PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper

From the Officiating Sanitary Commissioner, Madras, dated
3d December 1887 No. 1612

With reference to the water supply scheme of
Ootacamund, I have the honor to suggest the advisability
of periodically analysing the water of the Marlumund
reservoir with a view of testing its purity from time
to time. The results of analyses may show that
it will be necessary to construct filtering tanks and
filter beds.

No. 4541C dated 9th December 1887

Transferred to the Public Department
for issue of the requisite orders.
