Sir,

I have the honor to invite your attention to the fact that the present is an excellent opportunity for appointing an Apprentice Overseer to this Division to learn his work under the supervision of Sub Conductor R. A. Bragg — as laid down in paras 101 to 105 of the P. W. Code.

When are they?

There are several works of importance in progress or in prospect, and I am sure that no better upper subordinate than Mr Bragg, as instructor, could be found in the Presidency, and he would be glad to have some one to help him in his work.

I have the honor to be

Sir

Executive Engineer, Nilgiri Division,

Sir,

I have the honor to state that Corpl. F. W. Cornwell, apprentice overseer, reported himself for duty in this Dn. on the afternoon of June 17th 1887. His year of probation has, therefore, very nearly expired.

2. I have nothing but good to report of Mr. Cornwell. — He is steady, sober, industrious, & zealous, is physically strong and active, takes great interest in his work, rides well, is popular with natives, & has been of great use to me in Ootacamund in helping to supervise

the

the works under construction there. He is a good linguist and an accurate leveller. Altogether, I have never known a young subordinate who gave greater promise of becoming with experience a very useful member of the Deptt.

3. I beg formally to apply for his services in this Division & trust that he may be allowed to remain here for the following reasons:-

(1) Both Suboverseer Mr. Whitlock & Road Subt. Numberumal Iyer are very sick, and incapable of supervising the maintenance of the ghaut road. I propose giving Mr. Cornwell charge of it for the present. I think it would be well to transfer Mr. Whitlock to the plains, as he never seems to be well now.

(2) I wish to put Mr. Cornwell in special charge of the Coholadi Bridge, and the construction of the Vayitri Gudalur Road, when we commence work on them in Octr. next. He has been on the former work for the past 6 weeks, & has managed to obtain & keep labour in a locality where labor is very scarce, & I should like him to have charge of the work when we again commence operations.

I have the honor to be
Sir
Yours most obdt. Sert.
