Quoting no rule which
bars the charge against
"Works". It may therefore
be assumed that the
Govt. can so sanction
the charge if thought
desirable.

Whether any general
rule on the subject is
necessary seems questionable.
One effect of such
general rule would be
perhaps to attract
attention to the matter,
and bring in claims to
warm clothing which
have not hitherto been
preferred.

N.S.

The charge for warm clothing
may be sometimes even
charged to Works.

A general rule is not desirable,
each case should be dealt with
on its merits.

In G.O. No. 9 W. dated 5th.

January 1888 Government decided that it was not desirable to issue any general rule on the subject of sanctions for warm clothing, preferring that "each case should be decided on its merits"; but this apparently means that each case should be decided by Government, and if so, it is, I think, a general ruling which it would be desirable to embody in the Code; as, in the absence of any rule on the subject Executive Engineers will continue to incur such charges without the sanction of Government, and apparently I can have no justification for objecting thereto.

2. As an instance in point the Executive Engineer Vizagapatam Division has recently incurred (without

To Sir,

In answer with refer
to your note of 19.12.87,
attached to Cus 10368/87.

To prevent references
of this kind, the words
"excluding works artist"
might be inserted after
the words "To any artist"
in the third clause
of Code para 824.
It might perhaps
be desirable to add
a note to the effect
that the grant of
warm clothing to
works artist should
be restricted to men
only, to be employed
continuously for some
time, say not less
than three or six
months.
