PUBLIC WORKS DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), dated 13th April 1888, Mis. No. 2385:—

Hon'ble W. S. WHITESIDE.

Read—the following letter from H. Sr. A. GOODRICH, Esq., Collector of Bellary, to the Secretary to Government, Financial Department (through the Commissioners of Land Revenue), dated Bellary, 29th March 1888:—

The Head Assistant Collector's office at Hospet is not provided with a well and a latrine. Their want is very much felt both by the parties attending the office and by his establishment, and the inconvenience is augmented by the absence of water convenience in the neighbourhood of the office. In these circumstances, I think it necessary that the office should be provided with both.

2. I have the honor to forward herewith, for sanction, plan and estimate (Rupees 1,498) for constructing a latrine on the standard plan and sinking a well, prepared by the Superintending Engineer at the request of the Head Assistant Collector.

3. I have countersigned the estimates of my professional adviser, on the understanding that they are works on a standard scale, but I consider the expenditure proposed extravagant.

Resolution—dated 13th April 1888, Mis. No. 2385.

The plan and estimates for constructing a latrine and sinking a well in the compound of the Head Assistant Collector's office at Hospet, at an aggregate cost of Rs. 1,498, are submitted for the sanction of Government and for the provision of funds in the budget of the Public Works Department.

2. The concluding sentence of the Collector's letter appears to be intended to apply mainly to the estimate for the latrine.
