11th January 1888, No. 100 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following letter from Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 7th December 1887, No. 3739 :—

With reference to G.O., No. 2341 W., dated 31st August 1887, I have the honor to submit for sanction a revised estimate of Rs. 2,570 for constructing a platform and setting up a ten-ton crane on the Buckingham Canal, Madras Basin.

2. The original cost of the work, as reported by the Superintending Engineer, II Circle, in his letter No. 24 B.C., dated 27th April 1887, printed in G.O., No. 318 I., dated 13th May 1887, is Rs. 1,330. The causes of the excess of Rs. 1,240 are explained in the comparative statement accompanying the estimate.

Order—dated 11th January 1888, No. 100 W., Public Works.

The estimate, amounting to Rs. 2,570, for erecting a ten-ton crane at the Madras Basin, Buckingham Canal, is sanctioned.

2. This sanction has been registered as Provincial, No. 142 W. of 1887-88, and classified as Tools and Plant.

(True Extract.)

(Signed) W. L. C. BADDELEY, Captain, R.E.,
Under Secretary to Govt., P.W.D.

To the Superintending Engineer, V Circle, with four enclosures.

sum provision gran

Note.

The accompanying list will show works for which funds were promised to be provided early in April. The list contains one minor work under Military and one minor & three major works and one Tools and Plant under Provincial.

Under Military the Budget works have already been determined and a separate provision is made for minor works of 1888-89. Appropriation can therefore be sanctioned now for the one work under Military from the lump sum provision for minor works.

But under Provincial as the works selected by the Committee will be supplemented with several other works since sanctioned and provision of funds promised, the amount of the reserve with the Government for incomplete and minor works can only be determined after the requirements on account of the Budget works are ascertained. Funds cannot therefore be provided for the works shown in the list before the issue of the Final Budget which should be worked out for the total grant assigned for the year. The works will however be kept in view and included in the Final issue now under preparation.

F
13/4

CAW

I fancy nothing need be done with respect to the provincial works until the final issue of the Budget goes out.

If S.E.s want funds before that, they will doubtless apply, & the question can then be considered —

Works Nos 1 to 4 in the Provincial list will be included in the final issue of the Budget. Funds for No 5 can easily be given after issue of the Budget

The S.O. giving funds to the Mily. works can issue at once if approved [illegible]

To

Ch 13.4.88

W

The Govt. promised funds for these works Early in April. There is no question as to the Reserve being sufficient to provide for them. And there is thus no reason why the allotments should be deferred, and the works themselves delayed. Draft orders has therefore been prepared making the allotments.

No. 850.C dated 15th April 1882.

Memorandum

Letter from the Superintendent of Stationery No. $\frac{394}{749}$ dated 23rd March 1882.

The foregoing letter from the Superintendent of Stationery will be communicated to all Officers concerned for information with reference to the reductions made in the quantity of certain

articles

articles indented for, in accordance with the sanctioned scale. In submitting Stationery Indents for the next Official year care should be taken that the points noticed by the Superintendent of Stationery are attended to, the sanctioned allotment for each article only being entered and no more.

2. The Superintending Engineer 5th Circle and the Supt. P. W. Stores will furnish the Superintendent of Stationery direct with the information required in paras 8 and 10 of his letter.

3. The Superintending Engineers 1st 2nd and 4th Circles have indented for section Paper $\frac{1}{20}$th for rise and fall of rivers, and these Officers will intimate to the Superintendent of Stationery whether there is any objection to a similar quantity of Royal Paper $\frac{1}{20}$th being supplied in lieu.

4. The minor Indent for the Sungum Project has been included in the Indent of the Superintending Engineer 2nd Circle, and the total quantities entered in the consolidated Indent herewith returned. Any alteration necessary in the quantity of quills, Steel pens &ca indented for may be made by the Superintendent of Stationery, and the Superintending Engineer informed accordingly.

5. The duplicate minor Indents of the Superintending Engineer 3rd Circle are herewith forwarded. The total quantity of each article therein entered shows the quantity now indented for, and that on hand.

6. The Indents are herewith returned to the Superintendent of Stationery with the several alterations duly noted.

Please note overleaf —

I presume provision for item 1 has been made under "Tools & Plant"?

23.4.88

S.A.W.

As the budget grant for Tools and Plant is not distributed in the budget, no provision has been made for item 1 in the final issue. The item has been noted and will be duly provided in the orders on the statements of demands for incomplete and minor works, repairs, and tools and plant. Item 5 being minor work also has been noted for provision of funds in the statement of demands. But as C.A.W. does not wish the allotment
