GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following letter from M. R. Ry. V. KRISHNAMA CHARIAR, Joint
* Secretary, Victoria Hospital for Caste and Gosha-women, to the Secretary to
Government, Public Works Department, dated Madras, 12th June 1888:—

I have the honor, by desire of the committee of the hospital for caste and gosha-
women, Madras, to ask you to be so good as to place before His Excellency the
Governor in Council the plan and esti-
mate* of the hospital building, and request
that the Government may be pleased to
authorise the Public Works Department
to undertake its construction on the site already granted in the Chepāk compound,
either without charge for establishment, or at the lowest rate possible, this being a
charitable institution.

The only alterations which the committee would suggest in the plan prepared
by Mr. Brassington, which, I understand, has already been seen by you, are—

- (1) That instead of scattering the patients into four separate blocks of hospital
wards, two upper-storeyed blocks be built (together with two floors of
bath-rooms) close to the administrative block, the foundation and walls
of these two blocks being made capable of bearing each an upper
storey, and the ground floor of the northern ward alone being partitioned,
according to the plan for the labor ward and special patients. This
arrangement of two compact upper-storeyed blocks is recommended on
grounds of economy and for efficient supervision and convenience as
well.
- (2) The godown contractor may want a small godown, but this could be put
next to the stables, and would cost little; the committee will not trouble
the department about that. But in this connexion I have to mention
that one of the out-houses indicated in the plan need not be commenced
until after fair progress has been made with the main building, and
the original estimate has been carefully revised as suggested by the
Consulting Architect.

In case these suggestions of the committee receive the approval of Government,
I am to request that the work may be ordered to be commenced without delay and
carried out with all possible despatch, to save the heavy charge for house-rent now
incurred, and to remove the inconvenience to which the patients are at present
subjected by locating the hospital in unsuitable buildings.

ORDER—dated 18th June 1888, No. 1805 W., Public Works.

The work will be carried out by the Consulting Architect to Government under
the rules laid down in paras. 1339—1342 of the Public Works Code.

2. The plan should be revised in accordance with the requirements of the com-
mittee, and the estimate submitted for the approval of Government.

Contributed

3. The contribution, on account of Public Works establishment, will be fixed at 5 per cent, on the estimate, or about the equivalent of what will actually have to be paid for petty establishment.

(True Extract.)

Captain, R.E.,
Under-Secy. to Govt., P.W.D.
