Superintending Engineer, VI Circle.

Submitted to the Chief Engineer, Public Works Department, through the Examiner, Public Works Accounts, Madras.

2. The Executive Engineer, Tinnevelly Division, has applied for an additional temporary clerk, on Rs. 20 per mensem, for a period of three months, to sort the records connected with the accounts, and to verify the statements of expenditure on agricultural groups forwarded by the Examiner, Public Works Accounts. As this officer wants the statements to be verified quickly, it is requested that the additional hand now applied for may be sanctioned.

Submitted to the Chief Engineer, Public Works Department, for sanction.

2. The five upper subordinates in the Rampad division are working under the Executive Engineer's direct orders, there being no sub-divisions; consequently the work in the division office is heavier than would be the case if there were sub-division establishments. The additional clerk on Rs. 15 now applied for is absolutely necessary.

3. The continued employment of the temporary clerk on Rs. 30 in the Madura division office is recommended for the reasons given in the Executive Engineer's letter, No. 490 S.E., dated 3rd October 1887, printed with G.O., No. 2935 W., dated 5th November 1887. As it is proposed to spend nearly a lakh on irrigation works next year in the Dindigul sub-division, and there will be a very large number of works in hand, the office work will be greatly increased, and the services of an extra clerk on Rs. 20 per mensem are indispensable.

4. The establishment asked for is the same as at present sanctioned. The necessity of employing a special Executive Engineer in charge of the bridge will probably not exist after 30th November; but as it is uncertain when the arches will be finished, and what reductions can be made when the Executive Engineer leaves, establishment for the whole year has been asked for.

5. The services of the temporary clerk are indispensably necessary in order to get the records of the Tinnevely division into proper order, and the temporary draftsman is required for completing the plans of the Government buildings and lands.

6. An extra clerk on Rs. 15 for the Superintending Engineer's office is also applied for. The office is in correspondence with seven Executive Engineers and four Collectors. Current and routine work is very heavy, and I consider an extra hand is needed. The present establishment frequently work extra hours.

tioned.

Copy of letter from the Commissioner
P. W. Accounts, Madras, to the Superintend-
ing Engineer to the Circle, No. 385, dated
25th April 1888.

Referring to the Correspondence
ending with your Memo. No. 888 J. M. dated
10th March 1888 I have the honor to point
out that although about eight months
have elapsed since the transmission of
the statements of expenditure in Agricul-
tural groups in Tanjore District for
verification, they have not yet been
returned verified.

2. From the Executive Engineer (Tanjore)
letter No. 2384 dated 30th October 1887 and from
para 5 of your Memo forwarded with G. O.
No. 1004 W. dated 28th March 1888, it is under-
stood that a temporary clerk has been
continuously employed in sorting the records
of the Tanjore Division for the past
six months, since 30th October 1887, but
the Executive Engineer is still unable to
say even approximately when the
verification of the statements is likely to
be completed. I therefore beg to suggest,
for your consideration, whether it would
not be better to obtain sanction to employ
a second extra clerk and get the work
done more quickly.
