From J. W. BRASSINGTON, Esq., Consulting Architect to the Government of Madras, to the Chief Engineer, Public Works Department, dated Chepâk, 2nd August 1887, No. 644.

In returning the papers received with your endorsement, No. 2494 C., dated the 26th July 1887, I have the honor to state that the estimate provides for renewing

445 running feet of the parapet wall on the north side of the building and 14 vases over pedestals. Brickwork of this description, plastered, will cost about one-third of the amount provided in the estimate. Plastering in this locality after it once begins to corrode has to be renewed every five years, and owing to the great height of the buildings it is difficult and expensive work. Stone, on the other hand, will not need repair and will always look better. For these reasons, as stated in the report accompanying the estimate, the parapet wall on the west side was rebuilt of stone in the year 1884-85.

ORDER—dated 12th August 1887, No. 2143 W., Public Works.

The estimate, amounting to Rs. 1,190, for reconstructing with stone the parapet wall on the north side of the Revenue Board office at Chepák, is sanctioned against the minor works grant to the Consulting Architect's division.

2. This sanction has been registered as Provincial, No. 73 W. of 1887-88, and classified as Civil Buildings, Original Works.
