No 939 d/9th January/88

It is proposed to wire as follows in reply to this message:—

"Your telegram fifth instant & Adjustment value English bridges can be effected later on obtaining receipt allotment for purpose. No sum should now be reserved on that account from grant for Vizagapatam. Examiner informed accordingly."

Please say whether you see any objection. Very early reply requested.

It appears that the amount of the bridge is in excess for "naugind" which is not on 14th October, and adjustment to debit of work cannot apparently be postponed much longer, as the same may occur any day, if indeed they have not already occurred. The best plan therefore will probably be for first to authorise issue of funds

to the extent required, in anticipation of saving to be made available hereafter, but if there is any doubt about this saving, application should be made at once to the Financial Department for an additional grant. The English bridge grant is adjusted in this year's accounts, and the same is done for the other bridges.
