from the main building was, I think if I can trust to my memory, the view of the High Court or the Govt. expressed in the correspondence which ensued on the subject about the middle or end of 1882 and embodied in a G.O. and circulated to all District Judges.

(6)

(6) A tiled shed with enclosed space attached to it for keeping attached cattle &ca might be erected in the north-east corner of the compound.

(7) A round well with a pardpet wall and a pulley and Zinc bucket to bale out water somewhat close to the latrine is very desirable. The water in the river when low generally keeps close to the opposite bank, and it would be very inconvenient especially during the hot season to walk over the burning sand bed and to go all the way to the opposite bank for water and it must also entail a great waste of time on the establishment.

(8) A small trap-door or wicket door at the back of the Court house in the north compound wall is equally desirable for the convenience of suitors and others arriving by rail and having to return by rail. They will then be spared the trouble of passing round the Court Compound wall over a longer

distance

6/12 80

distance of about 400 to 500 feet. I do not think the Railway Agent would grudge a foot-path from the wicket-door to the station-house.

5. The enclosures to the Extract of Proceedings under reference are herewith returned.

J. W. Martin Esq.,
Offg. Superintending Engineer,
IV Circle,
Coimbatore.

Sir,

In reply to your letter No. 5/m dated 7th January 1888, I have the honor to return the plans & estimate* for the proposed new Munsiff's Court house at Karur, and to suggest for your consideration certain additions and alterations, which appear to me to be necessary to make the building suitable. I enclose a letter from the District Munsiff on the subject. (30th Jany.)

The

* to be returned.

The plan provides no room for the Copyists, which is very essential. This can be supplied by arranging the rooms differently, and enclosing a portion of the back verandah to make a Property room.

The District Munsiff wishes to have a shed for distrained live stock, and a well. These can be constructed, I believe, at a moderate cost, and are very desirable additions.

I think his suggestion to remove the wall behind the Dais to a line with the other walls is a good one. I have suggested the opening of a door on either side which will complete the arrangement.

The other alterations are in the direction of greater security and uniformity of appearance.

I have consulted Mr. Lambert personally, and he agrees with me as to the desirability and feasibility of the proposed alterations. If you concur, I shall be obliged by your letting me have

the

8/1280

the revised plan and estimate for submi
-sion to Government at an early date.

I have the honor to forward to you a copy of letter No 262 dated 11th instant from the District Judge, Coimbatore, with enclosures suggesting certain alterations in the standard plan for a new Court house for the District Munsiff at Karur. The plan is the same as the one circulated with G.O. No 2088 W dated 27th July 1887.

2. The District Judge proposes to alter the plan as follows:

I. Remove the wall behind the dais and

and place it back in line with the main wall of the building.

II. Make the record room the judge's retiring room and make the property room the record room.

III. Make the judge's retiring room a copyists room, and the vakeels' room a room for the Nazir.

IV. Make the room for the Nazarat establishment a room for vakils.

V. Provide a new room for a property room by enclosing a portion of the verandah.

VI. Provide for two doors and two windows in the gumastahs' room instead of four doors, and provide a weather board for the window at the end of the room.

VII. Provide two extra doors for the Court room, and close the door between the judge's retiring room and vakils' room, and between the latter and the room for the Nazarat establishment: also to close the door in the back wall of judge's retiring room, and substitute a window for the door in the front wall.

Besides the foregoing alterations the judge wishes that a shed for distrained cattle should be provided, and the District Munsiff considers a well is necessary.

3. The District Munsiff considers it is desirable to have a passage behind the dais for the head clerk to communicate easily with the copyists. He disapproves of having the vakils' room close to the judge's retiring room on account of the noise made when the vakils are transacting business with their clients, and, therefore, he considers the vakils' room should be at the end of the building. Both the District Judge and District Munsiff consider a copyists' room should be provided, but the standard plan does not provide accommodation for copyists, nor is any provision made for a shed for distrained cattle

4. As the standard plan was circulated

circulated so recently as July 1887. I do not know whether you will consider it necessary to make the additions and alterations proposed by the District Judge. I therefore request instructions about what I should do. As regards a well which the District Munsiff considers necessary, there is, I suppose, no objection to providing for one.
