11th May 1888, No. 1386 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers:—

G.O., dated 9th March 1888, No. 792 W., Public Works.

Read—the following Office Note from the Examiner, Public Works Accounts, dated Madras, 3rd March 1888, No. 1152.

With reference to Rule 2, Section 106 of the Civil Pension Code, 6th Edition, which requires medical certificates for admission to the Government service only in the case of appointments in a "superior" grade of the service, the Executive Engineer, South Arcot division, has raised the question whether, under Public Works Department Code, para. 50, such certificates are required from persons appointed to inferior service also.

2. The rule in the Public Works Code apparently requires that medical certificates should be furnished both for superior and inferior service in pensionable grades, but if Government do not require more than what is laid down in the Civil Pension Code, the Public Works Department Code might be altered to accord therewith; if, on the other hand, irrespective of the liability for pension, which is all that the Civil Pension Code looks to, Government consider it desirable to have some guarantee of physical fitness even for inferior service in the department, the Code rule might be made quite clear by the insertion of the words "whether in superior or inferior service" before the word "grade" in the first line of para. 50.

3. Orders of Government are solicited.

Order—dated 9th March 1888, No. 792 W., Public Works.

The rule in the Public Works Code should conform to that in the Civil Pension Code on which it is presumably based.

(True Extract.)

(Signed) W. L. C. BADDELEY, Captain, R.E.,
Under-Secy. to Govt., P.W.D.

Office Note from the Examiner, Public Works Accounts, dated Madras, 25th April 1888, No. 1400.

Referring to G.O. No. 792 W., dated 9th March 1888, I find that the rule in para. 50 of the Madras Public Works Department Code is based directly on the Government of India Public Works Department Code, Volume I, Chapter IV, para. 11, the wording being identical in the two cases. I would, therefore, suggest that a reference should be made to the Government of India before finally deciding the question.

2. I take this opportunity of pointing out that, whilst the medical certificate prescribed in the Civil Pension Code is stated to be required as a precaution against undue liabilities for pensions, the form of certificate prescribed makes no reference to this liability. It seems quite possible that an applicant for service, though suffering from no disease or constitutional weakness unfitting him for service in a particular department, especially when the employment is sedentary, may nevertheless be in such a condition as to make it likely that he will have to be prematurely pensioned.

ORDER—dated 11th May 1888, No. 1386 W., Public Works.

No reference to the Government of India seems to be necessary, as it does not appear that the rule in their Code was ever communicated to this Government for guidance.

2. Paragraph 2 of the Examiner's later Note will be considered in the Pension Department.

The Madras Govt are not bound by any rule in the Govt of India Code which has not been specially communicated for guidance. This is the general rule – but in the numerous revisions and alterations to which the Madras Code has been subjected, it is now almost impossible to say what rules have been so communicated and which have been voluntarily adopted.

The present rule has probably been reproduced in the Madras Code in one of the revisions carried out by the Examiner.

If the Examiner insists on a reference to the Govt of India, the local Govt are bound to make it –

1888.

Office Note No. 1152

Madras, 3 March 1888.

To W.

With reference to rule 2 Section 106 of the Civil Pension Code, 6th. edition, which requires medical certificates for admission to the Government service only in the case of appointments in a "superior" grade of the service, the Executive Engineer South Arcot Division has raised the question whether under P. W. D. Code para 50, such certificates are required from persons appointed to inferior service also.

2. The rule in the P. W. Code apparently requires that medical certificates should be furnished both for superior and inferior service in pensionable grades, but if Government do not require more than what is laid down in the Civil Pension Code, the P. W. D. Code might be altered to accord therewith; if, on the other hand, irrespective of the liability for pension, which is all that the Civil Pension Code looks to, Government consider it

desirable to have some guarantee of physical fitness even for inferior service in the department, the Code rule might be made quite clear by the insertion of the words "whether in superior or inferior service" before the word grade in the first line of para 50.
