GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers:—

From ALFRED JOYCE, Esq., General Superintendent, Public Works Stores, to the Superintending Engineer, V Circle, dated Madras, 16th April 1888, No. 48 S.

I have the honor to forward, for submission to Government, through the Examiner, Public Works Accounts, special indent, in triplicate, for two type-writing machines, &c., required for use of the office of Examiner, Public Works Accounts.

2. In G.O. No. 2526 W., dated 23rd September 1887, sanction was accorded for purchasing these machines from Messrs. Newman and Co., Calcutta, but as this firm as well as others had none, but were willing to import them, the offer was declined by the Port Storekeeper, Calcutta, to whom I had applied to examine and purchase the machines, if approved. I referred the above to the Examiner, Public Works Accounts, who desires that the machines may be obtained from England, and, in accordance with his wish, the enclosed indent is forwarded.

No. 222.

Forwarded to the Chief Engineer, Public Works Department, through the Examiner of Public Works Accounts.

Bangalore,
18th April 1888.

(Signed) H. M. VIBART, Colonel, R.E.,

(Signed) C. H. P. CHRISTIE, Major, R.E.,
Examiner, Public Works Accounts.

Order—dated 11th February 1888, No. 486 W., Public Works.

With his letter above recorded, the Superintending Engineer, V Circle, submits the annual home indent for articles of European manufacture required by the Public Works Department during 1888-89, together with the budget estimate for tools and plant for the same year.

2. A sum of Rs. 40,000 has been provided for London supplies in the preliminary issue of the Provincial budget for 1888-89, and the question of providing funds required for expenditure in India on account of tools and plant will be considered in the orders on the statement of incomplete and minor works, repairs, and tools and plant.

3. The attention of the Superintending Engineer, V Circle, is drawn to paragraph 5 of the revised rules printed with G.O., No. 202 W., dated 25th January 1886, under which indents should be numbered progressively. The present indent is the third sent forward to the India Office since the beginning of the current calendar year, and will therefore bear No. 3 of 1888.

4. Ordered that the indent be forwarded to the Director-General of Stores, India Office, and a copy to the Government of India for information.

Proceedings of the Madras Government, Public Works Department,
11th April 1876.

32/5

No. 223. Read the following letter from Captain L. CONWAY-GORDON, R.E., Examiner of Public Works Accounts, to Major-General G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 3rd April 1876, No. 2 W.:—

I HAVE the honor to call the attention of the Madras Government to the accompanying extract from one of the local newspapers with regard to a newly invented '*type-writing*' machine, and with reference thereto, to inquire whether the Government has any idea of trying one or two of these machines with the object of introducing them into the Government Offices.

2. The newspaper, from which I cut the enclosed extract, does not at present appear to be an agency for the sale of these machines. I have moreover seen statements to much the same effect in some of the most respectable English newspapers. I think therefore I may assume that the account given in the extract is, in the main, a faithful description of the machine.

3. It can print about twice as fast as a man can write. Its price is £21. Taking the ordinary salary of a fair writer to be about Rupees 20 to Rupees 30 per mensem, or Rupees 240 to Rupees 360 per annum, it is evident that the cost of each machine would be about repaid in a year's working, without taking into consideration the time that would be saved by Government were all correspondence with Government to be conducted in type.

4. Should Government have any idea of trying these machines, it would indeed be a work in which I should take more than ordinary interest were Government to permit me to place myself in communication with the makers; to get out two or three machines adapted for quarter and half margin foolscap; to train myself and a few intelligent hands to work these machines; to keep accurate accounts of the time and labor spent upon them, and, after six or eight months' trial, to place before Government the economic results of the experiment.

5. If it pays Messrs. H. King and Co. to use these machines in their commercial correspondence, it certainly ought to pay Government if used for official communications, which are, as a rule, longer than those which leave a Merchant's office.

No. 224. ORDER THEREON, 11th April 1876, No. 967.

ACCOUNT, No. 14.

THE Government approve of the suggestion made by Captain Conway-Gordon who will communicate direct with the English makers.

(True Extract.)

OFFICE NOTE No. 326

Enclo. 1

To

W.

KEEP-WITH Genl. No.

dated 188 .

The two type-writing machines — the purchase of which was sanctioned in G. O. No. 967 dated 11th April 1876 which have been in constant use in this Office since July 1876, are now out of order. The wires in the machine to which the types are attached, are weak and slack and consequently the writing is very uneven and the impression from the types not perfect.

2. One of these machines was sent to the P. W. Workshops in November 1884 for repair, the repairs appeared to have been well executed, but the wires again got out of order in a very short time. I am of opinion that when these machines once get thoroughly out of order, they cannot

1000—12-5-87.

E.1

P.W.C. No. ~~54~~ 351

6998/87

be properly repaired in this country.

3. I therefore beg that Government may be moved to authorize the Superintendent P. W. Stores to indent for two type-writing-machines (type-writer No. 2 as per diagram in the accompanying pamphlet), as also the marginally noted articles for the use of this Office.

3 spare sets of types for each machine
2 dozens black ink ribbons
3 dozens rubber bands

4. On receipt of these new machines, the old ones purchased in 1876 will be sent to the P. W. Stores for sale.

D. W.

No 511 d/ 6-9-87

To W.

1457/11

Encl. ~~one~~ two

The cost of the perfected type writer No. 2 — the purchase of which was sanctioned in G. O. No. 2836 W dated 8th. December 1880 amounted to £. 23-5-1 delivered at Madras.

2. The probable cost of the two machines now required and the necessary requisites may accordingly be estimated as follows:-

2 machines at £. 23-5-0	£46-10-0
2 sets (not 6) of types at £ 4-4-0..........	£ 8- 8-0
24 black ink ribbons at 5 s...............	£ 6- 0-0
2 dozen rubber bands at say..............	£ 0- 2-0
	£61-0-0

or at 1 s. 6 d. per rupee Rs. 813-5-4.

3. I do not think there are any better machines. In all the new patents (for different forms from the Remington) the principal object seems to have been portability, whereas we require principally, durability and working capacity.

4. The perfected type writer No. 2 prints upper and lower case (capital and small letters) and is one that — the capabilities of it having been tried and tested by

P.W.C. No 6998

this office — is found to be a great improvement on the machines purchased in 1876, which print capital letters only.

5. Two descriptions of type writing machines are advertised for sale by Messrs. W. Newman and Co. at Calcutta - please see the advertisement on the last page of the enclosed "Indian Omnibus". Of these, the type writer No. 2 appears to be of the same description as the ones proposed to be purchased. This machine is sold by that Firm at Rs. 325 nett. As the office is put to inconveniance in consequence of the machines purchased in 1876 not being in perfect order, and there must be great delay in replacing them by others from England, I would suggest that Government might sanction the purchase of two of these for this Office under Appendix G., para 3, clause 2. They would probably cost no more than if imported from England.
